**ACTION IN LIEU OF
A MEETING OF THE
MEMBERS OF
DRC EMERGENCY SERVICES, LLC**

This action is taken in accordance with the Alabama Limited Liability Company Act, as amended (the “Act”), in lieu of a meeting of the Members of DRC EMERGENCY SERVICES, LLC, an Alabama limited liability company (the “Company”), and is made effective as of January 1, 2018.

WHEREAS, Section 9.01 of the Company’s Third Amended and Restated Operating Agreement dated January 1, 2018 (as amended, the “LLC Agreement”) and the Act permit the Members of the Company to take the following actions; and

WHEREAS, the undersigned, constitutes the Members of the Company (the “Members”).

NOW, THEREFORE, the undersigned hereby make the following resolutions and consents to the following actions in lieu of a meeting of the Members of the Company:

1. The following persons, in their respective capacities indicated below, are hereby authorized and empowered for the express purpose of signing all contracts, agreements, bid documents, filings and other documents necessary for execution between Company and any third-party in the ordinary course of the Company’s business, subject to any restrictions or limitations on authority as set forth in the Company’s governing documents:

<u>Name</u>	<u>Office/Capacity</u>
John R. Sullivan	President
Todd P. Sullivan	Vice President
William W. Sullivan	Vice President and Secretary
Kristy Fuentes	Vice President of Administration and Compliance, Secretary and Treasurer

2. The officers listed above after giving effect to this written consent are hereby authorized and directed on behalf of the Company to execute and deliver such agreements and instruments, make such filings and give such notices, and take any and all such other actions, and to do or cause to be done, such acts as such officers may deem necessary or advisable to accomplish or otherwise implement the purposes of the foregoing resolutions or to cause the Company to perform its obligations under any of the foregoing, until his or her successor is duly elected and qualified, his or her resignation, his or her removal from office by the Members of his or her death.

3. All actions taken by any officer of the Company in connection with any of the transactions contemplated by these resolutions are hereby authorized, approved, ratified and confirmed in all respects.

4. This written consent may be executed in counterparts, and all so executed shall constitute one action notwithstanding that all of the undersigned are not signatories to the original or to the same

Signature Page to Action in Lieu of Meeting

counterpart. This written consent shall be filed with the minutes of the proceedings of the Members of the Company.

Dated effective as of the date first written above.

Re: Disaster Debris Removal and Emergency Logistical Services
RFP No. 25-10

Dear Christina Semeraro,

DRC Emergency Services, LLC (DRC) is grateful for the opportunity to present our proposal to provide Disaster Debris Removal and Emergency Logistical Services for the Town of Southwest Ranches. DRC holds more than 140 stand-by contracts in the State of Florida, including the Cities of Hollywood and Miramar, as well as Broward County.

DRC has worked on every major hurricane to strike Florida in the last 20 years. In 2024, we were activated on 44 contracts for debris removal and logistics support following Hurricanes Helene and Milton, 35 of which were in Florida. We have removed more than 3,600,000 cubic yards of debris during these activations in Florida. In 2022, following Hurricane Ian, DRC was activated on 20 contracts, on which we removed 5,000,000 cubic yards of debris from Florida cities and counties.

DRC Emergency Services boasts unparalleled experience in responding to both natural and man-made disasters, solidified by extensive partnerships with state agencies. Our expertise is demonstrated through our comprehensive and effective disaster recovery efforts, ensuring that affected communities receive prompt and proficient assistance. We pride ourselves on our long-standing relationships with local, state, and federal agencies, which enhance our ability to mobilize swiftly and efficiently in the wake of any disaster. If awarded, DRC pledges to deploy all necessary manpower and equipment to ensure project requirements are met. We have local Florida subcontractors and are committed to engaging additional local businesses. Upon award, DRC will conduct a subcontractor outreach program in the Town of Southwest Ranches to identify additional local subcontractors.

With DRC's team having over 50 years of experience, DRC has a proven track record in disaster recovery and emergency management services for federal, state, and local governments. Acquired by the Sullivan brothers from Galveston, Texas, in 2016, DRC joined the Sullivan Family of Companies, which includes Sullivan Land Services, SLSCO, Forgen, and Callan Marine Services. Our comprehensive services encompass emergency debris removal, disaster management (including temporary housing and workforce support), FEMA documentation, debris management, right-of-way maintenance, marine debris salvage, vehicle and vessel removal, technical assistance, project management, construction, demolition, and final disposal management. Employing more than 40 full-time staff, DRC has access to over 1,000 employees through our family of companies, making us a trusted partner for towns, cities, counties, and jurisdictions nationwide in disaster recovery services.

Corporate officers with legal signing authority to bind DRC to the terms and conditions of this proposal include John Sullivan, President, and Kristy Fuentes, Vice President/Secretary-Treasurer. Evidence of their authority is attached. Ms. Fuentes can be reached at (888) 721-4372, by cell: (504) 482-2848 or by email: kfuentes@drcusa.com.

The Regional Manager for the Town of Southwest Ranches is Evan Fancher who can be reached at (888) 721-4372, by cell: (205) 478-6400 or by email: Efancher@drcusa.com.

This proposal is in all respects fair and in good faith, without collusion or fraud, and conforms to the specifications of your Request for Proposal. If we may offer any additional information or clarifications, please let us know. Thank you for the opportunity to offer our services and we look forward to working with the Town of Southwest Ranches in the future.

Sincerely,

Kristy Fuentes
Vice President, Secretary, Treasurer

DISCOVER DRC: A CLOSER LOOK

- Founded in 1995, DRC and its affiliates are **100% family-owned**, comprising the largest debris removal and management company in the industry, with **more than 100** full-time employees dedicated to disaster recovery.
- With a bonding capacity exceeding **\$1 billion** and working capital more than **\$500 million**, DRC ensures uninterrupted execution of its projects. DRC excels in concurrent project management, maintaining uninterrupted progress across multiple jurisdictions.
- DRC holds the U.S. Army Corps of Engineers (**USACE**) **ACI Debris Removal** contract for Region 3 (MI, IN, TN, KY, OH, WV) and collaborates with USACE on training and preparations. DRC has been tasked three times under this contract, most recently in response to the **Kentucky Tornadoes** in Graves County and Mayfield, Kentucky, in December 2021.
- DRC performed debris removal in **seven states** following the **four hurricanes** to hit the Gulf Coast in 2024: Beryl, Francine, Helene, and Milton. DRC removed more than **9,000,000 cubic yards** of debris on **76 contracts** in our 2024 hurricane response.
- Since 2020, DRC has performed **specialized private property debris removal and demolitions** following devastating wildfires in California, Colorado, Hawaii, New Mexico, and Washington State. In our ongoing wildfire response in New Mexico, we have completed hazardous site assessments, demolitions, hazardous material abatement, erosion control and debris removal on more than **600 properties**.
- DRC operated in **every FEMA-declared parish in the State of Louisiana** in 2021. DRC managed **89 debris management sites** and removed more than **18,000,000 cubic yards** of debris solely in response to Hurricane Ida.
- DRC conceived, executed, supervised, and funded a **150-mile Gulf of Mexico shoreline protection system** in response to the BP oil spill.
- Following Hurricane Ian in 2022, DRC **recycled 100%** of the 3.3 million cubic yards of vegetative debris collected in Sarasota County, FL, and surrounding municipalities.
- Certified Arborist** on staff full time, Taylor Jumonville.

“DRC first showed up a few weeks after our fire, which devastated 85% of our town. We weren’t really sure what was going to happen in a lot of aspects, but what we became quickly sure of is that the leadership in debris removal was handled effectively, efficiently, and professionally, at every single level.”

— Scott Hokonson, Executive Director, Pine Creek Community Long-Term Recovery Group

Sullivan Brothers Family of Companies

Together with our commonly owned affiliates SLS, Forgen, and Callan Marine, DRC can respond immediately to disaster events and provide almost every service that may be required to move through the complete disaster recovery timeline. We are the only company in the United States that can perform all these services in a streamlined manner from both the contracting and management sides. This portfolio of companies is under the same ownership and shares all resources and assets, including financial, personnel, equipment and facilities. **DRC has access to over 1,000 employees through our family of companies, making us a trusted partner for towns, cities, and jurisdictions nationwide in disaster recovery services.**

DRC specializes in providing extensive disaster recovery services throughout the country. We are recognized for providing government and private entities with rapid response solutions and facilitating the most effective immediate recovery efforts tailored to each specific disaster. We also facilitate contingency planning through our disaster readiness workshops and training. Throughout our history, DRC has successfully completed more than \$3 billion in response contracts and has removed more than 180 million cubic yards of debris. We have the capacity to mobilize more than 4,000 pieces of equipment to any location in the United States and maintain a strong cadre of disaster and debris management and operational personnel, who are augmented by hundreds of regional and local construction partners and personnel.

SLS provides the full spectrum of general contracting, construction management, infrastructure, disaster response, health and humanitarian services throughout North America and beyond. From emergency sheltering, facilities operation, mass population care, and catering to field hospitals and rapid repairs, we mobilize within hours to provide relief and stability when disaster strikes. With an aggregate bonding capacity of \$4 billion, SLS performs a multitude of large-scale assignments for federal, state, regional, county and municipal entities—with a keen focus on the comprehensive rehabilitation, reconstruction and recovery of communities impacted by emergencies and disasters. Additionally, our team provides infrastructure, facility construction and rehabilitation services; remote workforce compounds and basecamp facilities; turnkey health solutions; and intermodal, industrial and marine facility construction.

Forgen is one of the largest environmental construction companies in the United States, offering remediation and infrastructure solutions across the country. Our integrated geotechnical and civil construction and environmental remediation services restore and strengthen our natural surroundings to protect people, communities, and the environment for generations to come. We have successfully delivered large, multi-disciplinary projects for public and private sector clients across North America for more than a decade, safely tackling complex challenges across a variety of industries.

Callan Marine is a highly specialized marine construction firm capable of providing design, engineering, management, and construction services. We provide every type of marine construction activity including debris management and removal, dredging, shoreline protection, beach renourishment, port/dock facility construction, and wetland construction. Our work restores berthing depths for ship docks and navigation channels and facilitates transportation in our nation's waterways. We are recognized as the leading marine construction service provider on the Gulf Coast, with a long list of government and private clients who continually utilize Callan Marine for comprehensive marine construction services.

LEADERSHIP AT A GLANCE

Since 1995, DRC Emergency Services, LLC and its affiliated companies (DRC) has been the leader in disaster recovery. We are the largest provider of disaster recovery and emergency management services in the United States, with a bonding capacity of over \$1 billion and more than 100 full-time staff dedicated to disaster recovery. Every year, DRC responds quickly and effectively to multiple disasters across the US, helping communities recover and return to normalcy following all types of disastrous events. Whether we are called upon to clean up after a flood, fire, ice storm, hurricane, or tornado; to protect wildlife in ecologically sensitive areas; or to restore beaches using our industry-leading sand screening and beach restoration techniques, DRC's experienced leadership has what it takes to get the job done.

Whenever disaster strikes a community, DRC is ready to strike back.

Evan Fancher,
Regional
Manager

Evan Fancher is the Regional Manager for The Town of Southwest Ranches and will serve as a direct government liaison between the Town and the DRC operations team. Joe Newman, Vice President of Operations, will direct and manage the project, leveraging DRC's experienced operations team. Mr. Newman and his team have over 30 years of experience in disaster recovery management, including but not limited to the following:

2024 Hurricanes – DRC was activated on 76 contracts in six states in response to Hurricanes Beryl, Francine, Helene, and Milton. We have removed more than 9,000,000 cubic yards of debris during these activations.

2022 Hurricane Ian – DRC managed multiple activations across the state of Florida, including three Florida Department of Transportation Regional contracts. DRC recycled 100% of the 3.3 million cubic yards of vegetative debris collected in Sarasota County and surrounding municipalities.

2021 Hurricane Ida – DRC managed multiple Louisiana Department of Transportation district contracts, removing debris in all FEMA-declared parishes across the state, while managing 38 additional local activations in Louisiana, Alabama, and Pennsylvania.

Joe Newman,
Vice
President of
Operations

Since its inception, the DRC team has responded to major natural and man-made disasters occurring within the continental United States and its territories. DRC's personnel are trained, motivated, and available for immediate deployment in an emergency response. All assigned personnel will be available to the Town as needed. Personnel are NIMS-certified and/or have specialized training in safety and asbestos management. They are equipped with utility vehicles; digital, handheld, multi-state, two-way radios; cellular communications; and handheld computers; as well as a DRC supervisor handbook including required reports and forms for successful disaster response and management. DRC personnel have the experience and/or training to respond **immediately** to disasters.

DRC employs more than 30 Regional and Project Managers. Regional Managers are assigned to specific geographic locations throughout the United States to assist, monitor and lead the project teams in response to emergency situations. In the event of a large-scale disaster, Regional Managers may be mobilized to support recovery efforts in any area of the country. Evan Fancher, the Regional Manager for The Town of Southwest Ranches, is capable of responding to the needs of the Town 24 hours a day, 7 days a week.

ABILITY TO MANAGE MULTIPLE CONTRACTS

DRC has extensive experience staffing, managing, and executing multiple debris management and emergency response projects nationwide. Our approach is grounded in using highly qualified operational management teams to ensure a coordinated, expeditious and effective response to disasters. DRC's management staff is provided with state-of-the-art resource planning and forecasting systems and empowered to reassign resources as needed. DRC's experience managing multiple contracts includes the following:

2024 HURRICANE SEASON

- Four hurricanes – Beryl, Francine, Helene, and Milton – struck the Gulf Coast in a very active 2024 season. DRC was activated on 21 contracts for Beryl, 14 for Francine, 23 for Helene, and 18 for Milton. Helene and Milton were both record-breaking major hurricanes which struck Florida less than 2 weeks apart. DRC's hurricane response work in 2024 spanned seven states from Texas to Virginia.
- DRC also performed specialized private property debris removal in response to wildfires in New Mexico, Washington State, and Hawaii.

2023 TORNADOS, WINTER STORMS AND HURRICANE IDALIA

- DRC was activated in 22 jurisdictions, managed 13 DMS sites, and removed and disposed of over 2,100,000 cubic yards of debris.

2022 HURRICANE IAN

- DRC was activated in 20 jurisdictions, managed 21 DMS sites, and removed and disposed of over 5,000,000 cubic yards of debris.

2021 HURRICANE IDA

- DRC was activated in 41 jurisdictions, managed 89 DMS sites, and removed and disposed of over 18,000,000 cubic yards of debris.

2020 HURRICANE SEASON

- DRC was activated in 56 jurisdictions, managed 81 temporary staging and reduction sites, and removed and disposed of over 6,000,000 cubic yards of debris in response to six hurricanes across seven states.

2019 HURRICANE SEASON

- DRC was activated in 14 jurisdictions in the Gulf Coast region as Hurricanes Barry and Dorian and Tropical Storm Imelda hit the coast back-to-back over two months. DRC operated and managed five temporary staging and reduction sites in total and removed approximately 210,000 cubic yards of debris.

2018 HURRICANE SEASON

- DRC was active in nine jurisdictions in response to Hurricane Michael, where we managed 33 debris management sites and removed approximately 5,850,000 cubic yards of debris.
- DRC was concurrently activated in 15 jurisdictions following Hurricane Florence, where we managed 31 temporary staging and reduction sites and picked up approximately 2,500,000 cubic yards of debris.

2017 HURRICANE SEASON

- DRC was activated by the Department of Transportation and Public Works in Puerto Rico following Hurricane Maria. During this contract, DRC managed 13 temporary staging and reduction sites and removed over 1,200,000 cubic yards of debris.
- Following Hurricane Irma, DRC was activated in 27 jurisdictions simultaneously while managing 30 temporary staging and reduction sites. DRC removed and disposed of over 3,600,000 cubic yards of debris.
- DRC was activated in 23 jurisdictions following Hurricane Harvey and simultaneously ran 16 temporary staging and reduction sites during this activation. DRC recovered and reduced over 4,290,000 cubic yards of debris during this activation.

2016 HURRICANE HERMINE

- In Citrus County, Florida, DRC successfully removed and disposed of more than a thousand tons of residential flood debris and tens of thousands of cubic yards of vegetation in less than 30 days.

2016 LOUISIANA SEVERE FLOODING

- DRC removed 2,100,000 cubic yards of debris – including 1,000,000 cubic yards which we picked up over the course of just 30 days in East Baton Rouge Parish, Louisiana.
- DRC opened and operated two temporary staging and reduction sites – including the largest debris management site on record – to compact and recycle C&D debris prior to haul out for final disposal. These sites operated with such efficiency that FEMA and the USACE filmed the operation to use in training sessions.

2016 WINTER STORM JONAS

- The snow from Winter Storm Jonas started the morning of January 22nd, and by that evening, DRC had started mobilizing in five different jurisdictions. Operations continued 24 hours a day and required two operators per piece of equipment, around-the-clock management and support personnel. The project was completed in 10 days.

2014 ICE STORM PAX

- DRC was simultaneously activated in New Hanover County, Pender County, and the City of Wilmington, North Carolina for debris removal and reduction of approximately 400,000 cubic yards of debris.
- The South Carolina Department of Transportation contracted DRC to cut, remove and transport vegetative debris in eight counties, totaling over 12,000 miles of roadway clearing and the trimming of over 225,000 trees.
- DRC managed and operated 16 temporary staging and reduction sites in North and South Carolina, reducing and recycling over 1.7 million cubic yards of debris.

2012 HURRICANE SEASON

- DRC simultaneously operated 14 contracts throughout the Southeast in response to Hurricane Isaac. DRC concurrently operated six temporary staging and reduction sites in Louisiana alone.

2009 HURRICANE SEASON

- The Texas GLO requested assistance for the removal of marine debris that had been generated as a result of Hurricane Ike in 2008. These services were performed in Trinity, Galveston, East and West Bay and have an approximate contractual value of \$22,703,700.
- DRC also provided services for areas such as Kentucky and Arkansas that were ravaged by severe ice storms. These services are valued at \$11,157,132.

2025 Accomplishments Underway

DRC has begun the following projects this year:

California Wildfire (Airport Fire)

Kentucky February Flood Event (DR-4860)

Winter Storm Enzo (Louisiana, Virginia)

State of Florida, Hurricanes Helene and Milton

Background

On September 26, 2024, Hurricane Helene made landfall in the Big Bend region of Florida. With maximum sustained winds of 140 mph, Helene was the most intense hurricane on record to strike the region. The storm quickly moved inland, causing widespread devastation across large portions of the Southeastern United States, including catastrophic flooding, landslides, tornadoes, and record-breaking storm surge.

Less than two weeks later, Hurricane Milton struck Florida's west coast. Milton was the second-most intense Atlantic hurricane ever recorded, having rapidly intensified to Category 5 strength. Milton cut a path of destruction eastward across Florida, impacting many counties.

In advance of both storms, states of emergency were declared in Florida. DRC already had standby debris removal contracts in place with the Florida Department of Transportation (FDOT) District 2, as well as with the Cities of Madeira Beach, Largo, Bradenton, Crystal River, Indian Rocks Beach, and Longboat Key, and the Counties of Manatee, St. Lucie, Sarasota, Pinellas, and Citrus. DRC's Florida Regional Managers Evan Fancher and Steve Crawford were in touch with all our standby clients in advance of each storm's landfall to review the plans we had in place with them and to prepare for the storm's impact.

Advance Planning and Preparations

Having standby contracts in place before the storms struck allowed DRC to make multiple preparations which saved our clients precious time in the days following the disasters. During the pre-disaster planning phase, DRC met with the Florida Department of Transportation, Cities and Counties and their third-party monitoring firms to discuss and agree on detailed contingency plans.

