

## **Assistant Town Engineer, Town of Southwest Ranches, FL**

Under limited supervision of the Public Works Director/Town Engineer, performs professional civil engineering work in the design, inspection, construction and maintenance of public works projects and facilities. Also coordinates and reviews design and construction of private projects to ensure compatibility with Town ordinances and facilities. Is responsible for closely inspecting projects under construction and ensuring existing facilities are maintained in accordance with proper engineering practices and techniques.

The employee reviews plans and permits for various engineering projects; reviews drawings; issues specifications; performs calculations; determines compliance with codes and standards; and undertakes designs, permitting, and project management tasks when assigned to do so. Responsibilities include engineering inspections of new developments, roads, and utility infrastructure. The position also evaluates results, initiates reports, and manages assigned programs.

Bachelor's Degree in Civil Engineering or closely related field from an accredited college, and Registration as a Professional Engineer in the State of Florida required. In addition must have National Incident Management System (NIMS) certification (level to be determined by job classification requirements) or obtain within one year of employment.

Valid FL D/L, \$95,000 - \$124,000 annual starting salary DOQ + excellent benefits including insurance & retirement account. Open until filled; initial review period 7/29/2022.
