DESCRIPTION

Construction of a new twin 48" culvert interconnect under Dykes Road to provide connectivity between the new SBDD receiving canal located at the SW Meadows Sanctuary Park and the existing SBDD canal at Calusa Corners Park. The improvements will involve the construction of approximately 148 Linear feet of twin 48-inch reinforced concrete pipe (RCP).

SCHEDULE

Design: Underway
Bidding: Estimated Spring 2024
Construction: Estimated Summer-Fall 2024

Dykes Road Piping

LOCATION MAP

Estimated Project Cost: \$514,780
ARPA \$514,780

Traffic Impacts: We understand the construction project is an inconvenience to people living and commuting in and around the area, so we greatly appreciate your patience and understanding as we work to complete construction and restoration as safely and quickly as possible.

Project Benefits: This construction project will alleviate the flooding on Dykes Road and improve the service of the roadway during storm events.