In consultation with our clients, we established emergency push routes. We identified local subcontractors for emergency push and load and haul and executed Master Service Agreements with them. Thanks to DRC's previous work in Florida, we had established locations for temporary debris management sites, recycling, and final disposal. We secured debris towers; executed contracts with local

fuel suppliers; and secured equipment staging areas and trailer parking locations. DRC directed non-local subcontractors to pre-stage equipment, supplies, and personnel at a safe distance outside the storms' projected path.

Deployment, Mobilization, and Operations

As soon as the wind speed dropped to safe levels, DRC had local push crews activated and clearing debris from pre-established priority routes. DRC met with our clients and their debris monitoring firms to prepare work plans. DRC performed an initial debris assessment in each affected location to determine crew needs, to establish DMS requirements, and to prepare debris density maps. We activated local crews and instructed them to stage for measurement at a specific DMS. We then activated pinch points to register and record push crews and equipment; to record times in and out; and to distribute street assignments. At the same time, DRC began to prepare debris management sites to stage, separate, and reduce debris.

Once the emergency push was complete, DRC began load and haul operations. By the end of 2024, DRC had removed more than 4,000,000 cubic yards of debris from hard-hit areas of Florida following Hurricanes Helene and Milton. We were activated on 30 contracts, for FDOT District 2 and multiple cities and counties.

Specialty Debris Management: Sand Removal, Screening and Beach Restoration

At Sand Key Park, on a barrier island in Pinellas County on Florida's West Coast, both hurricanes left sand piled high on the roads and in the right-of-way. DRC's emergency push crews removed the sand after each storm, working in shifts, 24 hours a day. We moved the sand into huge piles in a large parking lot, making the roads passable.

At historic Fort De Soto Park, also in Pinellas County, Hurricanes Helene and Milton left the beaches littered with debris. DRC teamed with the Pinellas County Public Works Department to employ DRC's innovative sand screening techniques to remove debris including large tree limbs, broken glass, nails, and other hazards, to restore the beauty of this iconic shoreline.

Re: Letter of Recommendation

To Whom It May Concern,

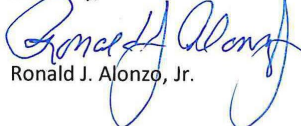

Please let this serve as a letter of recommendation for DRC Emergency Services, LLC. For the past eight years, St. Bernard Parish Government (SBPG) has worked hand in hand with the DRC team through various challenges - including hurricanes and tornadoes. We have continuously received excellent service throughout these events, as well as normal operations. DRC has proven to be a reliable partner with an inherent understanding of our mission "to protect and enhance the quality of life by providing a high level of service in an efficient and responsive manner for all citizens." Many of DRC's personnel grew up in St. Bernard Parish and still reside in our community. For them, our mission isn't just close to home - it is home.

Over the past four years, we have activated our contract with DRC four times in the wake of Hurricane Zeta, Hurricane Ida, and two tornadoes. Each time, DRC was highly responsive and mobilized equipment and personnel immediately following these disaster events. DRC's ability to efficiently and effectively problem solve under pressure is unparalleled. Additionally, DRC's management personnel were in constant contact, keeping SBPG officials informed and up to date on the project underway. No matter the day or time, when we called, DRC answered.

Not only did DRC Emergency Services deliver on all of their contractual agreements, they also honored verbal commitments that were made to assist SBPG in delivering the highest quality service to our residents.

I would strongly consider choosing DRC Emergency Services as your disaster response contractor. Their professionalism, integrity, accountability, work ethic, and responsiveness are second to none. We've experienced excellence from DRC for the services rendered to St. Bernard. If you have any questions, please feel free to reach out.

Sincerely,

Ronald J. Alonzo, Jr.

March 23, 2023

Dear Sir/Madam,

It is my pleasure to recommend DRC Emergency Services, LLC as a disaster response contractor. As the Parish President, I had the privilege of working with DRC on multiple occasions. When Hurricane Ida, a Category 4 storm, made landfall in Southeast Louisiana, DRC was already in the process of procuring and staging assets to aid in our recovery efforts.

DRC worked closely with Parish personnel to assess damage, establish collection grids, permit emergency debris management sites, and determine the scope of work based on disaster impact. They provided ROW debris removal, waterway debris removal, and logistics services simultaneously, which helped immensely during this difficult time. Moreover, DRC provided essential items such as pallets of water, toiletries, restroom/showers, fuel, and a 100-person emergency shelter which housed National Guard and St. Charles Parish employees. Through their logistic services, DRC gave hope to the community during a time of great need.

Over the past decade, St. Charles Parish has had the opportunity to work with DRC Emergency Services on multiple emergencies, including major hurricanes, a tornado, and a devastating flood from torrential rainfall. DRC has removed and disposed of over 1,443,000 cubic yards of debris in St. Charles Parish, demonstrating their commitment to serving the community. Through all of this, DRC has demonstrated their integrity and resilience in the face of disaster.

Based on my experience, I wholeheartedly endorse DRC Emergency Services, LLC as a disaster response contractor. Their dedication and expertise are unparalleled, and I am confident that they will provide exceptional service to any organization that requires their assistance.

Sincerely,

Matthew L. Jewell
Parish President
St. Charles Parish

DRC Emergency Services, LLC
111 Veterans Memorial Boulevard
Suite 401
Metairie, LA 70005

To Whom It May Concern:

On behalf of Terrebonne Parish Consolidated Government, it is our pleasure to take this opportunity to commend DRC Emergency Services, LLC for their outstanding performance in response to Hurricane Ida.

On August 29, 2021, the destructive Category 4 Hurricane Ida made landfall in Southeast Louisiana devastating the community of Terrebonne Parish. Despite that many of DRC's personnel are Louisiana natives who were also affected by the storm, DRC sprang into action and began working immediately. DRC's team assessed the damage and made a plan that proved to be both safe and efficient. Having worked with DRC for over a decade, they utilized push routes, collection grids, and debris reduction/disposal sites that were previously established and successfully used in response to prior disaster events. To date, DRC has removed and disposed of over 3,500,000 cubic yards of debris in response to Hurricane Ida.

Having DRC on standby, we have come to expect the best. DRC's services are comprehensive. DRC has provided land-based debris removal, waterway debris removal, demolition, and logistic services to Terrebonne Parish. Additionally, DRC's attention to detail in the wake of tragedy is unmatched. Terrebonne Parish has called on DRC 6 times over the past 13 years and every time we are reminded why we choose them as our disaster response contractor.

We highly recommend DRC Emergency Services as a debris removal contractor. I am confident they provide the same level of excellence we have experienced to all the communities they serve.

Respectfully submitted,

Gordon E. Dove
Parish President

Dear Mr. Mehl,

On behalf of Horsham Township and Township Council, I would like to take this opportunity to thank you and your staff for the great work that DRC performed in Horsham Township after Hurricane IDA's destructive path made its way through our community. In Horsham's history, never has a tornado touched down in our area, we were extremely appreciative of your prior experiences and the direction you provided to help organize such an enormous recovery.

Your dedication to our community was demonstrated when you listened to our recommendation to allow for local resources to be used. By establishing such procedures our efforts were more efficient and persistent during initial clean up. As quickly as the months have passed, we still see evidence of Hurricane IDA's devastation and hear from people still affected by its destruction, however we know that we are much better off having had your assistance during this life changing event. You executed a safe and effective debris removal program and responded to many different situations throughout the emergency.

I would like to give credit toward your preparedness, your personnel, and the equipment that delivered without incident. I hope that you know how much we appreciated what you did during such a chaotic time. Please accept our gratitude on behalf of myself, Horsham Township and Township Council. Again, thank you very much for the time, energy and resources that DRC contributed to our community.

Sincerely,

A handwritten signature in black ink, reading "Dennis P. Haggerty Jr.".

Re: Letter of Reference-DRC Emergency Services

To Whom It May Concern;

On behalf of the Winn Parish Police Jury, it is my pleasure to submit this letter of recommendation for DRC Emergency Services.

On August 27, 2020, Hurricane Laura stormed through our rural community leaving a path of destruction and debris unlike any other disaster we have encountered. After careful consideration of several debris removal companies, Winn Parish contracted with DRC for debris removal services. Little did we know, but 6 weeks later Hurricane Delta hit Winn Parish on the heels of Hurricane Laura. What seemed like insurmountable odds, DRC came in and got us moving in the right direction with their knowledge and expertise during these times of disasters.

DRC was quick to respond and react and began work immediately. DRC's team worked with our administrative and road staff to begin identifying the known extent of damage inflicted by this disaster, learning our streets and roads so they could mobilize their significant fleet of trucks to begin staging for debris removal operations. DRC provided a Program Manager to oversee all operations along with other staff members to assist us in all aspects of the cleanup process.

The same level of responsiveness, coordination and resourcing on the part of DRC was present throughout the entirety of our debris removal and recovery effort. DRC assisted Winn Parish in keeping the citizens and other agencies informed of the debris process. DRC helped the Parish in applying for all necessary permits at debris sites. DRC was present throughout the entire debris removal and recovery effort, resulting in all submittals and invoicing being completed and submitted in a timely manner with has allowed the Parish to quickly process and submit records to FEMA for reimbursement.

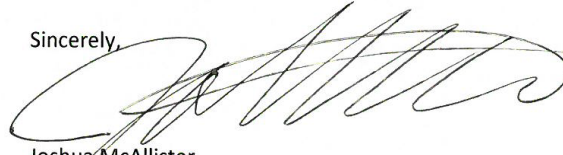

The Winn Parish Police Jury contracted with DRC in the amount of \$2,222,126 for debris removal services. These services consisted of the removal of vegetative debris, leaning trees, hazardous hanging limbs and stumps from over 700 miles of roads. DRC followed all guidelines and specifications in the contract and completed all work in a timely manner. If any problems or

HOME OF THE LOUISIANA FOREST FESTIVAL

concerns arose, DRC was only a phone call away and would immediately solve the issue. Winn Parish had a great working relationship with DRC during this contract and would contract with them again in the future without hesitation.

If you have any questions or need additional information, please do not hesitate to contact me or my office.

Sincerely,

Joshua McAllister
President
Winn Parish Police Jury

Olen Bean
Emergency Management Coordinator

Clif Kennedy

DRC Emergency Services

P: [504.482.2848](tel:504.482.2848) M: [713-715-8772](tel:713-715-8772)

E: ckennedy@drcusa.com W: www.drcusa.com

DRC Emergency Services had contracted with Newton County for pre-disaster debris pickup before Hurricane Laura made landfall in Louisiana. Clif Kennedy and DRC representatives were on scene quickly to assess the damage and estimate how many yards of debris would need to be picked up. Newton County began the process of identifying TDMS locations throughout the County with DRC help. Newton County also discussed using local subcontractors, if possible, which DRC agreed to. Newton County debris was picked up by TXDOT contractor saving the county the 25% match for FEMA reimbursement. Even though Newton County did not activate their contract with DRC, communications between DRC and Newton County continued as debris was picked up. There was no disagreement with the contract, logic was to save Newton County millions of dollars for debris pickup. Newton County fully recommends DRC for disaster services.

Newton County EMC

July 25, 2018

To Whom It May Concern,

On behalf of the City of Baton Rouge/Parish of East Baton Rouge's Department of Environmental Services, it is my pleasure to submit this letter of recommendation for DRC Emergency Services.

DRC has been a trusted partner of our City-Parish for years, including and especially during one of the most catastrophic and costly events in the history of our state and country. In August 2016, when the floodwaters of the Great Flood of 2016 (DR-4277) began rising and threatening to inflict damage on tens of thousands of homes in East Baton Rouge Parish, DRC was quick to respond and react to our activation of the company's debris removal contract. In the days that immediately followed, DRC's team worked side-by-side with our senior leadership team at our emergency operations center to begin identifying the known extent of damage inflicted by this disaster, preparing routes and maps for rapid deployment across our parish once it was safe to do so, and immediately mobilizing their significant fleet of trucks to begin staging for debris removal operations. Less than a week after floodwaters began to recede from our area, DRC's fleet began to conduct our first debris removal pass, targeting seven initial ZIP codes that were impacted by the flooding event. DRC subsequently expanded operations to include all impacted ZIP codes and remained active through their final pass conducted in August 2017.

Throughout this timeframe, DRC's team was responsive, proactive, and communicative regarding any needs our City-Parish agencies, elected officials, or residents had related to our debris removal program, going above and beyond to ensure the public was informed about program activities at all times. For example, beginning in mid-September 2016, DRC staff along with our debris monitoring firm team joined City-Parish leaders in providing televised updates on debris removal activities each morning – both for the day ahead as well as upcoming deadlines or issues related to the program. These segments were broadcast live by local news media, on our government access channel Metro 21, and through our City-Parish Facebook page via Facebook Live. These daily updates continued for nearly a month and a half, and DRC's team was integral in developing and sharing updates to be shared with our residents that kept them informed and aware of program activities.

This same level of responsiveness, coordination, and resourcing on the part of DRC was present throughout the entirety of our debris removal program and recovery effort, ultimately resulting in nearly 2 million cubic yards of debris collected and representing one of the largest and most complex flood debris removal efforts in the history of the U.S. DRC's ability to mobilize their fleet and respond to needs, or proactively anticipate them, was critical to our program's success – including rapid scaling of their fleet to nearly 200 trucks on the streets each day at the height of the program's activity and daily debris collection totals approaching 50,000 cubic yards. Our Mayor's Office, Councilmembers, my office, and other coordinating agencies took great comfort in the "on the ground" presence and access they had to DRC's team throughout this effort, and their commitment to the job until we fully addressed all the recovery needs of our residents was greatly appreciated.

I strongly recommend DRC as a qualified and capable debris removal contractor that I feel confident will provide the same level of service, dedication, and passion for your recovery and/or clean-up effort as they did here in East Baton Rouge Parish. Please don't hesitate to contact me if you have any questions.

Sincerely,

Adam M. Smith, PE

To All Interested Parties:

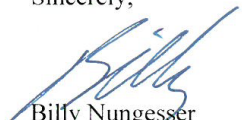

It has been my unique pleasure to work with DRC Emergency Services, LLC on multiple occasions throughout my political career. Currently, DRC supports the Lieutenant Governors Association through active participation and an important sponsorship of the organization. It is through involvement like DRC's that we can both perpetuate the existence of our organization and gain unique perspective from a private sector partner.

During my tenure as Parish President of Plaquemines Parish, DRC was instrumental in our expedited recovery following Hurricane Katrina due to their exemplary work in the areas of debris collection, processing and disposal, canal de-siltation services, and waterway debris removal. Following the BP Oil Deepwater Horizon catastrophe, DRC designed and implemented oil collection and mitigation programs that covered over 100 miles of gulf coastline. Their innovated leadership in these areas were applauded by both BP Oil and top-ranking government officials, alike.

It is without reservation that I wholeheartedly endorse and recommend DRC Emergency Services, LLC to provide vital pre-disaster and post-disaster services to your government. DRC's management and field personnel have proven time and again to be the most informed and responsive in the area of disaster management services.

Please contact my office with any further questions relating to my experiences with this organization.

Sincerely,

Billy Nungesser
Lieutenant Governor

Suite 401
Metairie, LA 70005

To Whom It May Concern,

On behalf of Manatee County, it is my pleasure to take this opportunity to recommend DRC Emergency Services, LLC as a disaster response contractor.

On September 29, 2022, the devastating Category 4 Hurricane Ian made landfall in southwest Florida doing considerable damage to the Manatee County community. DRC's response was immediate and effective. DRC worked with County personnel to assess damage, establish collection grids, permit emergency debris management sites, and determine the scope of work based on disaster impact. DRC simultaneously provided ROW debris removal, waterway debris removal, and logistics services in the wake of Hurricane Ian. Not only was DRC highly professional, they were personable and, through logistic services, gave hope to our community. DRC provided quick and effective debris clearance and removal services as well as a variety of logistical measures to help us respond to this disaster quickly. DRC's integrity and resilience in the face of destruction is unparalleled.

This was our first time using DRC Emergency Services and we were highly impressed. Manatee County used DRC to do our first push and quickly remove 591,000 cubic yards of debris.

DRC has proven they are committed to serving our community – which is what we value most. It is without reservation that I enthusiastically endorse DRC Emergency Services, LLC a disaster response contractor.

Respectfully,

RE: Letter of Reference

It is with great pleasure that I write this letter of reference for SLSCO/DRC Emergency Services. I had the opportunity to work with them on the Hurricane Michael disaster in Jackson County, Florida.

When Hurricane Michael hit the Florida Panhandle on Oct. 10, 2018, SLSCO/DRC had employees in our county ready to help. They have proven to be very knowledgeable about the process of debris removal, the regulations and requirements of the state and FEMA.

I would gladly recommend SLSCO/DRC for all your emergency service needs. After the massive cleanup that occurred in our county, our existing contracts were up. We went back out for bid and SLSCO/DRC was selected again because of their excellent performance.

Sincerely,

Clint Pate

Subject: **DRC Letter of Recommendation**

To Whom It May Concern:

On October 7, 2016, the City of St. Augustine was impacted by Hurricane Matthew as he made his way north in the Atlantic Ocean. While many communities to our south were spared, St. Augustine wasn't as fortunate. Matthew came very close to making landfall in Northeast Florida and while St. Augustine was spared a direct hit, the high winds generated within the outer bands of the storm caused a significant amount of damage and flooding, creating a sizeable debris management problem for our City.

St. Augustine has a pre-event/stand-by contract with **DRC Emergency Services** for Disaster Debris Removal Services so we felt comfortable that a recovery mechanism was already in place.

In advance of the pending event, the DRC team was in contact readying their response. Representatives from DRC were on-site planning their approach to the debris removal effort, and formulating debris collection strategies to address the unique challenges we were facing.

Throughout the debris removal program, DRC's Project Managers and Program Leaders were on site, available, and attentive to the needs of our City and its citizens. The program was well organized and resulted in St. Augustine making a rapid recovery from Hurricane Matthew.

DRC performed professionally and were responsive to City needs within the terms of the contract.

Sincerely,

Martha S. Graham, P.E.
Director of Public Works

City of Prichard

To Whom It Concern:

I highly recommend DRC Emergency Service, as a candidate. DRC Emergency Services assisted the City from November 2020 to January 2021 to pick up storm debris from Hurricane Sally. DRC has an excellent work ethic. DRC would be a tremendous asset for your company and has my highest recommendation. If you have any further questions with regards to DRC's background or qualifications, please do not hesitate to contact me.

October 2, 2020

To Whom It May Concern,

On behalf of Grant Parish, it is my pleasure to submit this letter of recommendation for DRC Emergency Services.

In August of this year, Hurricane Laura impacted the lives of many Louisianans, unfortunately including Grant Parish. In response, we put out an emergency RFP for debris removal and disposal services and awarded DRC Emergency Services. The dedicated coordinators and leaders of DRC expeditiously mobilized the necessary resources in response to the immense debris removal and disposal task at hand.

This is our first time working with DRC and their services have exceeded our highest expectations. They exude a level of knowledge and expertise that simply inspires trust. To date, DRC has performed all work in a professional, efficient, and timely manner while treating the parish residents with the utmost respect and compassion.

