DESCRIPTION

CONTRACTOR

Huurr Homes, LLC.

CONSULTANTS

Craven Thompson and Associates

SCHEDULE

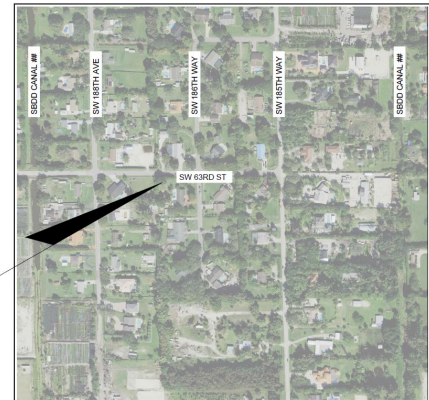

Design: Complete
Bidding: Complete
Construction: October 2023 to
April 2024

SW 63rd Street and SW 185 Way Drainage Project

9 EAST, BROWARD

WAY FOR SW 63RD
ENUE, SW 186TH

PROJECT LOCATION

Estimated Project Cost: \$794,507
FDEP \$479,306

Traffic Impacts: We understand the construction project is an inconvenience to people living and commuting in and around the area, so we greatly appreciate your patience and understanding as we work to complete construction and restoration as safely and quickly as possible.

Project Benefits: This project is a part of the Town's overall resiliency efforts to create a healthy community while improving water quality. This mitigation project will help remove flood waters from roadways in this heavily traveled area of Southwest Ranches. It will provide critical drainage capacity for storm-water runoff, thereby reducing roadway flooding (both volume and duration), and the frequency of property damage and personal injury to residents, motorists and pedestrians.
