

Congratulations! NWF has just finished reviewing all your documentation and habitat certifications to verify that you have met your goals and accumulated the points needed to become certified as an NWF Community Wildlife Habitat. I am sure you and your team members are very excited about your accomplishment!

If you have not done so already, you should begin planning how you will celebrate your achievement in your community. NWF has a guide for planning your celebration – simply search for “Certification Celebration” on the Resources page of the website. This guide will walk you through a variety of actions you might wish to take to celebrate, including a celebration event checklist, a template media advisory and press release, ordering Community Wildlife Habitat signs and more.

Please let NWF know the date and time for your event as soon as possible, as we would like to send a representative to present the certificate and acknowledge your success (we typically need at least two months’ notice to guarantee NWF participation). You can also now print your certification certificate directly from your community’s profile page and see the requirements for annual re-certification.

We look forward to hearing back from you soon. Congratulations!

All the best,

The NWF Community Wildlife Habitat Team