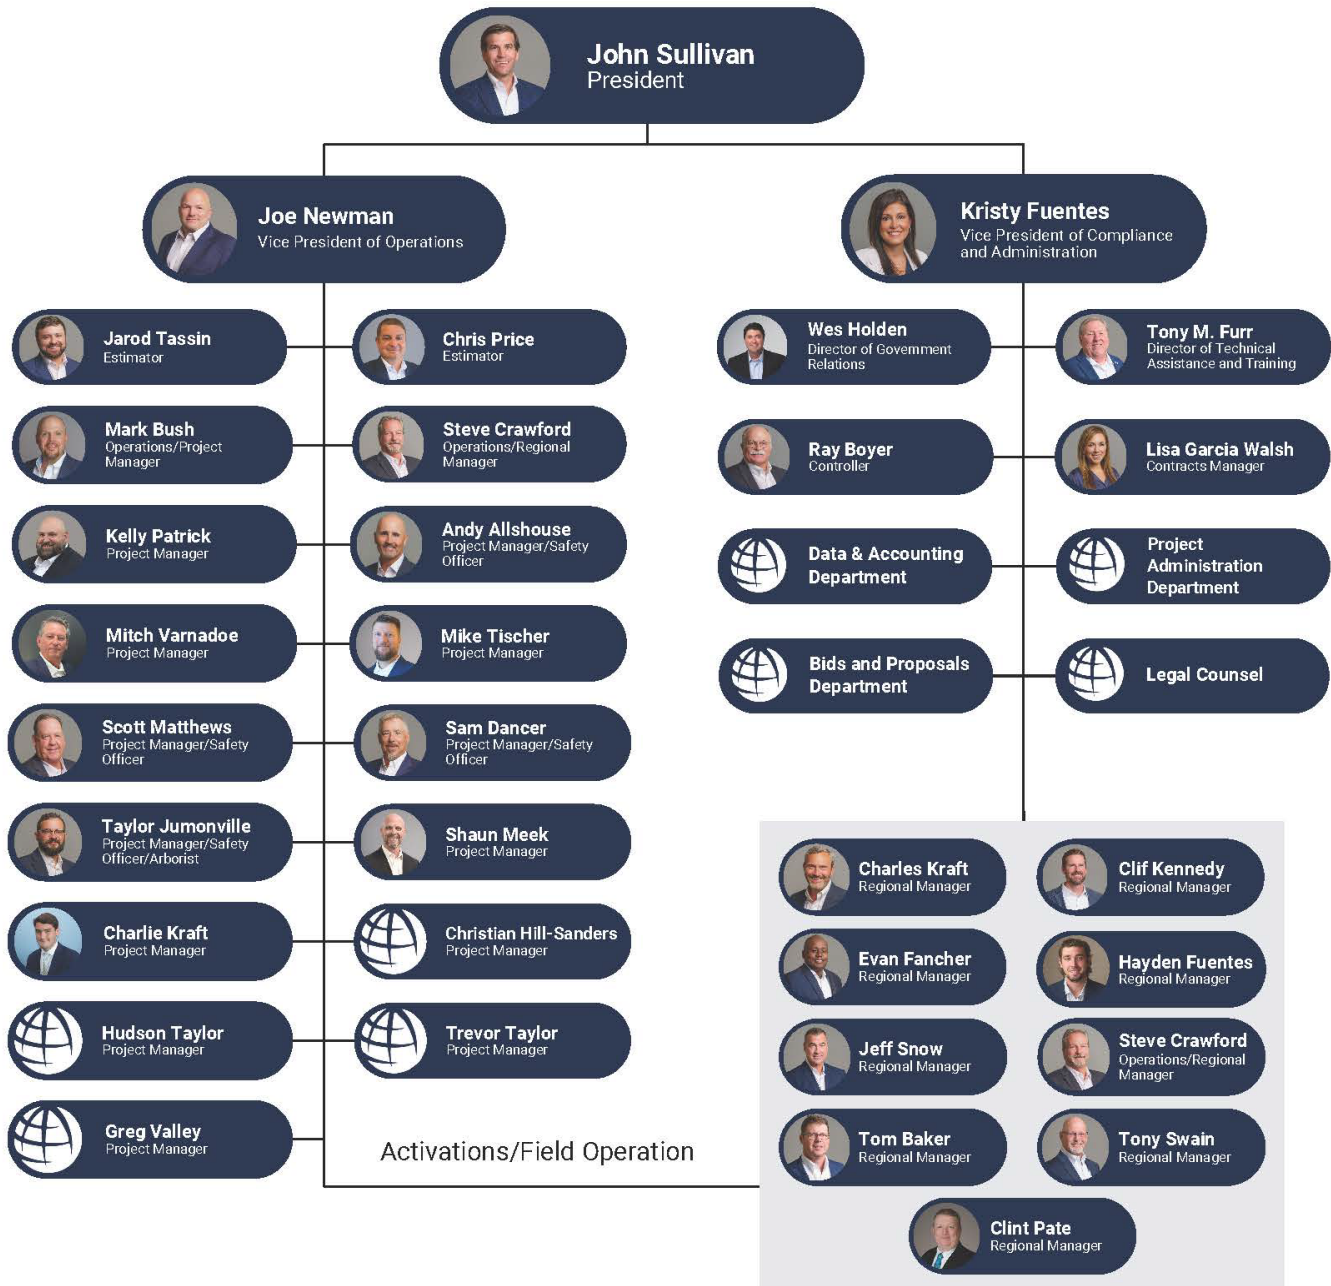

DRC Emergency Services is indeed a rare find and I highly recommend them as an Emergency Management Contractor.

Respectfully,

Jessie Pace
Secretary/Treasurer
Parish Manager
Grant Parish Police Jury

KEY PERSONNEL ROLES

Field Organizational Chart

Key Personnel

DRC's and our subcontractors' personnel list among their accomplishments memberships in several professional organizations, including NEMA, APWA, SWANA and the Society of American Military Engineers. DRC, its affiliates, associates and/or subcontractors are Licensed General Contractors in the states in which DRC performs disaster response services. DRC is familiar with USACE, FEMA, and FHWA rules and regulations, the Stafford Act, and 44CFR as they pertain to emergency response, recovery and reimbursement.

John Sullivan, President

Mr. Sullivan has vast experience in all aspects of the construction industry, ranging from marine construction and dredging to land development and infrastructure construction, as well as the intricate completion of individual custom homes. Mr. Sullivan, along with his brothers, started Sullivan Land Services, Ltd., which provides comprehensive site services for disaster response and recovery, infrastructure, and commercial landscaping, while earning a degree at Texas A&M University in Construction Management. His ingenuity eventually led to the creation of Sullivan Interests, Ltd., a portfolio of companies that provides services and products to various industries. With over 26 years of experience in the construction industry, Mr. Sullivan has gained both extensive knowledge and hands-on experience with the recovery process.

Kristy Fuentes, Vice President of Compliance and Administration

Kristy Fuentes, DRC's Vice President of Compliance and Administration, offers more than 19 years of experience in disaster recovery projects, client expansion, and government relations. Throughout the years, Ms. Fuentes has been an essential element in the management of all of DRC's disaster relief projects. Some of these major hurricane projects include Hurricanes Ian, Ida, Michael, Florence, Irma, Harvey, Ike, Wilma, and Katrina. Other major projects include the 2023 Hawaii Wildfires, Colorado Marshall Wildfires, 2021 Kentucky Tornadoes, California Wildfires, State of Washington Fire Cleanup, Texas Severe Winter Storms, Louisiana Severe Storms and Flooding, and the BP Oil Spill. **She managed 24 simultaneous activations in response to Hurricane Ian; this project involved the removal and disposal of a combined total of more than 4.9 million cubic yards of debris.** Ms. Fuentes has been an

instrumental asset to the company by acting as the designated liaison for clients and ensuring consistency and quality in performance while managing various projects.

Ms. Fuentes has implemented changes and improvements to the methods and procedures for contracts, licensing, and pre-qualification processes to guarantee contractor compliance with Federal and State regulations. Ms. Fuentes continues to aid clients across the United States in planning, program management, disaster response, demolition contracting, and regulatory compliance while maintaining a key administrative role for every disaster and project DRC performs. Ms. Fuentes' unique oversight and creativity in every role she has assumed has significantly improved DRC's ability to flourish in increasingly more demanding disaster recovery environments.

Wes Holden, Director of Government Relations

As a co-founder and leader of multiple companies, including Thompson Consulting Services, Wes Holden is a subject matter expert with more than 22 years of expertise driving innovation and advancement in the Disaster Recovery industry and managing FEMA programs. Mr. Holden is skilled in architecting innovative software to replace outdated management solutions for natural disasters and emergencies. Over his career, Mr. Holden has been instrumental in securing more than \$4 billion in FEMA reimbursed funding, enabling clients to recover and rebuild in the aftermath of disasters. Having pioneered groundbreaking solutions in the Disaster Recovery industry, Mr. Holden brings incredible knowledge and experience to every project.

Tony Furr, Director of Technical Assistance and Training

Mr. Furr was the Region VI Debris Subject Matter Expert (SME) from 2013 – 2021 for FEMA and has served as the Infrastructure Branch Director (IBD), Emergency Management Specialist, Appeals Analyst, Procurement Specialist, and Trainer for more than 100 federally declared disasters and emergencies. He is nationally known and recognized in the emergency management community and is highly knowledgeable about FEMA policies, procedures, and debris operations.

Mr. Furr was directly involved in the FEMA Public Assistance (PA) grant program from 2005 (Hurricanes Katrina and Rita) through 2020 COVID-19 events, including Hurricane Ike and Hurricane Harvey. Mr. Furr's knowledge and experience of the FEMA PA program is invaluable to both DRC Emergency Services and all clients while navigating the FEMA Disaster grant programs. Mr. Furr is also a FEMA trainer for Grants Management and Debris Management. He has delivered the Debris Management training at the National Hurricane Conference, the Texas Emergency Managers Conference, and the Oklahoma Emergency Managers Conference, and he has presided over the round table workshops hosted by the Disaster Recovery Contractors Association (DRCA) in FEMA Region VI.

Tony Furr is among the most knowledgeable people working in the debris management business, with firsthand field experience managing major disasters and PA grants.

Lisa Garcia Walsh, Contracts Manager

Prior to joining DRC, Ms. Walsh provided administrative assistance for emergency response projects involving FEMA protocol. Since joining DRC in 2010, she gained experience in data management operations following some of the largest debris generating natural disasters in recent history, and she became an integral part of DRC's data department. **Ms. Walsh was responsible for overseeing data collection for state and federally funded projects, helping to recover \$1.9 billion in data collection since 2016.** Ms. Walsh is very important to DRC's continued success in data.

Since 2013, Ms. Walsh has overseen all contracts for DRC as Contracts Manager. Her role is to maintain all contractual records and documentation, such as receipt and control of all contract correspondence; managing the pre-events contracts database; and coordinating with new and existing clients in establishing pre-event contract awards, contract renewals, and contract extensions. Ms. Walsh has provided continuous administrative aid to DRC's management personnel on all major disasters since 2010 through assisting and maintaining close relationships with each jurisdiction to ensure that all documentation is received and sent in a timely manner.

Steve Crawford, Operations Manager/Regional Manager

Mr. Crawford joined DRC with 25 years of operational and sales experience in the Waste and Recycling Industry. Mr. Crawford is a Florida resident and has lived in the state since 1990. He previously worked in the Organics Recycling and Compost Industry in Florida, where he was responsible for municipal and federal contracting, operations management, disposal management, transportation, logistics, and commodity marketing. Mr. Crawford is a previous Board of Directors Member and Chairman of the Sponsorship Committee for Recycle Florida Today, a nonprofit organization dedicated to recycling education and improvements throughout Florida. Mr. Crawford now works for DRC as an Operations Manager for the East United States and a Regional Manager for North Florida and Georgia. His duties as a Regional Manager consist of helping to secure pre-event contracts with jurisdictions; facilitating

communication with clients to coordinate appropriate disaster planning before and after an event; identifying local subcontractors and DMS sites; and assisting other Regional Managers with mobilization and response post-disaster when not in his region. As an Operations Manager, his duties consist of contributing operations information and recommendations for strategic plans and reviews; preparing and completing action plans; implementing production, productivity, quality, and customer service standards; resolving problems in the field; completing audits; identifying trends; analyzing and improving organizational processes and workflows; maintaining safe and healthy work environments by establishing, following, and enforcing standards and procedures; and complying with legal regulations.

In response to Hurricanes Ian and Ida, Mr. Crawford managed several jurisdictions in Florida, Georgia, and Louisiana, removing a total of 9.3 million cubic yards of debris. In response to Hurricane Ida, Mr. Crawford oversaw the removal of more than 4.3 million cubic yards of debris. In response to Hurricanes Delta, Laura, and Sally, Mr. Crawford worked as the Operations Manager in 4 jurisdictions in Louisiana; during this time, he helped operate 10 DMS sites and removed and disposed of a combined total of more than 1.4 million cubic yards of debris throughout these areas. In response to Hurricanes Helene and Milton, Mr. Crawford oversaw 28 activations throughout Florida and Georgia, removing more than 3.2 million cubic yards of debris, for a total contract value of more than \$79 million.

Tony Swain, Regional Manager

Mr. Swain joined DRC with 15 years of experience as a Project Manager, and prior to working for DRC, he had been involved in DRC's projects since 2006. As DRC's Regional Manager for North and South Carolina, he is responsible for helping to secure pre-event contracts with jurisdictions; facilitating communication with clients to coordinate appropriate disaster planning before and after an event; identifying local subcontractors and DMS sites; and assisting other Regional Managers with mobilization and response post-disaster when not in his region.

Mr. Swain oversaw the response to Hurricanes Isaias, Florence, Dorian, and Matthew, which resulted in a cumulative contract value of more than \$35 million. For several Florida jurisdictions,

Mr. Swain oversaw the removal and disposal of more than 1.9 million cubic yards of debris following Hurricane Ian. In response to Hurricane Ida, Mr. Swain aided in the removal and disposal of over 2 million cubic yards of debris in Louisiana. Following Hurricane Helene, Mr. Swain managed activations for the South Carolina Department of Transportation and the City of Spartanburg, which involved the removal of more than 23,000 hazardous trees, for a total contract value of more than \$7 million.

Jeff Snow, Regional Manager

Mr. Snow comes to DRC with more than a decade of experience in the Solid Waste and Recycling Industry in California. He earned his Bachelor's Degree in Business from California State University and his MBA and MIM from Thunderbird School of Global Management, where he also earned certificates from studies at École du Commerce in Paris, France. Prior to working for DRC, Mr. Snow served as President of Rainbow Disposal in Huntington Beach, California – where he and Rainbow were recognized as the nation's leader in recycling and diversion of materials from landfills. Upon acquisition of Rainbow by Republic Services, Jeff served as Senior Area Municipal Sales Manager for Republic Services. He also served as Vice President for CR&R Environmental Services throughout Southern California. Mr. Snow was a leader in the "Don't Waste L.A." movement which culminated

in a revolutionized commercial waste & recycling franchise system for the City of Los Angeles, dramatically increasing recycling, good jobs and clean air.

Mr. Snow is a distinguished sustainability and community leader with recognitions from the United States Congress, State of California Senate, State of California Assembly, and the Orange County, California. DRC believes in giving back to the communities we serve, and Jeff Snow is dedicated to community service leadership throughout California. Jeff currently serves on the Board of Directors for Special Olympics, Coastkeeper, Abound Food Care, and Influencers For Good (Passkeys).

Mr. Snow's duties as California Regional Manager for DRC include improving local government's resilience and preparation for natural disasters through pre-event contracts, joint planning and training, identifying local Emergency Push routes for life safety, identifying Debris Management Sites within jurisdictions, partnering with local subcontractors to bolster economic reinvigoration following a disaster event, and assuring timely communications and mobilization for emergency response and recovery following a disaster event.

Evan Fancher, Regional Manager

Mr. Fancher comes to DRC with more than seven years of relevant experience, a dual Bachelor's Degree in Sociology and Political Science from the University of Alabama at Birmingham, and a Master's Degree in Applied American Politics and Public Policy from Florida State University. Mr. Fancher serves as Regional Manager for South Florida for DRC, and he is responsible for helping to secure pre-event contracts with jurisdictions; facilitating communication with clients to coordinate appropriate disaster planning before and after an event; identifying local subcontractors and DMS sites; and assisting other Regional Managers with mobilization and response post-disaster when not in his region. Prior to working with DRC, he led several infrastructure projects for local governments throughout South Florida. He also has experience handling FEMA, and as such, he conducts training

courses with local governments, helping them understand FEMA guidelines and best practices.

Mr. Fancher managed 24 simultaneous activations in response to Hurricane Ian; this project involved the removal and disposal of a combined total of more than 4.9 million cubic yards of debris. In response to Hurricanes Helene and Milton, he oversaw the removal of more than 2.7 million cubic yards of debris during seven simultaneous activations in South Florida, for a total contract value of more than \$63 million.

Clif Kennedy, Regional Manager

As a former Captain in the U.S. Marine Corps, Mr. Kennedy handled the training and combat readiness of hundreds of Marines and led expeditionary combat operations around the world. His leadership and experience conducting operations in extreme situations gives him a unique perspective in the disaster response business. As Regional Manager for Colorado and Texas, Mr. Kennedy is responsible for helping to secure pre-event contracts with jurisdictions; facilitating communication with clients to coordinate appropriate disaster planning before and after an event; identifying local subcontractors and DMS sites; and assisting other Regional Managers with mobilization and response post-disaster when not in his region.

Mr. Kennedy handled several Mechanical Dredging and Waterway Debris Removal Projects within the City of Houston, TX, with a cumulative contract value of \$43.5 million. Upon joining the DRC team, Mr. Kennedy worked with the Texas General Land Office restoring 125 miles of Texas coastline after Hurricane Harvey; during this project he coordinated with eight different federal, state, and county agencies and completed the project on time while navigating numerous unexpected contingencies.

Mr. Kennedy handled the Marshall Fire in Boulder County, Colorado, with a total contract value of \$27 million dollars. Additionally, Mr. Kennedy oversaw the removal of debris following a flash flood in Larimer County, Colorado. **In response to Hurricane Beryl, he oversaw 21 simultaneous activations in Texas, removing more than 2 million cubic yards of debris, for a contract total of more than \$32 million.**

Mr. Kennedy has a Bachelor's Degree in Political Science from Texas A&M University. He lives in Clifton, TX with his wife, Kat, and their four children.

Clint Pate comes to DRC with over 30 years of experience. Before joining the DRC team, Mr. Pate worked for an engineering firm for 23 years designing highways. In 2014, he was elected to serve on the Jackson County, Florida Commission where he worked for 8 years. For 2 years, Mr. Pate was Chairman of the Board of the County Commission, where he helped with the cleanup after Hurricane Michael, Hurricane Sally, and the start of Covid. Mr. Pate is skilled in sales, project management, and contract reviews, and he has remarkable knowledge of elected officials and leaders in the panhandle of Florida.

In 2024, Mr. Pate assisted with DRC's response to Hurricanes Helene and Milton in Florida.

Sam Dancer, Field Supervisor and Project Manager

After more than a decade in military and law enforcement, Mr. Dancer joined DRC as a Field Supervisor and Project Manager. His responsibilities as Project Manager include on-site management of all phases of projects and making necessary adjustments to ensure optimal performance; ensuring that personnel are properly trained and equipped to carry out their duties; investigating incidents and accidents in the field and taking appropriate corrective action; coordinating with other departments to ensure that field operations are running smoothly; coordinating daily meetings and reports; and coordinating subcontractors.

Mr. Dancer managed six Louisiana contracts for Hurricane Ida with a cumulative contract total of more than \$99 million. In 2024, he managed activations in Texas, Louisiana, and Florida following Hurricanes Beryl, Francine, Helene, and Milton, with a contract total of more than \$1.2 million.

