

**TOWN OF SOUTHWEST RANCHES
ROLLING OAKS PASSIVE OPEN SPACE PARK POND CLEANUP
RFP 22-011 - Questions and Answers
ADDENDUM 1**

- **Question:**

With the understanding that the pond cattails need to be sprayed 2 weeks after initial cutting, is this bid for a one-time service or is this for an ongoing (i.e. monthly/quarterly/annual) service?

Response

The Proposal is a one time service. That may take more than one day to complete, so a repeat treatment 2 weeks after initial is called for. Once the project is done, ongoing maintenance of the area will be accomplished via a separate procurement.