Scott Matthews, Project Manager

Mr. Matthews has more than three decades of relevant work experience as a Project Supervisor and Manager. He has a proven track record of coordinating and planning for complex contracts, including developing project milestones. His duties as a Project Manager consist of on-site management of all phases of projects and making necessary adjustments to ensure optimal performance; ensuring that personnel are properly trained and equipped to carry out their duties; investigating incidents and accidents in the field and taking appropriate corrective action; coordinating with other departments to ensure that field operations are running smoothly; coordinating daily meetings and reports; and coordinating subcontractors.

In his first year with DRC, Mr. Matthews managed the removal of more than 3 million cubic yards of debris across four Louisiana jurisdictions in response to Hurricane Ida. **In response to Hurricane Ian, he worked closely with the Florida Department of Transportation, the Florida Department of Environmental Protection, and several Florida jurisdictions while aiding in the management of more than 2.6 million cubic yards of debris.** In 2024, he assisted in managing 6 activations in Florida and Texas following multiple hurricanes and severe weather events, resulting in a contract total of more than \$28 million.

Mr. Allshouse has seven years of relevant work experience and a Bachelor of Science Degree in Community Health Education from Western Michigan University. Prior to working with DRC, Mr. Allshouse worked with DRC's sister company, SLSCO, a fellow disaster response company. Mr. Allshouse currently resides in New Port Richey, Florida. As a Project Manager for DRC, his responsibilities include on-site management of all phases of projects and making necessary adjustments to ensure optimal performance; ensuring that personnel are properly trained and equipped to carry out their duties; investigating incidents and accidents in the field and taking appropriate corrective action; coordinating with other departments to ensure that field operations are running smoothly; coordinating daily meetings and reports; and coordinating subcontractors.

Mr. Allshouse facilitated the removal and disposal of a combined total of more than 3.8 million cubic yards of debris in response to Hurricanes Ian, Ida, and Idalia, resulting in a cumulative contract value of \$55 million dollars. In 2024, he managed several activations in Florida following Hurricanes Helene and Milton.

Jarod Tassin, Estimator and Project Manager

Mr. Tassin joined DRC with 4 years of relevant work experience, having worked for a debris monitoring firm. His responsibilities as a Project Manager include on-site management of all phases of projects and making necessary adjustments to ensure optimal performance, ensuring that personnel are properly trained and equipped to carry out their duties, investigating incidents and accidents in the field and taking appropriate corrective action, coordinating with other departments to ensure that field operations are running smoothly, coordinating daily meetings and reports, and coordinating subcontractors. As an Estimator, he estimates costs for all aspects of DRC's debris removal and management projects. Mr. Tassin is also technician and traffic control support certified for Louisiana.

Mr. Tassin oversaw the operation for the Marshall Fires in Colorado, resulting in a contract value of \$27 million, and cleanup for Hurricanes Ian and Ida, resulting in a contract value of \$43.8 million.

In 2024, Mr. Tassin assisted in managing Pinellas County, Florida's responses to Hurricanes Milton and the Hurricane Helene responses for 6 jurisdictions in Florida. Additionally, Mr. Tassin managed debris removal in Vermillion Parish, Louisiana, Pointe Coupee Parish, Louisiana, and Jackson County, Florida. **The cumulative value of his 2024 contracts is more than \$23 million.**

Chris Price, Estimator and Project Manager

Chris Price has been with DRC and its sister company SLS since 2015. He brings to the company over 11 years of project management experience. He is responsible for all aspects of the administrative management of a project, including implementing and managing project schedules and budgets, reviewing and submitting project submittals and RFIs, and ensuring that all work completed is in strict compliance with the contract plans and specifications. His previous employment with Southern Gulf of Mexico garnered him many accolades for the management of various manufacturing operations for oil and gas companies. He holds a B.S. in Civil and Environmental Engineering from the University of Louisiana.

Kelly Patrick, Project Manager

Kelly Patrick came to DRC in 2020 with 3 years' experience in the debris removal industry. Previously, he was a practicing attorney working primarily in environmental law. As an attorney for both the State of Louisiana and the Plaintiffs' Steering Committee in MDL 2179 class action regarding the Deepwater Horizon oil spill, he served on teams that accomplished landmark settlement agreements with BP.

As a Project Manager for DRC, he manages debris removal projects from start to finish, including meeting with clients, damage assessment, planning, deployment of assets, and progress monitoring. Mr. Patrick has managed projects for DRC including Hurricanes Delta and Ida, the February 2021 ice storm and May 2021 flood in East Baton Rouge Parish, August 2021 tornado in Randolph County, Alabama, and an ongoing waterway clearing project for East Baton Rouge Parish, which has removed more than 30,000 tons of debris to date. In 2024, Mr. Patrick managed the Hurricane Francine response and blight reduction services in East Baton Rouge/City of Baton Rouge, Louisiana, tree removal in Beauregard Parish, Louisiana, and debris removal in the City of Baker, Louisiana.

Mike Tischer, Project Manager

Mr. Tischer joined DRC in 2022 with 14 years of experience in the Disaster Recovery Industry. He earned a Bachelor of Science in Environmental Geosciences with a Minor in Geography from North Illinois University. Prior to joining DRC, Mr. Tischer worked for Arcadis from 2010 to 2022, where he honed his ability to manage and interact with clients, regulators, and local, federal, and state governments; coordinate field operations; and manage staffs as large as 230 people. Mr. Tischer is well versed in tree removal operations, wildfire debris cleanup operations, pre-demos and asbestos operations, and environmental health and safety compliance. Mr. Tischer's unique background brings a fresh view to DRC's disaster operations and will be a huge asset to DRC in the years to come. As a Project Manager, Mr. Tischer can handle on-site management of all phases of projects and make necessary adjustments to ensure optimal performance; ensure that personnel are properly trained and equipped to carry out their duties; investigate incidents and accidents in the field and take appropriate corrective action; coordinate with other departments to ensure that field operations are running smoothly; coordinate daily meetings and reports; and coordinate subcontractors.

Since joining DRC in 2022 as a Project Manager, he has managed the Larimer County Flood Cleanup, which had a contract value of more than \$1.8 million and the Boulder County, Colorado, Marshall Fire Cleanup, a project totaling more than \$27 million. In 2024, Mr. Tischer managed wildfire response for the State of New Mexico, and debris removal for Lafayette Parish, Louisiana. Mr. Tischer also assisted in managing the Hurricane Beryl response in Brazoria County, Texas and wildfire response for the State of Washington. **The total value of his 2024 contracts is over \$24 million.**

Charlie Kraft, Project Manager

Charlie Kraft joined DRC in 2024 after graduating from Spring Hill College with a B.S. in Business Administration with a concentration in Supply Chain Management. He gained hands-on experience in project management during DRC's responses to Hurricanes Debby, Francine, and Helene. He personally oversaw projects in the Cities of St. Marys, Kingsland, and Richmond Hills, Georgia, as well as the City of Palm Coast, Florida, following Hurricane Helene. He removed more than 100,000 cubic yards during these activations.

FINANCIAL STRENGTH & STABILITY

DRC is one of the most **financially sound and stable companies** in the disaster response industry. With a **bonding capacity of over \$1 billion** and access to dedicated cash and credit lines **of more than \$500 million**, DRC has the ability to manage and complete multiple projects simultaneously without being hindered by a lack of operating capital. During high storm seasons over the past decade, DRC operated substantially out of pocket prior to client payment, yet remained fully capable of providing the critical services necessary to complete all contracts.

- DRC's combined contract total for 2024 is valued at over \$229,000,000. During this time, DRC removed and disposed of over 10,300,000 cubic yards of debris across ten states.
- In 2021, DRC removed 18,000,000 cubic yards of debris and managed 89 debris management sites in response to Hurricane Ida alone. Our combined contract total for 2021 was valued at over \$457,000,000.
- The 2020 hurricane season consisted of numerous storms, including Hurricanes Hanna, Laura, Isaias, Sally, Delta, and Zeta; DRC was mobilized in Alabama, Georgia, Louisiana, Mississippi, Florida, Texas, and North Carolina and removed and disposed of over 5,900,000 cubic yards of debris for contracts totaling over \$95 million.
- The 2018 hurricane season brought several storms, most notably Hurricanes Florence and Michael. With only two weeks of reprieve between each storm, DRC mobilized in Florida, North Carolina, Virginia and Georgia simultaneously.
- Three major hurricanes hit continental North America in 2017: Hurricanes Harvey, Irma, and Maria. DRC managed a total of 53 projects simultaneously in the months that followed these disasters, totaling \$251 million and 6 million cubic yards.
- 2016 brought several severe flooding events, primarily in Texas and Louisiana. Additionally, Hurricanes Hermine and Matthew wreaked havoc on Florida and the East Coast. DRC was activated in 30 total jurisdictions, picked up 4 million cubic yards of debris, and was awarded over \$64.7 million in contracts.
- The winter of 2014 wreaked havoc on the eastern seaboard. Working primarily in the Carolinas, DRC managed the debris removal for five counties in North Carolina and eight counties for SCDOT. DRC removed over 225,000 trees and 1,400,000 cubic yards of debris, with a total contract value of \$54,449,473.
- DRC successfully performed in 10 contracts that were directly related to the British Petroleum Deepwater Horizon oil spill in the Gulf of Mexico which flowed for three months in 2010. The company's depth of knowledge with debris handling in ecologically sensitive environments was a significant asset to the regions affected. The total contract value is \$185,334,469.

DRC has never failed to complete any awarded work, defaulted on a contract, or filed for bankruptcy. The company has a 100% assignment completion record.

FEMA EXPERTISE

DRC has an unparalleled record for providing jurisdictions with the maximum reimbursement rate granted by FEMA. **Our record serves as a testament to DRC's ability to perform within the strict guidelines established by our Federal Government, as well as our ability to attract and maintain well-trained and principled personnel.**

Tony Furr, DRC's Director of Technical Assistance and Training, works closely with our clients to educate them on how to ensure compliance with Federal Policy and Procedures. Mr. Furr was the FEMA Region VI Debris Subject Matter Expert from 2013 – 2021, and he has served as the Infrastructure Branch Director (IBD), Emergency Management Specialist, Appeals Analyst, Procurement Specialist, and Trainer for over 100 federally declared disasters and emergencies. He is nationally known and recognized in the emergency management community and is highly knowledgeable about FEMA policies, procedures, and debris operations.

State & Federal Programs

The Public Assistance Program of the Federal Emergency Management Agency (FEMA) is aimed at providing support and resources for disaster recovery efforts. These programs facilitate the reimbursement of eligible expenses incurred by state and local governments, as well as certain nonprofit organizations, following a federally declared disaster.

The Public Assistance Program and Policy Guide (PAPPG) is a comprehensive, consolidated program and policy document for FEMA's Public Assistance Program. DRC thoroughly reviews and follows the PAPPG. The latest version is FEMA Policy 104-009-2, Public Assistance Program and Policy Guide Version 5.0 (issued January 6, 2025). This latest PAPPG supersedes all previous policies and publications for disasters declared on or after January 6, 2025.

Within the Florida Department of Emergency Management Agency (FDEM), several programs are aligned with the FEMA Public Assistance Program. Key programs within FDEM that are aligned with the FEMA Public Assistance Program include the following:

Public Assistance Grants

The State administers public assistance grants to eligible entities to cover costs associated with debris removal, emergency protective measures, and the repair, replacement, or restoration of public infrastructure damaged or destroyed by disasters. This program aims to expedite the recovery process and restore essential services to affected communities.

Hazard Mitigation Grant Program (HMGP)

HMGP provides funding to support projects that mitigate the risk of future disasters and enhance community resilience. The State's HMGP, aligned with FEMA guidelines, enables state and local governments to implement measures such as flood control projects, structural retrofits, and land acquisition for hazard mitigation purposes.

Community Disaster Loans (CDL)

The State's CDL program provides financial assistance to local governments facing revenue shortfalls due to a disaster-related decline in tax revenues or increased expenditures. These loans help municipalities maintain essential services and bridge the gap until regular revenue streams are restored.

These programs, modeled after FEMA's framework, demonstrate the State's commitment to leveraging federal resources and implementing effective strategies to mitigate the impact of disasters and support long-term recovery efforts across the state.

Funding Sources

After a natural disaster, FEMA Public Assistance applicants have access to various funding sources to support their recovery efforts. These funding sources include the following:

Federal Grants: FEMA provides grants to eligible applicants for disaster-related expenses, including debris removal, emergency protective measures, and infrastructure repair or replacement.

State Matching Funds: Applicants are required to provide a percentage of the total project cost as a non-federal match, which can come from state or local government funds, in-kind services, or donations.

Hazard Mitigation Grants: FEMA offers Hazard Mitigation Grant Program (HMGP) funding to support projects that mitigate the risk of future disasters. These grants can be used for measures such as floodplain restoration, structural retrofits, and public education campaigns.

Community Development Block Grants: The U.S. Department of Housing and Urban Development (HUD) may allocate Community Development Block Grant (CDBG) funds to assist with disaster recovery and rebuilding efforts, particularly for housing rehabilitation, economic revitalization, and infrastructure improvements.

Natural Resources Conservation Service (NRCS) Funding: NRCS provides financial assistance through programs like the Emergency Watershed Protection Program (EWP) to address watershed impairments caused by natural disasters. EWP funding supports measures such as debris removal, streambank stabilization, and erosion control to mitigate further damage and protect natural resources.

These funding sources provide crucial financial assistance to FEMA Public Assistance applicants, helping them rebuild and strengthen their communities in the aftermath of a natural disaster.

Reimbursement Process

The FEMA Public Assistance reimbursement process is crucial for assisting applicants in recovering from disasters and restoring essential services to their communities. Key elements of this process include the following:

Eligibility Determination: FEMA evaluates the eligibility of projects submitted by applicants based on established criteria, including the type of work, its relationship to the disaster, and compliance with federal regulations.

Project Formulation: Applicants work with FEMA to develop detailed project worksheets that outline the scope of work, estimated costs, and supporting documentation for each eligible project.

Obligation of Funds: Once projects are approved, FEMA obligates funds to cover the federal share of eligible costs, up to 75% of the total project cost, with the applicant responsible for providing the non-federal match.

Documentation: Applicants must maintain accurate records and documentation throughout the project lifecycle, including procurement procedures, labor costs, equipment usage, and invoices, to support reimbursement claims.

In the aftermath of a natural disaster, debris removal is often one of the most immediate and significant challenges faced by communities. In this context, the role of the debris monitor becomes pivotal in ensuring efficient and compliant debris removal operations, as well as facilitating the reimbursement process through FEMA Public Assistance. The debris monitor serves as a crucial link between the debris removal contractors, the applicant, and FEMA, playing a vital role in documenting and verifying the removal of debris from public areas. Here's an in-depth look at the role of the debris monitor in the reimbursement process:

Debris Monitoring: The debris monitor is a critical component of the debris removal process following a disaster. They are responsible for overseeing and documenting the removal of debris from public areas such as roads, parks, and other public property.

Verification of Work: The debris monitor verifies that debris removal contractors comply with FEMA guidelines and contract specifications, ensuring that debris is properly sorted, segregated, and disposed of in accordance with environmental regulations.

Documentation: The debris monitor meticulously documents the quantity, type, and location of debris removed, as well as the methods used for disposal. This documentation serves as evidence to support reimbursement claims submitted to FEMA.

Quality Assurance: In addition to monitoring the physical removal of debris, the debris monitor performs quality assurance checks to ensure that work meets established standards and that debris removal operations are conducted safely and efficiently.

Support for Reimbursement Claims: The detailed documentation provided by the debris monitor is essential for applicants seeking reimbursement from FEMA for eligible debris removal costs. This documentation helps demonstrate the scope of work performed, justify the associated expenses, and facilitate the reimbursement process.

Overall, the debris monitor plays a crucial role in the FEMA Public Assistance reimbursement process by ensuring that debris removal activities are conducted in compliance with federal regulations and that accurate documentation is maintained to support reimbursement claims.

Knowledge and Experience with State and Local Emergency Management Agencies

DRC Emergency Services has been actively engaged in disaster recovery efforts across the United States for the past 20 years, collaborating closely with local, state, and federal agencies. Our commitment is to assist in optimizing performance and ensuring reimbursement. DRC coordinates with the Public Assistance Firm and monitoring firm in each jurisdiction to review and reconcile every individual ticket and or line item for eligibility with all State and Federal agencies. This process expedites the submittal of accurate documentation in a timely manner. DRC has a strong track record of maximizing federal reimbursement for eligible work without any de-obligation.

In the State of Florida, we have worked directly with the Florida Department of Transportation (FDOT), the Florida Department of Emergency Management (FDEM), and the Florida Department of Environmental Protection (FDEP), following all FEMA Guidelines and Policies. DRC's management team participates in state conferences and workshops and

stays up to date with relevant policies and procedures. DRC's thorough review of and adherence to FEMA's Public Assistance Program and Policy Guide demonstrates our commitment to efficient and effective disaster recovery processes.

Adherence to Policy Changes

DRC Emergency Services strives to continuously stay ahead of any changes in FEMA policy and guidance that may affect our clients. DRC immediately implements internal measures to ensure that our clients and prospective clients are prepared to be fully compliant with any changes or updates to FEMA's policies. DRC carefully reviews scopes of service, terms of inclusion, evaluation, pricing models, and other key components for any items which may have been deemed non-compliant relative to the new guidance. Additionally, **DRC Emergency Services, LLC is a founding member of the Disaster Recovery Coalition of America (DRCA)**, the industry's trade organization. Through this membership, DRC helps shape policy and legislation relevant to jurisdictions' recovery processes. Our additional memberships in other professional organizations (NEMA, APWA and SWANA) provide us with recent industry knowledge necessary to support our client base.

Major Disaster Recovery Projects

DRC has extensive experience working with FEMA on major disaster recovery projects. Through decades of experience, DRC has developed an inherent understanding of how to direct emergency response and recovery. Following is a list of FEMA declared disasters for which DRC has completed work.

Year	Event	State	Declaration Number

EMPLOYMENT OF LOCAL & MINORITY CONTRACTORS

DRC maintains **one of the industry's largest networks of pre-screened and fully qualified subcontractors**, including local and preferred vendors. DRC's subcontractors are evaluated extensively, including past performance, equipment and personnel availability, mobilization timeframes, insurance, and cost.

DRC has access to more than 2,000 firms through our pre-qualified supplier database, including more than 1,200 Small Business Enterprises (SBE). Many are also designated as Minority-Owned Business Enterprise (MBE), Women-Owned Business Enterprise (WBE), Disadvantaged Business Enterprise (DBE), Small Disadvantaged Business (SDB), HUB Zone Business, 8(a) Business Development Program, and/or Veteran-Owned Small Business (VOSB), including Service-Disabled Veteran-Owned Small Business (SDVOSB) contractors.

This database facilitates our ability to identify firms qualified for specific scopes of work and allows DRC to efficiently sort the firms by type of service and size of business. Interested businesses may apply to be added to DRC's subcontractor list at any time by filling out the application form on our website, drcusa.com, or by calling (888) 721-4DRC.

Proposed Subcontractors

DRC has teamed with the following subcontractors. These partnerships augment our resources and ability to quickly respond to any contingency that disrupts the Town of Southwest Ranches. This alliance provides vital local knowledge and allows DRC to establish relationships with other local civil contractors.

Outreach and Training

The use of local resources is vitally important to a successful disaster recovery operation. We pride ourselves in facilitating local involvement during recovery efforts and encourage local knowledge and experience. DRC utilizes local vendors to the maximum extent possible to minimize load times, transportation costs, and schedule risk.

Upon receipt of Notice of Award, DRC will schedule an informational and technical assistance workshop for potential vendors and businesses. The workshop will provide all interested local businesses with information about the overall scope of work and opportunities for contracting and partnership with DRC. Our highly qualified and experienced staff will also provide hands-on technical assistance and training in all relevant aspects of the debris removal and management process, so that local subcontractors are ready to partner with DRC in providing superior services to the Town of Southwest

Ranches.

The Regional Manager will recruit local subcontractors and small and diverse business enterprises by utilizing DRC's subcontractor database, as well as the following resources:

- Government databases
- Local, regional, and national SBE compliance departments
- Client and vendor references
- Direct mail community outreach

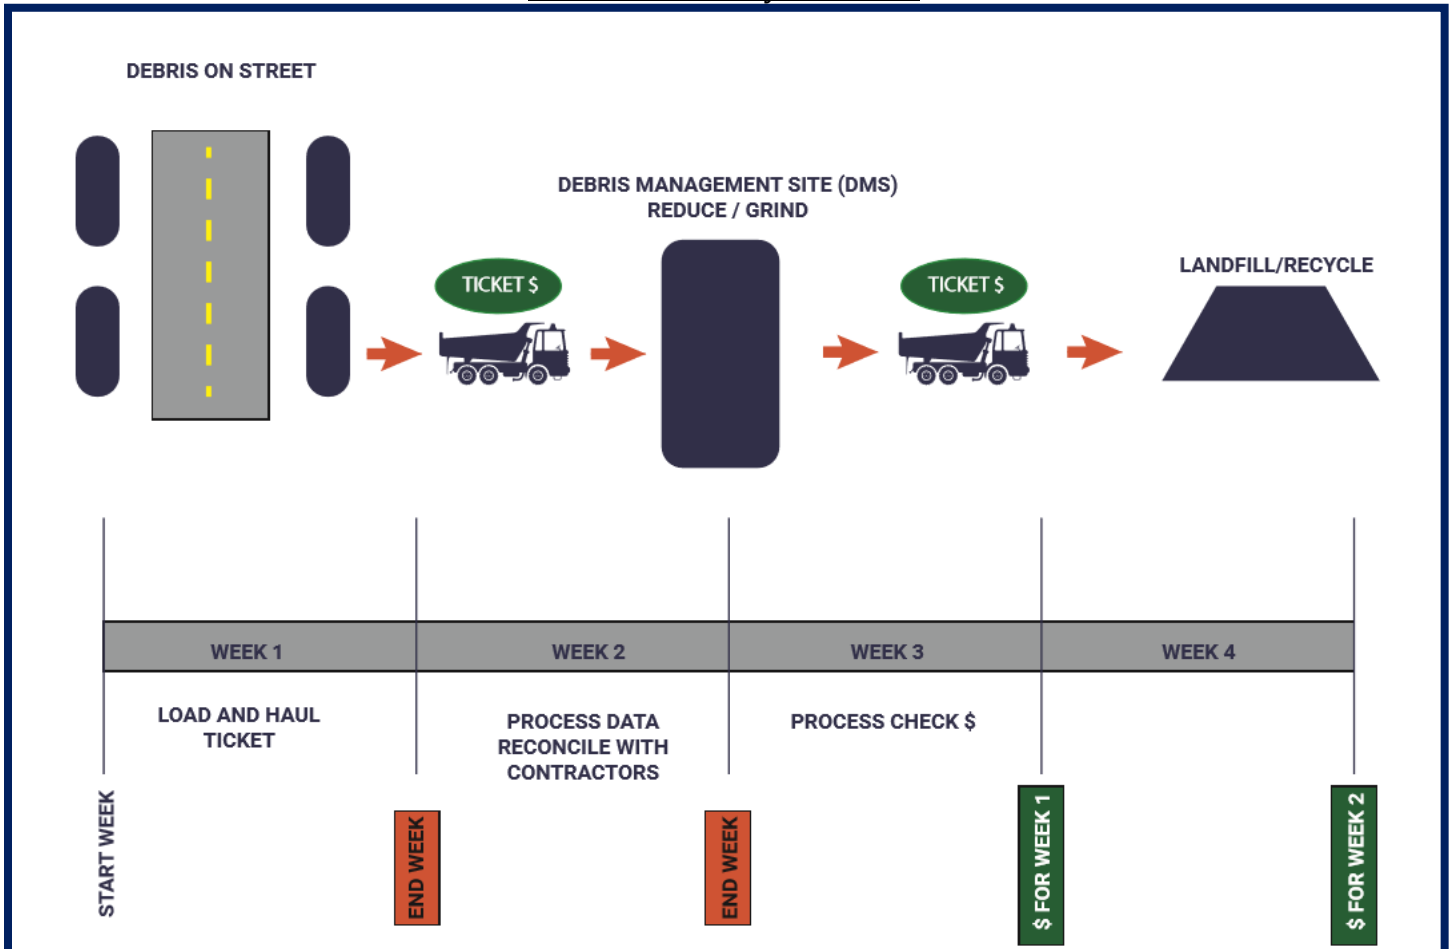

Standards and Oversight

From our extensive experience with subcontractors, DRC knows the importance of establishing strict guidelines for performance and safety standards. All subcontractors will be screened for qualifications and safety compliance prior to being offered a contract with DRC. Additionally, at the discretion of the contracting agency, all subcontractors will be approved prior to beginning work. Our Subcontractor Agreement details the scope of work and responsibilities of each subcontractor. The Subcontractor Agreement also commits the subcontractor to all governmental regulations and requirements. All subcontractor equipment will be inspected and properly maintained, and all personnel certifications and safety courses will be on file and renewed or updated as needed.

Prompt Payment of Subcontractors

For a typical event, subcontractors are paid every Friday, with payments covering work completed two weeks prior, ensuring consistent and timely compensation throughout the project duration.

Subcontractor Payable Chart

“Our Mayor's Office, Councilmembers, my office, and other coordinating agencies took great comfort in the ‘on the ground’ presence and access they had to DRC's team throughout this effort, and their commitment to the job until we fully addressed all the recovery needs of our residents was greatly appreciated.”

– Adam M. Smith, P.E., Chief of Wastewater Operations & Maintenance, City of Baton Rouge/Parish of East Baton Rouge's Department of Environmental Services

EQUAL OPPORTUNITY POLICY

DRC is an equal opportunity employer. Employment decisions are based on merit and business need, and not on race, color, citizenship status, national origin, ancestry, gender, sexual orientation, age, religion, creed, physical or mental disability, marital status, veteran status, political affiliation, or any other factor protected by law. DRC complies with the law regarding reasonable accommodation for employees with disabilities. DRC's President has issued the following policy:

DRC recognizes the value of hiring a diverse group. Due to the nature of our work and the fact that we provide services worldwide, we find it necessary and advantageous to employ a number of persons from various countries who are of different races, religions and ethnic groups. In addition, we believe workforce diversity may provide a significant market advantage.

It is the policy of DRC to comply with all the relevant and applicable provisions of the Americans with Disabilities Act (ADA). DRC will not discriminate against any qualified employee or job applicant with respect to any terms, privileges, or conditions of employment because of a person's physical or mental disability. DRC will also make reasonable accommodation wherever necessary for all employees or applicants with disabilities, provided that the individual is otherwise qualified to safely perform the essential duties and assignments connected with the job and provided that any accommodations made do not impose an undue hardship on DRC.

Equal employment opportunity notices are posted as required by law. Management is primarily responsible for seeing that DRC's equal employment opportunity policies are implemented, but all members of the staff share in the responsibility for assuring that by their personal actions the policies are effective and apply uniformly to everyone. Any employee, including managers, involved in discriminatory practices will be subject to termination.

Prepare

Respond

Recover

Among the top priorities of any community are to protect lives, to minimize the loss or degradation of resources, and to restore operational capability following an event. DRC uses a basic, three-phase approach to help the Town of Southwest Ranches achieve these goals: **prepare**, **respond**, and **recover**.

Careful attention to these three phases is fundamental to successful disaster management.

The primary mission of DRC Emergency Services, LLC is to provide a professional, honest, and immediate response to natural and man-made disasters.

“Through weekly project meetings, I became increasingly familiar with the organization’s natural abilities and orderly work ethic. As the cleanup effort progressed, I realized that this company’s staff was a perfect fit for working with subcontractors and property owners.”

— Leo T. Lucchesi, Director of Public Works, Washington Parish Government

PREPARE

- Contract Award
- Local Teaming Partners
- Available Equipment
- Joint Planning & Training
- Disaster Event Scenarios/Forecasting

Contract Award

Upon award, DRC's Regional Manager Evan Fancher will schedule a meeting with the Town of Southwest Ranches. The initial meeting is critical, allowing the Town and the Regional Manager to make introductions and to prepare for any pending disasters. DRC's primary goal in this meeting would be to develop a step-by-step plan to expedite arrangements for the training and response phases of the contract. These provisions include but are not limited to the following:

- 🌐 Presenting key team members, including the Project Manager, and their responsibilities
- 🌐 Participating in scenario exercises to include planning and routing
- 🌐 Facilitating the designation and readiness of TDMS and final disposal sites
- 🌐 Introducing the Monitoring Firm Representative (if applicable)

Local Teaming Partners, Vendors, and Subcontractors

DRC maintains a network of more than 2,000 subcontractors, approximately 30 of which are primary subcontractors that have been a part of DRC's responses since our inception. These subcontractors, along with DRC's own personnel and equipment, are capable of mobilizing events of any size. The identification of local subcontractors prior to activation secures commitment of equipment and insurance requirements. In compliance with the Stafford Act, and in recognition of the value of local knowledge and expertise in any disaster scenario, DRC encourages local participation. DRC uses the following methods to identify local subcontractors:

- | | |
|------------------------|-------------------------------|
| 🌐 Outreach programs | 🌐 Client and vendor referrals |
| 🌐 Government databases | 🌐 SBE compliance departments |
| 🌐 Website applications | 🌐 Direct mail outreach |

Available Equipment

DRC will use owned equipment, subcontractor equipment, and/or lease/rent equipment based upon the disaster scenario. **DRC has the most expansive collection of rolling stock and equipment in the disaster services industry.** The company has 2,568 trucks and 1,657 pieces of support equipment, either owned or under agreement, available for immediate use. As part of the company's Corporate Mobilization Plan, a monthly inventory of available equipment is performed, recorded, and readily available. DRC has actively demonstrated the ability to quickly amass and mobilize significant quantities of equipment. **During the 2021 hurricane season, DRC operated more than 4,000 pieces of equipment simultaneously while responding to Hurricane Ida.**

Additionally, DRC has Master Service Agreements in place with national equipment suppliers, such as Herc, Sunbelt, Bottom Line, United, Caterpillar, William Scotsman, etc., to supplement our equipment needs.

DRC Emergency Services Asset List

Equipment Type	Description	Quantity
Bucket Trucks	Various Models with Booms	110
Chip Trailers	Various Models and Horsepower	14
Chip Vans	Receptacle Vehicles	2
Dump Trucks	Various Models with Dual and Tri Axles	353
End Dump Trailers	Various Models and Capacity	298
Flat Bed Semis	Various Models for Equipment Movement	6
Flat Beds	53' Equipment Trailers	20
Fuel Trucks	Multiple Model and Gallon Capacity	46
Low Boys	Equipment Movement Trailers	53
Pickups	Half and Three-Quarter Ton of Various Makes and Models	45
Roll Off Trucks	Primarily Galbreath 60,000-Pound Hoist on Various Makes	82
Rolls Off Containers	20, 30 and 40 Cubic Yard Containers	337
Self-Loaders	Various Makes with Buckets Ranging from 2-10 Cubic Yards	343
Semi Dumps	Various Makes and Models with Various Capacity	240
Semi Tractors	Various Makes	232
Service Trucks	Fully Stocked Road Ready Service Vehicles	79
Slingers	Various Models	5
Straight Trucks	Various Makes and Models	8
Sweepers	Various Models Used for DMS Operation	3
Tankers	Various Models	125
Tractor /Trailers Combos	Various Models	29
Tractors	Various Makes and Models	43
Trailers	25-Foot Travel Trailer	1
Utility Trailers	15 and 20-Foot Utility Trailers	2
Vacuum Trailer	Various Makes	30
Vacuum Trucks (Wet)	Various Makes	13

Walking Floors	48-Foot Automated Trailers	46
Water Trucks	Various Capacity Used for DMS Operation	3
Attachments - various	Buckets, Hoists, Slings, etc.	157
Back Hoes	Various Models and Capacity	40
Bobcats	Skid-Steer with Multiple Attachments	53
Bull Dozers	Various Makes and Sizes	45
Conveyors	Used for Material Movement	2
Crushers	Metal Compaction and Volume Reduction	24
Excavator	Various Makes and Models	164
Feller Buncher	Various Makes and Models Used for Clearing Projects	27
Front End Loaders	Various Makes, Models and Bucket Capacity	127
Generators	Various	41
Grinders	Horizontal and Tub Grinders	36
Jarraf Tree Trimmers	High-Capacity Trimming Equipment	3
Jersey Barriers	Used for Highway Projects and Within DMS	200
Light Plants	Various Used for Night Operation	100
Material Handlers (Tele Boom)	Loading Equipment	3
Mobile Kitchens	Various Models	13
Off Road Dumps	Volvo High Capacity	2
Pumps	Various Sizes	5
Safety Signs, Cones and PPE/arrow boards/message boards	Used for Highway Operations	503
skid steers	Various Sizes with Multiple Attachments	96
Screens	Shaker Screens and Sand Screens	4
Water Trucks	Various Models and Capacity	12

Total: 4225

Marine Vessels/Equipment

Equipment Type	Quantity
Inland Marine Harvester	1
Air Boat	3
Amphibious Aquatic Excavator	1
Tugboat	14
Underwater ROV	1
Utility Boat	1
Work Boat	15

Deck Barge	32
Deck Barge with 9' Bin Walls	2
Deck Barge with Spuds	7
Deck Barge with Steel Box Rails	19
Go Devil Boat	1
Total:	61

Joint Planning, Technical Training, and Educational Services

DRC Emergency Services, LLC can help local governments prepare for any contingency with confidence. DRC's Director of Technical Assistance and Training, Tony Furr, provides ongoing education to DRC's personnel and the jurisdictions we serve. He has delivered the Debris Management training at the National Hurricane Conference, the Texas Emergency Managers Conference, and the Oklahoma Emergency Managers Conference, and he presided over the roundtable workshops hosted by the Disaster Recovery Contractors Association (DRCA) in FEMA Region VI.

DRC's staff is highly trained to aid local governments with comprehensive planning and support. **We are committed to helping our clients understand the principles of Emergency Management** and have had overwhelming success providing training programs and pre-event planning workshops.

Mr. Furr and our Key Personnel are always available to provide the Town of Southwest Ranches with planning and training exercises. DRC will provide regular planning, training, and feedback sessions throughout the length of the Town's contract at no extra cost. Typical workshops include one or more of the following topics:

- 🌐 Pre-Season Debris/Response Readiness Workshop
- 🌐 Scenario Based Tabletop Exercise
- 🌐 Debris Management Seminar
- 🌐 Debris Readiness Exercise
- 🌐 Discussion Based Debris Management Exercise
- 🌐 Disaster Debris Awareness Exercise

When requested, DRC can offer a "Regional Debris Readiness Workshop" for smaller jurisdictions by inviting neighboring communities to a combined training session.

Benefits of planning and training sessions include the following:

- 🌐 Providing an opportunity to build relationships between both parties
- 🌐 Delivering invaluable operational and administrative information to all stakeholders
- 🌐 Discussing forecasting and reviewing the debris management plan

"I have been city manager for over 50 years. DRC is the best Hurricane contractor I have had the opportunity to work with."

- Samuel Kissinger, City Manager, Indian Creek Village, FL

Identifying Equipment Staging Areas

Determining equipment staging areas ahead of time allows DRC to seamlessly mobilize resources in advance of a disaster, whenever possible. In all cases, it saves time in the response. While discussing potential plots to stage equipment, the following should be considered:

- 🌐 Staging away from residential areas
- 🌐 Easy access from main rights-of-way
- 🌐 Sufficient acreage to manage a large number of vehicles
- 🌐 Fencing around the facility is preferable

TDMS Site Selection

DRC will discuss potential TDMS sites with the Town of Southwest Ranches during the planning phase. Important criteria will include the following:

- 🌐 Public versus private land considerations
- 🌐 Environmental agency approvals
- 🌐 Dust and fire mitigation
- 🌐 Ingress and egress considerations
- 🌐 Security features
- 🌐 Storm water control considerations
- 🌐 Elevation
- 🌐 Sound buffers and fencing

Identifying Permanent Disposal, Transfer, and Recycling Facilities

DRC has agreements in place with most major disposal and recycling facilities in the area. DRC's management will be responsible for working with the jurisdiction to identify these facilities and to secure favorable terms and conditions with each facility. Additionally, DRC's staff includes Steve Crawford, an expert in recycling, resource recovery, and disposal. With 25 years of experience, Crawford brings expertise and exceptional knowledge to every project.

Establishing Emergency Push Routes & Collection Grids

Creating a plan to map emergency push routes and collection grids before disaster strikes will save time in the days afterward. Exact routes will vary based on which areas sustain the most damage, but they should always include the following:

- 🌐 Hospitals
- 🌐 Police departments
- 🌐 Emergency shelters
- 🌐 Nursing homes
- 🌐 Major traffic routes

Forecasting

DRC will incorporate the Town of Southwest Ranches's debris management plan and use the USACE model to predict project debris volumes, storage acreage needed, equipment, and manpower needed for the project.

The following scenarios are for discussion and demonstration only. Type, category, and intensity of the event determine the number of trucks and personnel required. Each activation presents unique circumstances which require a tailored response.

Forecasting Scenarios

Event Type 1

SPOT JOBS: Localized

NUMBER OF TDMS SITES: 1

LOCATION OF TDMS SITE: TBD

SIZE OF TDMS SITE: 1 acre or more

TYPE OF HAULING EQUIPMENT: Knuckle boom self-loading trucks, dump trucks/trailers

TOTAL EXPECTED CUBIC YARDS OF DEBRIS: Less than 10,000 cubic yards

PERSONNEL REQUIRED: Project Manager, two foreman, TDMS site manager, staff of 3-5 per TDMS site and full back-office staff

SCHEDULING AND ROUTING: DRC will provide one or more crews consisting of a chainsaw crew, skid steer, flaggers, and self-loading knuckle boom trucks. The crews would be supervised by a Project Manager and two foremen.

Debris will be hauled to a TDMS site where it will be reduced by compaction, grinding or incineration. It will then be transferred for recycling or disposal.

Daily reports will be provided by DRC outlining the amount of debris, the types of debris and the zones the debris was collected.

Event Type 2

SMALL EVENT: Widespread or Town wide

NUMBER OF TDMS SITES: 1

LOCATION OF TDMS SITE: TBD

SIZE OF TDMS SITE: 5 acres or more

TYPE OF HAULING EQUIPMENT: Knuckle boom self-loading trucks, dump trucks/trailers

TOTAL EXPECTED CUBIC YARDS OF DEBRIS: Up to 30,000 cubic yards

PERSONNEL REQUIRED: Project Manager, Superintendent, 1 foreman, TDMS site manager, staff of 3-5 per TDMS site and full back-office staff

SCHEDULING AND ROUTING: DRC will provide four or more crews consisting of chainsaw crew, skid steer, flaggers and self-loading knuckle boom trucks. The crews would be supervised by a Project Manager, Superintendent and Foreman.

Debris will be hauled to a TDMS site where it will be reduced by compaction, grinding or incineration. It will then be transferred for recycling or disposal.

Daily reports will be provided by DRC outlining the amount of debris, the types of debris and the zones the debris was collected.

Event Type 3

SIGNIFICANT EVENT: Removal, Reduction, Hauling- Woody debris only- Widespread or Town wide

NUMBER OF TDMS SITES: 3

LOCATION OF TDMS SITE: TBD

SIZE OF TDMS SITE: 7-20 acres

TYPE OF HAULING EQUIPMENT: Knuckle boom self-loading trucks, dump trucks/trailers

TOTAL EXPECTED CUBIC YARDS OF DEBRIS: Up to 400,000 cubic yards

PERSONNEL REQUIRED: Project Manager, Superintendent, 3 foreman, TDMS site manager, staff of 5-7 per TDMS site and full back-office staff
SCHEDULING AND ROUTING: DRC will provide four or more crews consisting of chainsaw crew, skid steer, flaggers and self-loading knuckle boom trucks. Approximately 10 crews with 50 trucks. Each crew would consist of a lead and be supervised by a Project Manager, Superintendent and three Foreman.

Debris will be hauled to a TDMS site where it will be reduced by compaction, grinding or incineration. It will then be transferred for recycling or disposal.

Daily reports will be provided by DRC outlining the amount of debris, the types of debris and the zones the debris was collected.

Event Type 4

SIGNIFICANT EVENT: Removal, Reduction, Hauling and Separating - Mixed debris -Widespread or Town wide

NUMBER OF TDMS SITES: 3-5

LOCATION OF TDMS SITE: TBD

SIZE OF TDMS SITE: 7-20 acres

TYPE OF HAULING EQUIPMENT: Knuckle boom self-loading trucks, dump trucks/trailers

TOTAL EXPECTED CUBIC YARDS OF DEBRIS: Up to 800,000 cubic yards

PERSONNEL REQUIRED: Project Manager, Superintendent, 5 foreman, TDMS site manager, staff of 7-10 per TDMS site and full back-office staff

SCHEDULING AND ROUTING: DRC will provide four or more crews consisting of chainsaw crew, skid steer, flaggers and self-loading knuckle boom trucks. Approximately 15 crews with 70 trucks. Each crew would consist of a lead and be supervised by a Project Manager, Superintendent and five Foreman.

Debris will be hauled to a TDMS site where it will be reduced by compaction, grinding or incineration. It will then be transferred for recycling or disposal.

Daily reports will be provided by DRC outlining the amount of debris, the types of debris and the zones the debris was collected.

Event Type 5

CATASTROPHIC EVENT: Removal, Reduction, Hauling and Separating - Mixed debris - Town wide

NUMBER OF TDMS SITES: 4-6

LOCATION OF TDMS SITE: TBD

SIZE OF TDMS SITE: 7-20 acres

TYPE OF HAULING EQUIPMENT: Knuckle boom self-loading trucks, dump trucks/trailers

TOTAL EXPECTED CUBIC YARDS OF DEBRIS: Up to 1,500,000 cubic yards

PERSONNEL REQUIRED: Project Manager, Superintendent, 10 foreman, TDMS site manager, staff of 10-15 per TDMS site and full back-office staff

SCHEDULING AND ROUTING: DRC will provide four or more crews consisting of chainsaw crew, skid steer, flaggers and self-loading knuckle boom trucks. Approximately 15 crews with 70 trucks. Each crew would consist of a lead and be supervised by a Project Manager, Superintendent and five Foreman.

Debris will be hauled to a TDMS site where it will be reduced by compaction, grinding or incineration. It will then be transferred for recycling or disposal.

Daily reports will be provided by DRC outlining the amount of debris, the types of debris and the zones the debris was collected.

Event Type 6

CATASTROPHIC EVENT: Site Management -Town wide

NUMBER OF TDMS SITES: 4-6

LOCATION OF TDMS SITE: TBD

SIZE OF TDMS SITE: 7-20+ acres

TYPE OF EQUIPMENT: 1 Grinder or air current incinerators, 2 excavators, 1 dozer, 1 large wheel loader with rake, 1 large wheel loader with bucket, 1 water truck, 1 inspection tower and all applicable safety equipment.

TOTAL EXPECTED CUBIC YARDS OF DEBRIS: 1,000,000 + cubic yards

Personnel required- Project Manager, Superintendent, 2 foreman, 4-6 TDMS site managers, staff of 10-15 per TDMS site and full back-office staff

ACCEPTING AND MANAGING DEBRIS: After passing through the inspection process, DRC personnel will direct the material to the appropriate offloading area and inspect the debris as it is unloaded. Any loads that are contaminated with non-vegetative debris will be immediately segregated and placed in the designated area. Reduction will be performed either by grinding or air curtain burning. Wheel loaders and excavators will load material into the chosen method and the chips or ash will be staged for removal. All efforts will be made to recycle or reuse the materials as a means of final disposal. Outlets such as soil improvements, composting facilities, energy pellet producers and paper mills all create viable options.

Site closure will occur 30-45 from receipt of last load and will include removal of all debris, site cleanup and any repairs needed to return the property to pre-storm or better condition.

Daily reports will be provided by DRC outlining the amount of debris, the types of debris and the zones the debris was collected.

RESPOND

- Alert Phase
- Response Timeline
- Preliminary Damage Assessments
- Emergency Push Operations
- Loading and Hauling Operations
- Temporary Debris Management Site Operations
- Compliance
- Safety
- Prompt Damage Resolution
- Documentation and Data Management
- Communication and In-Field Technology
- Client Interaction Program
- Post Event Evaluations
- Sustainability

Alert Phase

If a potential disaster can be predicted, DRC will activate the following alert phases:

- 🌐 72 hours before impending impact, Evan Fancher will contact the Town of Southwest Ranches to discuss activation and response
- 🌐 At the discretion of the Town, DRC will mobilize personnel to arrive at the Emergency Operations Center within 24 hours after the 36-hour hurricane warning is issued
- 🌐 DRC will identify and assess the readiness of our network of subcontractors for Emergency Push and Load and Haul Operations
- 🌐 Our team will pre-stage equipment and personnel as needed to respond to the immediate aftermath of the event
- 🌐 DRC will map Emergency Push Collection routes, if these have not been determined in the planning phase

Post-Disaster Impact Response Timeline

Upon receipt of Notice to Proceed or Task Order, DRC will immediately commence mobilization of equipment, operators, and laborers.

DRC has the capacity to meet, sustain, and manage all facets of disaster response, including responding within 24 hours. DRC proposes the following time frames for immediate disaster response:

Within 24 Hours After Notice to Proceed

- 🌐 Project Manager and support staff are in place and interacting with the Town of Southwest Ranches's Point of Contact
- 🌐 Staging and certification of equipment is underway
- 🌐 Permitting and mobilization of TDMS sites has begun
- 🌐 Emergency Push activities are well underway, in coordination with utility providers
- 🌐 Initial Damage Assessment is complete
- 🌐 Public Service Announcements are initiated
- 🌐 Logistical Support requirements have been assessed
- 🌐 Initial Safety Meeting takes place
- 🌐 Time and location of daily productivity meetings is established

Within 36 Hours After Notice to Proceed

- 🌐 At least one TDMS is operational, so that load and haul activities can begin

Within 48 Hours After Notice to Proceed

- 🌐 Initial understanding of crew type and quantity has been established with the Town's Point of Contact
- 🌐 Roughly 50 percent of required equipment and manpower are in place
- 🌐 DRC has initiated discussions with final disposal and recycling/composting providers (if applicable)
- 🌐 Mapping of Collection Zones has been finalized in consultation with the Town's Point of Contact
- 🌐 Truck certifying continues
- 🌐 Daily productivity meetings continue between DRC, the Town's Point of Contact, and the Monitoring Firm assigned to the project
- 🌐 Daily Safety Meetings continue

Within 96 Hours After Notice to Proceed

- 🌐 Full Mobilization is complete
- 🌐 Emergency Push complete (if applicable)
- 🌐 All contractual requirements (bonds, safety plans, dust control, community outreach, etc.) are submitted
- 🌐 Productivity assessments are made based upon existing travel times and TDMS requirements adjusted
- 🌐 Equipment and personnel needs are reassessed
- 🌐 Additional local and equal opportunity vendor outreach has begun and those applicants vetted
- 🌐 Daily productivity meetings continue between DRC, the Town's Point of Contact, and the Monitoring Firm assigned to the project
- 🌐 Daily Safety Meetings continue

Preliminary Damage Assessments

Within 24 hours of an incident, DRC and local, state, and federal officials will have completed preliminary damage assessments to indicate the scope of losses and recovery needs. Through the debris assessment, DRC will accomplish the following:

-  Estimate the quantity and mix of debris
-  Estimate damage costs
-  Determine impact on critical facilities
-  Identify impact on residential and commercial areas

Emergency Road Clearance/Push Operations

In an emergency push operation, debris is “pushed” or cleared from the public roadways in an order of priority established by the Town of Southwest Ranches. DRC’s goal in a push operation is to make roadways and intersections as safe as possible by increasing visibility and minimizing traffic obstructions. Push routes are predetermined with the help of Town personnel, who have a clear understanding of the geography of the community.

Push crews consist of four to five personnel with supervision, chainsaws, and equipment capable of moving heavy material, such as skid steers, front end loaders, etc. This phase of work is usually accomplished within one to five days after the event, depending on the scale of the disaster. For safety reasons, debris is collected only during daylight hours.

Loading and Hauling Operations

Certification of Equipment

DRC will begin the certification of equipment as soon as possible, generally within 12 to 24 hours after a Notice to Proceed is issued. Trucks will be staged at a location where the Town’s third-party monitoring firm can measure load capacity and assign unique identification to each piece of loading and hauling equipment.

Public Relations

In the midst of chaos brought on by a disaster, clear communication about the recovery process helps to restore a sense of safety to communities. Providing the public with guidance regarding the material collection and separation process will also significantly enhance the efficiency of the operation.

To ensure effective communication with the public about debris collection operations and timelines, DRC will coordinate with the Town on creating a communications plan, including disseminating Public Service Announcements (PSAs) and flyers. These PSAs and flyers will be shared on various platforms including Town websites, local radio and television news outlets, and social media channels. Please see the example flyer below that defines and illustrates material separation for residents:

St. Charles Parish President Matthew Jewell meets with Louisiana Gov. John Bel Edwards and state delegates to discuss the impact of the tornado in Killona and Montz in 2022.

PICKING UP THE PIECES

Following these specific guidelines when hauling hurricane-related debris and household garbage to the curb will make for a speedier removal process

✓ CORRECT WAY

Homeowners and businesses are being asked to separate debris into the following categories:

1 HOUSEHOLD GARBAGE

- ▶ Bagged trash
- ▶ Discarded food
- ▶ Packaging, papers
- ▶ All garbage should be placed curbside the night before the scheduled weekly pickup.

2 CONSTRUCTION DEBRIS

- ▶ Building materials
- ▶ Drywall
- ▶ Lumber
- ▶ Carpet
- ▶ Furniture
- ▶ Mattresses
- ▶ Plumbing

3 VEGETATION DEBRIS

- ▶ Tree branches
- ▶ Leaves
- ▶ Logs

4 HOUSEHOLD HAZARDOUS WASTE

- ▶ Oils
- ▶ Batteries
- ▶ Pesticides
- ▶ Paints
- ▶ Cleaning supplies
- ▶ Compressed gas

5 'WHITE' GOODS

- ▶ Refrigerators
- ▶ Washers, dryers
- ▶ Freezers
- ▶ Air conditioners
- ▶ Stoves
- ▶ Water heaters
- ▶ Dishwashers

6 ELECTRONICS

- ▶ Televisions
- ▶ Computers
- ▶ Radios
- ▶ Stereos
- ▶ DVD players
- ▶ Telephones

✗ WRONG WAY

CROSSING THE LINE

▶ Any debris placed from the sidewalk toward your property will not be picked up. Contractors cannot collect items on private property.

PROPPING UP

▶ Do not set debris against trees or poles. Doing so makes it harder for cleanup crews to scoop up the items.

HELPFUL HINTS

- A** Limit curbside garbage to two 32-gallon containers or eight trash bags
- B** Share piles with neighbors
- C** Refrigerator and freezer doors must be secured with duct tape

Sources: Army Corps of Engineers, debris removal contractors
STAFF GRAPHIC BY DAN SWENSON

Multiple Scheduled Passes

In order to allow citizens to return to their properties and bring debris to the right-of-way as recovery progresses, DRC adheres to FEMA's guideline of three scheduled collections or passes. In rare cases, particularly following major flooding, additional collections may be warranted.

Field Operations

Within 24 to 36 hours of a Notice to Proceed (or a reasonable amount of time agreed upon by the Town), DRC will commence debris removal operations with multiple Debris Removal Crews. Debris Removal Crews will generally consist of three to five hauling vehicles of 30 to 150 cubic yard capacity with operators, one front end loader with operator, one foreman, and three laborers/flagmen (when required by traffic conditions). In other instances where conditions allow, self-loading equipment of similar capacity will be utilized to maximize efficiency.

All debris removal operators will be given area maps designating assignment/authorized areas or zones of operation as well as transport routes designated and/or approved by the Town. Field supervisors shall ensure that all debris removal operators are licensed and certified to operate the required equipment. As crews complete zones, the areas will be jointly surveyed by DRC and the Town of Southwest Ranches and closed out.

Public and Private Property Debris Removal

DRC's Debris Removal Crews will remove all eligible debris from the right-of-way and haul it to a designated Temporary Debris Management Site and/or directly to a final disposal site. At the request of the Town of Southwest Ranches, DRC will also demolish structures and/or remove debris from public easements, improved public property, and public properties other than rights-of-way.

Eligible debris is that which has been generated directly by the event or as a result of the event. For debris on private property to be eligible, Private Property Debris Removal must be authorized.

This illustration depicts a typical post-disaster scenario that involves construction and demolition debris (C&D). In this case, the public has been advised through PSAs and a flyer such as the above to place disaster generated debris in the right-of-way (ROW) in separate piles organized by debris type for separate collections.

FEMA may extend public assistance to include private property debris removal when it poses a threat to the public. Under the request and direction of the Town of Southwest Ranches or its representative, DRC will initiate and manage a Right of Entry (ROE) program to remove debris on private property and/or demolish private structures that are a public safety hazard. The property owner must grant access prior to any work, unless there is an immediate threat to the lives, health, and safety of the Town's residents.

Clean As You Go Policy

DRC will implement a "clean as you go" policy to ensure all debris is cleared from the loading site before moving to the next loading site.

Vegetative Debris

Vegetative debris is defined as tree branches, leaves, logs, timber, and stumps.

DRC's crews can collect vegetative debris using a wide spectrum of equipment. To increase efficiency, DRC will often combine the removal of hazardous trees, including "leaners" (leaning trees) and "hangers" (hanging limbs), with the collection of other vegetative debris.

Once collected, vegetative debris will be transported to a Temporary Debris Management Site for processing. There are two main ways of reducing vegetative debris to conserve valuable landfill space:

- 🌐 Reduction by **grinding** creates mulch, a valuable resource which can be used in landscaping, by farms as compost, or distributed to households for use in gardens; or it can be burned as a fuel source
- 🌐 Reduction by **burning** provides for the most cost-effective processing, in areas where burning is an option

Hazardous Tree and Limb Removal

A tree is considered hazardous if its condition was caused by the disaster and it poses a risk to public health and safety. If possible, leaner and hanger removal will be performed in advance of load and haul activity so that these trees and limbs can be collected simultaneously with ROW debris. Crews may include climbers with chainsaws, as well as bucket trucks, automated saw trucks, and excavators.

FEMA uses the following criteria to define whether a leaner or hanger is hazardous. These criteria will be used by the Town of Southwest Ranches's independent monitoring firm to determine the eligibility of each tree to be removed:

- 🌐 The tree trunk must be six inches in diameter or greater when measured at chest height
- 🌐 More than 50% of the crown is damaged or destroyed
- 🌐 The trunk is split or branches broken, exposing the heartwood
- 🌐 The tree has fallen or been uprooted within a public use area
- 🌐 The trunk is leaning at an angle greater than 30 degrees
- 🌐 Hanging limbs must be at least 2 inches in diameter and pose a threat of falling into an improved public area or right-of-way

Removal of Hazardous Stumps

Stump removal usually takes place late in the debris removal process. The Town's monitor will generally determine the eligibility of stumps for removal. A stump may be determined to be hazardous and eligible for Public Assistance grant funding as a per-unit cost for stump removal if it meets all the following criteria:

- 🌐 50% or more of the root ball is exposed (if less than 50% of the root ball is exposed, it may be flush cut)
- 🌐 The stump's diameter is greater than 24 inches, as measured 24 inches above the ground
- 🌐 The stump is located on improved public property or a public right-of-way
- 🌐 The stump poses an immediate threat to life, public health and safety

Crews will use excavators to extract larger stumps, then load them onto flatbed trailers for transport to the TDMS or final disposal facility, where they will be ground into mulch. Most often, large stumps must be split prior to grinding, whereas smaller stumps can be ground directly. After removing larger stumps, DRC will fill the hole to ground level.

- Following Hurricane Ida in 2021, DRC collected and disposed of over **12,200,000 cubic yards** of vegetative debris.
- While working on the recovery in Florida Department of Transportation Regions 2 and 3 after Hurricane Michael, DRC collected over **2,660,000 cubic yards** of vegetative debris, including **17,169 hazardous trees**.
- During the same storm in Jackson County, Florida, DRC collected over **2,445,000 cubic yards** of vegetative debris, including **32,290 hazardous trees**.

- While working on the recovery in Puerto Rico after the effects of Hurricane Maria, DRC collected **96,835 hazardous trees** from the island as a part of a **\$78 million contract**.
- For the City of Fort Lauderdale in response to Hurricane Irma in 2017, DRC removed over **12,500 hazardous stumps and trees**.
- In response to Ice Storm Pax in 2014, The South Carolina Department of Transportation contracted DRC to cut, remove and transport vegetative debris in eight counties, totaling over **12,000 miles of roadway clearing** and the trimming of over **225,000 trees**.

Construction and Demolition (C&D) Debris

Construction and Demolition (C&D) Debris consists of building materials, drywall, lumber, carpet, furniture, mattresses, and plumbing. C&D Debris is produced most often by floods, tidal surge, and earthquakes.

When collecting C&D Debris, DRC carefully considers local and state restrictions on landfill material acceptance. Using a TDMS provides an opportunity for reduction by material separation and compaction. Additionally, some building materials may be salvageable for reuse, if local facilities are in place. Transportation directly to the final disposal site does not allow for reduction; however, in some cases it may be more efficient.

A wide variety of equipment can be used to collect C&D Debris, including self-loaders.

- Following Hurricane Ida in 2021, DRC collected and disposed of over **4,500,000 cubic yards** of C&D debris.
- In the States of North Carolina and Florida during Hurricanes Michael and Florence—which occurred simultaneously—DRC removed approximately **635,000 cubic yards of C&D**.
- DRC's response to severe flooding in the City-Parish of East Baton Rouge, Louisiana, in 2016 required the use of more than 300 hauling vehicles in the collection, processing, and/or recycling of over **1.2 million cubic yards of C&D debris**.

White Goods

“White goods” are appliances, including refrigerators, washers, dryers, freezers, air conditioners, stoves, water heaters, and dishwashers.

DRC will collect white goods separately, often using light duty trucks and trailers with a liftgate. We will then transport them to a designated area at a TDMS or directly to a recycler. Any profits from recycling will be returned to the Town unless otherwise stipulated in the contract.

The public will have been informed by DRC's public relations campaign to remove all contents from refrigerators and freezers prior to collection or to duct tape the doors shut to facilitate safety and ease of collection. Refrigerators and freezers collected with contents shall be staged for content removal and disposal. Freon shall be removed by a certified technician under the guidance of EPA regulations.

- In response to Hurricane Ian in 2022, DRC removed and recycled/disposed of **3,628 appliances** in South Florida. This work included the removal of **892 appliances from waterways**.

- After Hurricane Harvey in 2017, DRC removed and recycled/disposed of **4,227 appliances** in the Houston area.
- The Baton Rouge area experienced historic flooding in 2016. DRC removed and recycled/disposed of **more than 10,000 appliances** as part of a **\$45 million contract**.

Household Hazardous Waste

Household Hazardous Waste (HHW) consists of oils, batteries, pesticides, paint, cleaning supplies, and compressed gas.

HHW is collected separately from other types of debris and securely placed in spill-proof containers for transportation to staging at a TDMS or direct transport to a qualified recycler or disposal facility. When stored at a TDMS, the area is generally protected with lining or berms, or both, depending upon the requirements of the state environmental agency. When materials are recycled, the recycler will often collect the items from the TDMS, pack them appropriately, and transport them to the recycling facility.

- In our response to Hurricane Ian in South Florida in 2022, DRC removed and disposed of **698,889 cubic yards of household hazardous waste**.
- In Pender County, North Carolina, after Hurricane Florence in 2018, DRC collected **28,130 pounds of household hazardous waste** as a part of a **\$10 million contract**.
- DRC removed and disposed of **55,486 cubic yards of household hazardous waste** in the Houston area following Hurricane Harvey in 2017.
- After the severe flooding of the City-Parish of East Baton Rouge, Louisiana in 2016, DRC removed and disposed of **554,880 cubic yards of household hazardous waste**.

Electronic Waste Collection (E-Waste)

E-Waste debris includes televisions, computers, radios, stereos, DVD players, telephones, etc.

DRC will make one or two separate passes to collect e-waste, depending on the severity of the disaster. General laborers, along with a supervisor, will collect the items using light duty trucks and trailers, then transport them either to a specific area of the TDMS or directly to a recycler.

- After Hurricane Florence, DRC removed **2,786 e-waste units** in Pender County alone; the total number of units DRC collected in response to Hurricane Florence was **3,116**.
- After 2017's Hurricane Harvey, DRC removed **9,268 e-waste units** in the Houston area.
- DRC removed **18,908 e-waste units** in response to the 2016 Baton Rouge floods.

Tires

Following flood events or tidal surge, debris removal crews often find tires in debris piles on the public ROW. Tires create a special problem for landfill operators, as they tend to rise or float and can ultimately damage the landfill cap. Therefore, DRC's debris removal crews will separate tires from other debris.

Tires can be easily collected using light duty equipment. Ideally, we will transport them directly to the recycler or shredder. Federal and state regulations often require a waste hauler permit to transport tires.

Canal/Waterway Debris Removal

Canal debris removal is most often performed under the oversight of state environmental regulators, especially in environmentally sensitive areas. Environmental factors always take priority when developing an operations plan. Debris removal may be land-based or water-based. Collection methods vary widely due to physical dynamics, environmental considerations, regulations, and scope of work.

Targets can be identified by side-scan sonar or below surface observation. Target removal may span from the water bottom to surface debris, or it may be limited to designated depths.

When appropriate, debris can be collected with grapples mounted on barges of varying sizes or even small boats. Land-based operations consist of removal of targets with long reach excavators equipped with a spoils or dredge bucket.

Temporary Offloading Sites can be used to stage debris prior to transport to a TDMS for processing or to final disposal. When abundant access points exist, loading can occur directly into trucks for transport to processing or disposal.

- DRC is currently contracted by the City of Houston for a multi-phase waterway debris removal project and has removed **1.5 million cubic yards** of debris from Houston waterways to date.
- In response to Hurricane Ida in 2021, DRC collected and disposed of over **428,000 cubic yards** of debris from canals and waterways across 5 jurisdictions.

Vehicle and Vessel Removal

DRC has extensive experience performing large scale vehicle and vessel removal and recovery projects. A single project for the State of Louisiana following Hurricanes Katrina and Rita involved the recovery and management of thousands of vehicles and vessels.

Operating procedures for vehicle and vessel removal projects vary from state to state due to legal requirements. The scope of work is always developed in consultation with the jurisdiction.

To begin a vehicle and/or vessel removal project, DRC will activate one or more aggregation sites for storage, processing, recordation, and access. Arranging the vehicles in a grid pattern allows for easiest access.

For a land-based recovery, DRC will tag and record vehicles and vessels prior to removal. For a water-based recovery, we will locate and record the vessels prior to removal.

At the aggregation site(s), DRC or a properly trained and licensed subcontractor will remove fluids from the vehicles and vessels. DRC will send an initial notification to the vehicle's owner, as determined by VIN information gathered in the field using the State Police database,

according to local and state regulations. Additional notifications may be sent using certified mail, if required by law. DRC will also allow private insurance companies to access the vehicles for viewing.

Salvaged vessels and vehicles may be retrieved by either owners or insurance companies. Those that are not retrieved after ample notification will be crushed and recycled. Any proceeds from recycling will be returned to the Town unless otherwise stipulated in the contract.

- DRC's recent experience in the removal of sunken vessels includes the Louisiana Parishes of Jefferson, Terrebonne, and East Baton Rouge. In the City-Parish of East Baton Rouge, our annual channel clearing project for 2022 totaled **\$11,029,963**.
- After Hurricane Ike struck Texas in 2009, DRC removed sunken vessels and debris from four major bays and waterways in the affected area. We used side scan sonar to identify targets in advance and in combination with a well-designed implementation plan. DRC removed a total of **2,100,000 cubic yards of vessels and debris**, and the complete marine operation was concluded in just over 30 days.

Sand Screening, Soil Recovery, and Beach Restoration

DRC's innovative methods for the handling and screening of sand have allowed many jurisdictions to bring back their beaches, better—even after powerful storm surges from record-breaking events including Hurricanes Helene, Milton, Ida, Florence, Irma, and Ike.

After disaster strikes, many jurisdictions are faced with large quantities of sand that have washed up on the roadways, as well as on public and private property. DRC will collect the sand and move it to a nearby Temporary Debris Management Site for processing. Sand that remains on the beach often contains large quantities of debris. We will process this sand directly on the beach before restoring the sand removed and processed from other areas.

DRC uses a variety of equipment in sand and soil processing, including the following:

- 🌐 **Skid steers and front-end loaders** to recover displaced material from adjacent properties
- 🌐 **Beach rakes** to remove hidden and surface debris from beachfronts
- 🌐 **Shaker screens and trammels** to screen sand and soils

DRC's teams are able to process 100 to 200 cubic yards of sand per hour. After screening, the clean material is returned to its original location. Beach contours and dunes can then be re-created. The debris that has been removed will be taken to a TDMS for reduction and haul-out to final disposal.

Hurricane Irma Beach Clean-Up and Restoration

➤ In Jefferson Parish, Louisiana, after Hurricane Ida in 2021, DRC recovered, screened, and restored **92,432 cubic yards of sand**. Additionally, DRC segregated and disposed of **36,500 cubic yards of silt and soil**.

➤ For the City of Fort Lauderdale following Hurricane Irma in 2017, DRC recovered more than **57,500 cubic yards** of sand from roadways, sidewalks, and parking lots. We then screened the sand and restored the beauty of these Florida beaches.

➤ In response to Hurricane Florence in 2018, DRC removed and screened **38,336 cubic yards of sand** to restore beaches in North Carolina.

“DRC’s Project Manager arrived in Wilmington the day before the event, so he was in place to immediately assess damage and start the process to order the manpower and equipment needed to start the cleanup effort. He was here before a notice to proceed was sent.”

— David Bundick, Superintendent of Solid Waste, City of Wilmington

Emergency Berm Construction

DRC will construct berms on an as needed basis, under the direction of the Town. We have constructed berms in Dauphin Island, Alabama, in response to Hurricanes Zeta, Sally, and Ida, and Tropical Storm Claudette. These berms were constructed out of sand; however, additional methods may be employed, depending on the situation. For example, in coastal areas, geo tubes may be used.

Expertise in the Removal of Dead Animals

Improper disposal of animal carcasses can contaminate drinking water sources or spread disease. It is DRC’s policy to handle and dispose of animal remains with care and in accordance with all state and local regulations.

All carcasses should be disposed of as soon as possible. There are several approved methods for the disposal of animal carcasses:

- 🌐 **Incineration** at a secure and pre-approved site.
 - 🌐 **Deposition** in a contained landfill approved for remains disposal.
 - 🌐 **Composting**, with approval, is a sanitary and practical method of carcass disposal.
-
- DRC led the Red Tide Fish Kill cleanup project in Pinellas County in 2018, collecting over **1,800 tons of dead fish** in a three-month span while also cleaning and maintaining **45 miles of coastline**. The **total contract amount was \$6,895,562**.
 - After the severe flooding in the Baton Rouge area in 2016, DRC removed and disposed of dead animals as needed as part of a **\$45,000,000 contract** with the City.
 - For the City of Galveston following Hurricane Ike in 2008, DRC removed and disposed of dead animals as needed as part of a **\$38,007,492 contract** with the City.

Protection of Archaeological Sites and Human Remains

If in the process of debris removal DRC discovers evidence of a possible archaeological site, we will immediately cease work and contact FEMA. A qualified monitor may be required. If human remains are found, DRC will contact local authorities.

Private Property Debris Removal and Demolition

DRC has extensive experience in removing all kinds of debris from private property after every type of disaster. Upon the request of the Town of Southwest Ranches, DRC will remove debris from private properties as directed. Depending on the severity of the event, and with proper documentation in place, FEMA reimbursement may be available.

The FEMA Private Property Debris Removal Program plays a crucial role in facilitating the cleanup and recovery process for individuals and families affected by natural disasters. Here's a breakdown of key aspects of the program:

Eligibility Criteria: The program is designed to assist property owners whose residences or businesses have been damaged or destroyed by a federally declared disaster, providing financial assistance for the removal of debris from their private properties.

Types of Debris Covered: Eligible debris includes vegetative debris and construction and demolition materials resulting directly from the disaster event, such as fallen trees, damaged structures, and household belongings.

Documentation Requirements: Property owners must submit thorough documentation, including photographs, damage assessments, and estimates for debris removal costs, to support their eligibility for assistance under the program.

Environmental Considerations: Debris removal activities must adhere to environmental regulations and guidelines to minimize ecological impact and ensure safe disposal of hazardous materials, such as asbestos or household chemicals.

Reimbursement Process: Upon completion of debris removal operations, property owners or their contractors submit documentation of incurred expenses to FEMA for reimbursement, subject to verification and approval.

Community Outreach and Education: FEMA conducts outreach and education initiatives to inform property owners about the program, eligibility requirements, and available resources to facilitate their participation and ensure equitable access to assistance.

The FEMA Private Property Debris Removal Program serves as a vital resource for individuals and communities navigating the challenges of post-disaster recovery, offering financial support and logistical assistance to expedite the cleanup process and facilitate the rebuilding of homes and businesses.

Policy Update

Pre-approval from FEMA is not required for the Applicant to begin PPDR work (including on privately owned residential and commercial property); however, for the Applicant to receive PA funding, FEMA must determine that the work is eligible. The Applicant must notify FEMA that PPDR is being conducted and the type of property on which the PPDR is being conducted (e.g., privately-owned residential or commercial property) so FEMA can ensure notifications to the necessary FEMA components and federal partners.

- FEMA Memorandum, dated October 17, 2022

Experience in Private Property Debris Removal and Demolition

For decades, DRC has provided structural and strategic demolition services on both public and private property in a safe, environmentally responsible manner. DRC's number one priority is to eliminate the immediate threat to public health and safety that damaged and abandoned structures may cause. DRC works closely with federal, state, and local entities to ensure compliance with environmental guidelines.

Demolition is an integral part of any community's recovery from a major disaster, and DRC has a long and wide-ranging history of successfully managing numerous Right-of-Entry Programs in accordance with FEMA guidelines. Since its inception, DRC has performed private property debris removal and demolitions following wildfires in California, Colorado, Hawaii, New Mexico, and Washington State; tornadoes in Alabama and Kentucky (as the ACI contractor for the United States Army Corps of Engineers for Region 3); as well as Hurricanes Katrina, Gustav, Michael, Laura, Ida, and Ian.

DRC has performed 11,782 strategic demolitions for the City of New Orleans to stimulate economic recovery. DRC has also demolished thousands of blighted properties in Washington, Jefferson, and Terrebonne Parishes and the City of Lake Charles, Louisiana following multiple hurricanes. The FEMA demolition, Selective Salvage demolition and Strategic Demolition projects, which have been in effect since 2007, are responsible for the elimination of more than 2,000 blighted properties.

Temporary Debris Management Site Operations

Permitting and Site Mobilization

Within 24 hours of notice to proceed, DRC will begin mobilization to pre-established TDMS locations. DRC will determine the number of TDMS sites based on estimated volumes, travel times, traffic patterns, and materials to be processed. Once operational, a TDMS should facilitate a minimum of five loads per truck per day.

If applicable, DRC will promptly execute Land Use Agreements with any private landowners. For any sites not already permitted, Kristy Fuentes, DRC's Vice President of Administration and Compliance, will submit a permitting request.

Prior to use, DRC will perform an environmental audit of each site. This audit will involve documenting the site using historical records and data; taking photos and video, possibly using drones; and taking soil samples. Depending on state regulations, other steps may be required, such as creating a Stormwater Pollution Prevention Plan (SWPPP), perimeter silt fencing, or air monitoring.

Site Setup and Maintenance

Access and traffic flow –DRC will establish separate points of ingress and egress to improve traffic flow and operational efficiency. Truck routes will be mapped to avoid driving through residential areas.

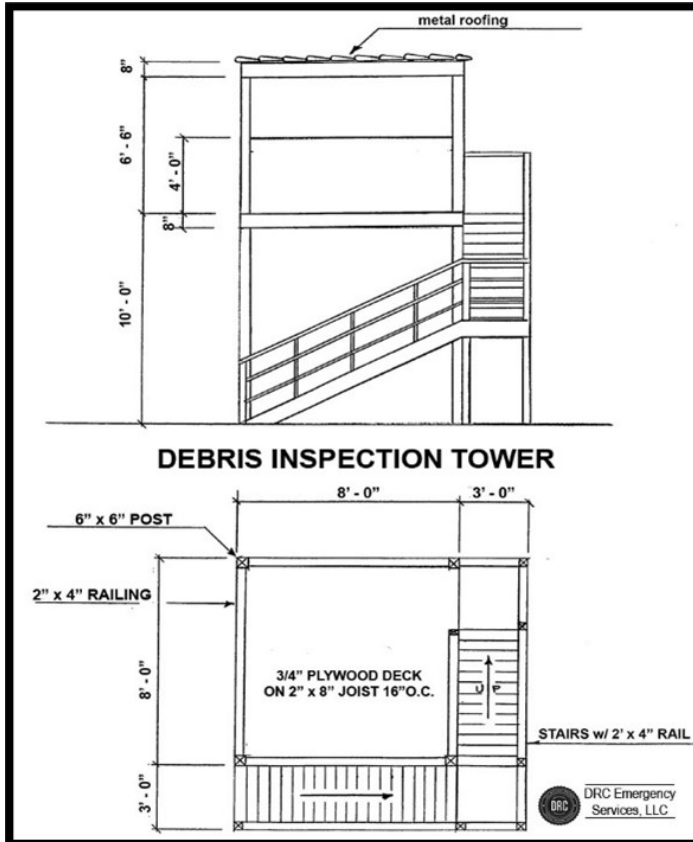

Traffic Control - Traffic control personnel, with appropriate traffic control safety equipment, will be stationed at the ingress observation tower to maintain vehicular traffic control. Additional traffic control personnel can be stationed throughout the site, as needed, to enforce proper traffic flow.

Inspection Towers – DRC will construct inspection towers to facilitate observation and measurement of debris hauled for storage at debris staging sites. If volume warrants it, each Temporary Debris Management Site will contain two inspection towers: one tower at the point of ingress for use by the monitoring firm, and one tower at the point of egress to ensure all debris hauling trucks are in fact empty upon leaving the site. A single tower may be utilized if ingress and egress points are the same. Sometimes we will use all-terrain man lifts instead of constructed towers.

Maintenance and Grading – DRC will perform maintenance and grading of the debris management site throughout the operating day. Access roads will be constantly maintained, and dust control managed by use of a water truck. Access roads will be swept as often as necessary.

Typical On-Site Equipment, Supplies, and Manpower Needs

- Signage
- Equipment Operators
- Security Personnel
- Front-End Loader with Thumb
- Grinder – Horizontal or Tub
- Air Curtain or Above Ground Incinerator (if required)
- Inspection Tower(s)
- Site Manager
- Traffic Control Devices
- Bulldozer
- Excavator
- Sweeper
- Water Truck
- Perimeter Fencing (if required)

Debris Storage Area

Debris is segregated into five main areas:

Vegetative debris – Vegetative debris will be cleaned of C&D debris to the extent possible to facilitate compliance with requirements for reduction of vegetative debris and processing of C&D.

Construction and Demolition (C&D) Debris – C&D debris will be stored separately within an area that will facilitate material separation, compaction or grinding.

Recyclables/Salvage – Recyclable/salvageable materials will be stockpiled in accordance with the site plan.

White goods – White goods will be stockpiled in a contained area in accordance with the site plan, unless they are being transported directly to the recycler.

Household Hazardous Waste (HHW) – HHW will be segregated and stored in an approved containment area protected by lining and/or berms.

Debris Reduction Methods

Grinding and/or Chipping Operations – Grinding or chipping can achieve a 4 to 1 reduction of vegetative debris or greater. The resulting product can be burned for use as fuel or reused as mulch or compost. Grinding or chipping is less often used as a reduction method for C&D material due to its impact on equipment.

Burning – Most common in rural settings, burning is the most efficient reduction method for vegetative debris, as a 95% reduction can be achieved. However, environmental impact and safety must be considered. Air curtain incineration and trench burning mitigate the release of smoke and ash into the air and surrounding areas.

Compaction – Compaction is the best reduction method for construction and demolition debris. When combined with recycling, a 2 to 1 reduction ratio can be achieved.

Final Debris Disposal

For most projects, DRC will work with the Town to determine final disposal location(s) for processed debris during the planning phase. Per Subtitle D, lined sites are generally selected. However, in some cases, permitted construction and demolition sites are used, when regulations allow.

Recycling Options

Vegetative Debris – After reduction by grinding or chipping, vegetative debris can serve a multitude of useful purposes. It can serve as a viable fuel source for manufacturing, etc., or used for agricultural purposes. It can be donated to residents for use in flower beds and gardens. It can be used as an alternative daily cover in landfills, when allowed. It can also be used as a roadbed for temporary roads, and it can be thinly spread across acreage to produce dirt.

Aggregates – Concrete, brick, and similar materials can be crushed and used as fill material, road base, etc.

Construction and Demolition Debris – Wood, metals, plastics, and sometimes gypsum can be pulled from the waste stream and recycled, if sufficient quantities exist and recycling facilities are available and accessible.

White Goods – White goods are easy to recycle due to abundant processors.

Electronic Waste (E-Waste) – While electronic waste items are quite abundant, particularly following a flood or tidal surge, recyclers of these items have become more difficult to find. Some of the components found in televisions, computer monitors, copy machines, etc. contain heavy metals, making disposal a poor option. Shipping to foreign markets is sometimes the best option.

“This debris removal project has been a resounding success, and the GLO appreciates the many hours of hard work put in by the DRC team.”

— Benjamin K. Au Architect, Director of Construction Services GLO, Texas

Temporary Debris Management Site Closeout

Once operations are complete, DRC will restore all Temporary Debris Management Sites. The scope of restoration is determined by post-use site conditions, terms of the land lease, and/or the Town’s directive and mutual understanding when public property is used. Restoration will include final removal of all debris and other managed components as well as all structures and temporary features. Additionally, DRC will perform grading and leveling, removal of temporary roads and fencing, and grassing or seeding as necessary to restore the site to documented pre-use condition. In most cases, both the property owner and the state environmental agency must inspect, release, and approve the final closure of a site.

DRC will use drone footage and still photography to illustrate the current condition of the site as it compares to the baseline or pre-use documentation. We will also conduct environmental sampling that mirrors pre-use sampling. For example, random soil samples, surface samples, and, if necessary, water samples, may be taken and sealed in containers for comparison with pre-use samples. Independent third-party engineers and testing labs may be used. Post-use samples and pre-use samples may be tested in an independent lab to determine the presence of contaminants.

Sarasota County, Florida debris management site during and after operations.

COMMITMENT TO COMPLIANCE & ETHICAL BUSINESS CONDUCT

DRC strives to provide the most dependable, honest, and customer-centric service in the industry by upholding the highest standards of ethical conduct and compliance at all times. To better ensure our continued compliance with all laws, rules, and regulations, DRC's senior management has established a formal code of business conduct, to which all contractors and individuals are expected to adhere.

Kristy Fuentes, DRC's Vice President of Compliance and Administration, oversees the Corporate Compliance Program. Her responsibilities include the following:

- 🌐 Evaluating internal and external compliance issues or concerns relating to DRC's interaction with customers
- 🌐 Ensuring that our management, employees, and customers are in compliance with all applicable rules and regulations
- 🌐 Serving as a valuable line of communication between the company and its customers
- 🌐 Acting as a conduit to the President by monitoring and reporting results of the ethics practices of the company
- 🌐 Providing guidance to the senior management team

Ms. Fuentes is authorized to implement all necessary actions to insure achievement of the objectives of an effective compliance program.

Application of Core Values

DRC is committed to upholding our core values in all aspects of business and conduct. We expect all personnel to uphold these values in every interaction:

- 🌐 To our **customers** we place highest priority on our response time to a disaster, our effectiveness, and the quality of our service and solutions.
- 🌐 To our fellow **employees** we look out for their welfare, safety and health. We promote an environment that encourages new ideas, enjoyment of work, and equal opportunity for advancement.
- 🌐 To our **suppliers and subcontractors**, we are fair and professional, honoring our commitments to our business partners.

Compliance Standards and Procedures

DRC aspires to be the “**first in response**” for natural and man-made disasters by being prepared, responsive, and competent, and by demonstrating ethical business conduct. Headed by a team of caring people, we recognize that how we do our work is as important as what work we do. We will not tolerate any shortcuts when it comes to our ethical values and standards of conduct.

Quality Control Plan

The purpose of the Quality Control Plan is to promote **efficient and safe operations** in the provision of **quality services**. DRC’s approach to quality control consists of a series of tasks and processes tailored to suit the challenging circumstances facing the Town of Southwest Ranches in the wake of a disaster event.

A copy of the Quality Control Plan is available for review upon request.

Our mission is to provide the most **dependable, honest, and customer-centric** services in the industry by building lasting relationships with the clients we serve.

We are among the leading disaster management companies in the United States, specializing in providing emergency preparation, disaster response, and recovery from major catastrophes. Our experience covers all facets of a project, including the FEMA reimbursement process.

At DRC we're always striking back against disaster.

Safety

DRC maintains an unwavering commitment to the health and safety of our employees, subcontractors, customers, and the communities that we serve.

Our goal is to ensure that all projects operate under the safest possible conditions and, as such, DRC maintains a robust in-house safety program. Headed by a dedicated team of Project Managers and Regional Managers, DRC's safety programs and practices include:

- 🌐 Morning project safety toolbox meetings
- 🌐 Weekly "better ideas for improvement" meetings
- 🌐 Weekly formal safety meetings
- 🌐 Constant safety training certifications
- 🌐 Safety recognition through our "challenge coin" award program

DRC follows all OSHA regulations and other federal and state agency guidelines when conducting an operation. DRC's Corporate Safety Plan includes Safety Policies, an Accident Prevention Plan, and a Substance Abuse Policy. It is the policy of this organization to provide and maintain work environments and procedures which will achieve the following:

- 🌐 Safeguard the public and government personnel, as well as property, materials, supplies, and equipment
- 🌐 Provide a safe work environment for employees and subcontractors
- 🌐 Avoid interruptions to operations and delays involving project completion
- 🌐 Increase morale
- 🌐 Reduce costs

DRC's staff includes Sam Dancer, Safety Officer, and Jarod Tassin, Taylor Jumonville, Andy Allshouse, and Scott Matthews, Maintenance of Traffic (MOT) Specialists who bring invaluable skill and expertise to each project. With over 100 FEMA/OSHA certifications, Mr. Dancer oversees training and safety procedures.

A copy of DRC's Corporate Safety Plan is available for review upon request.

Employee Performance and Training

As one of the leading disaster response companies in the United States, DRC has developed one of the most comprehensive employee training modules in the industry. Every staff member is continuously trained in the following:

- Online FEMA doctrine
- Safety performance and practice
- Certifications relative to individual disciplines

All personnel records (including those of management, supervisors, foremen, and laborers) are maintained to ensure all personnel have current training and certification relative to their job assignments. All DRC's personnel receive specialized training in emergency management and are encouraged to further their education.

Employee and Subcontractor Training Programs

- Smith System Driver Training
- Hazardous Materials Training
- Demolition Safety
- Asbestos Abatement Training
- Power Line Awareness
- Hazardous Communication
- Lockout/Tagout
- Fire Prevention Training

***"Your attention to
safety is to be
commended."***

- Cynthia Halsey,
Environmental Services,
Okaloosa County, Florida

Drug Free Workplace

It is the goal of DRC to maintain a drug-free workplace in accordance with the Drug-Free Workplace Act of 1988. DRC has adopted the following policies on a case-by-case basis:

1. The unlawful manufacture, possession, distribution, or use of controlled substances is prohibited in the workplace.
2. As an ongoing condition of employment, employees are required to abide by this prohibition and to notify their supervisor, the Managing Director, or Vice President in writing and within five (5) days of the violation of any criminal drug statute arrest or conviction they receive.
3. Employees who violate this prohibition or receive such a conviction are subject to corrective or disciplinary action as deemed appropriate, up to and including termination.
4. DRC provides information about drug counseling and treatment.
5. DRC reserves the right to search and inspect for the maintenance of a safe workplace.

Prompt Damage Resolution

- DRC maintains a damage hotline (888-721-4DRC) for all projects. A complaint manager is assigned to the project and is responsible for tracking all damage and repairs.
- DRC will investigate all damage complaints within 24 hours and will propose a resolution to the damaged party within 48 hours.

DOCUMENTATION AND DATA MANAGEMENT

Invoicing Procedure

DRC's invoicing procedure is as follows:

- 🌐 Load tickets are received, logged, and then scanned into DRC's database system. Tickets are then entered and audited for accuracy.
- 🌐 An invoice is created, along with the ticket data backup.
- 🌐 The reconciliation process then takes place with either the Monitoring Firm or the reconciliation contact with the Town.
- 🌐 Once the invoice and ticket data have been 100% reconciled, the Monitoring Firm, or the reconciliation contact with the jurisdiction, then recommends the invoice to FEMA for payment.
- 🌐 Frequency: invoicing is usually performed on a weekly basis.

Data Center

DRC maintains a fully staffed, fully operational Data Center at its headquarters all year. The Data Center is staffed by experienced personnel with extensive knowledge of recording, reporting, contract, and reimbursement requirements. The Data Center is equipped with state-of-the-art information technology and is prepared to meet and exceed the reporting requirements of each client. All servers and networked computers are backed up both on and off-site every day. The urgent nature of DRC's work requires that the Company remain online and in contact across its network at all times.

Daily Reports

DRC shall submit daily progress and quality control reports to the Town for all activities. Each report will contain, at a minimum, the following information:

- 🌐 Letterhead with DRC name and contact information
- 🌐 Report Date
- 🌐 Location of completed work
- 🌐 Location of work for the next day
- 🌐 Daily and cumulative hours for each piece of equipment and crew (Emergency Clearance)
- 🌐 List of roads that were cleared (Emergency Clearance)
- 🌐 Number of Crews (including number of trucks and loading equipment)
- 🌐 Daily and cumulative totals of debris removed, by category
- 🌐 Daily and cumulative totals of debris processed, to include method(s) of processing and disposal location(s)
- 🌐 Daily estimate of hazardous waste debris segregated, and cumulative amount of hazardous waste placed in the designated holding area
- 🌐 Number of hazardous trees and hanging limbs removed
- 🌐 Problems encountered or anticipated and proposed solutions

Daily Reports are co-signed by the Town's inspector to verify work performed. In addition, the Town receives an original copy of all load tickets and receives and verifies for co-signature a Daily Reconciliation Sheet listing each load ticket, truck number, crew number, street, truck volume, percent full, credited volume of debris removed, and the total volume removed for the day. This Daily Reconciliation Sheet can become the invoicing document for the contract.

Documentation and Recovery Process

Prior to the beginning of hurricane season, DRC will meet with the Town and the Debris Management Monitor to finalize and test the processes for inspection and documentation that are to be used during the response and recovery phases of debris removal. At all times, DRC will provide the Town access to all work sites and disposal areas. DRC and the Debris Management Monitor will have personnel in place to verify and maintain records regarding the contents and cubic yards of the vehicles entering and leaving the site. The Debris Management Monitor will coordinate data recording and information management processes, including but not limited to the following:

- 🌐 Prepare detailed estimates and submit to FEMA for use in Project Worksheet preparation.
- 🌐 Implement and maintain a disaster debris management system linking load ticket and Temporary Debris Management Site information, including reconciliation and photographic documentation processes.
- 🌐 Provide daily, weekly, or other periodic reports for the Town managers and DRC, noting work progress and efficiency, current/revised estimates, project completion and other schedule forecasts/updates.

DRC will provide the following assistance:

- 🌐 Create recovery process documentation plan
- 🌐 Maintain documentation of recovery process
- 🌐 Provide written and oral status reports as requested to the Town and the Debris Management Monitor
- 🌐 Review documentation for accuracy
- 🌐 Assist in preparation of claim documentation

DRC understands that complete and accurate records are required for the receipt of federal funds. We will provide the Debris Management Monitor with all requested information that is necessary for proper documentation. DRC will work closely with FEMA and other applicable State and Federal agencies to ensure that eligible debris collection and data documenting appropriately address likely concerns of the reimbursement agencies.

COMMUNICATION AND IN-FIELD TECHNOLOGY

Communication Technology

Real-time communication is used to facilitate the field team's access to project resources and allow reporting by the field teams to program management. Radios/cell phones are used to initiate mobilization, support communication between the off-site and on-site personnel before utilities are established, and provide a means of ongoing communication with the site management team. Cellular technology has been fortified and reinforced over the past decade, and recent events have proven that even if cellular telephone capability is impacted, text messaging is almost always available due to the minimal bandwidth required. Should this technology fail, DRC has satellite radios, which can be deployed in a matter of hours.

In-Field Technology

Project Manager's Toolbox

In the field, Project Managers utilize iPads to access DRC's Project Manager's Toolbox, an automated system which provides seamless real-time information exchange between office and field, no matter the size and scale of the project(s). The tool applies to all aspects of project management, including the following:

1. Real-time damage and complaint reporting and resolution
2. TDMS reporting and site close out documentation
3. Operations planning and daily reporting for client, monitor, and office
4. Zone assignments and progress tracking
5. Push Crew Tracking complete with time-stamped, geotagged photo backup

The toolbox replaces paper and endless emails with a secure database that utilizes Microsoft Multifactor authentication (MFA) and HIPAA compliant digital signatures.

Mapline

DRC utilizes innovative digital mapping technology to create custom maps specific to each project and jurisdiction. Maps may include any or all of the following:

- Equipment Staging Areas
- Collection Grids
- Landfills and TDMS Locations
- Milage Radius for Tiered Hauling Distances

Mapline is utilized to optimize routing and send precise coordinates to operators in the field. Maps are updated in real time and are readily accessible in the field through phones and iPads.

CLIENT INTERACTION PROGRAM

At DRC we take very seriously the faith placed in our team upon selection by the Town of Southwest Ranches as the Disaster Debris Management Provider. Having been the primary provider of services on some of the largest and most destructive events to ever impact our country, we appreciate and recognize the amount of information and interaction necessary for us to be completely prepared to provide the most effective debris removal program to the Town of Southwest Ranches.

It is for this reason that the DRC Management and Operations Team spends as much time as is necessary working with local government leaders in times of non-event to gain that essential, in-depth understanding of local issues, priorities, concerns, and objectives, to provide a level of responsiveness that is unmatched in the industry. DRC's Regional Manager will meet regularly with the Town of Southwest Ranches to discuss items such as Disaster Debris Management Site viability, priority roadways, critical access, and infrastructure concerns.

In any post-event scenario, participation by select Town staff is critical. Town employees, generally from Public Works or Solid Waste, provide direction and support pertaining to project approach, prioritization of push and collection routes, critical roadways and facilities, and physical nuances DRC might otherwise not know. DRC will begin to develop relationships with those responsible within the local government immediately upon contract award to establish and gain a deep understanding of the unique needs, concerns, and priorities of the Town.

At no cost to the Town, DRC will provide an annual "Pre-Season Debris Response & Readiness Workshop" whereby members of the Town Debris Team, Public Works, and Finance & Administration can be updated on policy and guidance changes, roles and responsibilities of your debris management provider, and overall disaster debris educational training. These annual workshops have been immensely successful throughout the country, allowing the DRC team to interact with clients, share important information, and refresh local points of contact in the months leading up to hurricane season.

During times of post-event activation, DRC will engage the State staff and seek input continually, by way of daily meetings with all project participants, field interaction, and comprehensive daily reporting. This consistent interaction has successfully proven on past activations to keep critical lines of communication in place, provide complete transparency into the daily process, progress, challenges, and accomplishments, and provide early answers to the public and local government officials.

DRC firmly believes in serving clients year-round and not just at the time of an event or activation. Whether we are needed to respond to a minor contract activation or a large-scale catastrophic event, DRC believes that adequate planning and preparation are key to a successful and fully reimbursable debris removal program.

Relationship between DRC and the Debris Management Monitor

Building a positive working relationship between DRC and the debris management monitoring firm is crucial to the success of any project. For more than 20 years, DRC has worked with third party debris monitoring firms to achieve success in projects of all sizes. We have worked with most major debris management monitoring firms in the United States. Thus, it is very rare that DRC begins a debris project without already being familiar with the firm and their personnel.

As such, DRC has worked with the systems and software of all the major third-party monitoring firms. From manual ticketing to the more technical electronic tracking and ticketing systems, DRC has experience with every iteration existing today. DRC's understanding of the key elements of 44 CFR and FEMA 325 also enables DRC to operate congruently with the monitoring firm. DRC's team is prepared to work effectively with the Town's chosen monitor.

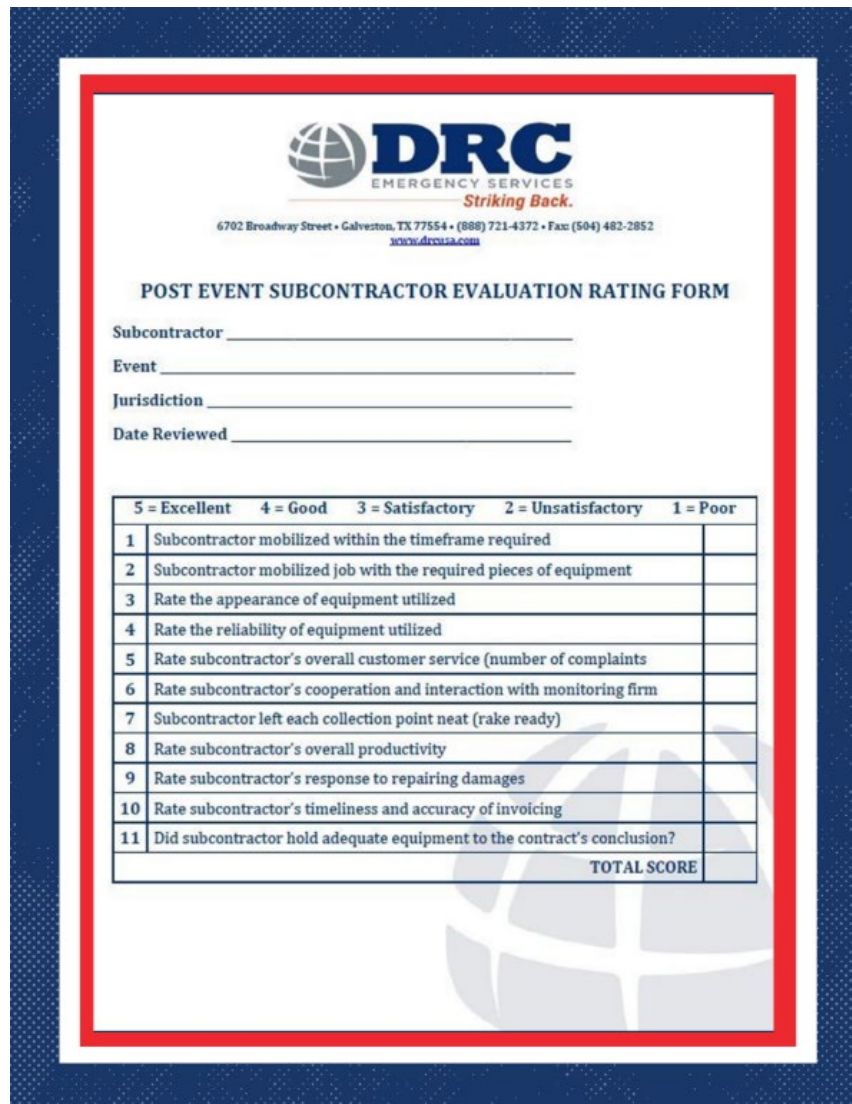

Post Event Evaluations

Hot Wash Meetings

DRC holds a Hot Wash with each jurisdiction post event. A Hot Wash is an after-action evaluation that occurs between DRC and the client. This post activation meeting serves as a forum for the client to discuss the project as a whole, the processes that were implemented, and any potential improvements. Additionally, DRC has an internal meeting to discuss development strategies and innovative concepts for future activations.

Subcontractor Evaluation

DRC has a large network of subcontractors and maintains long-standing relationships with trained and exclusively committed key subcontractors. Additionally, DRC strongly believes the use of local resources is vitally important to a successful disaster recovery operation. For decades, DRC has been building relationships with subcontractors across the nation. DRC utilizes a 55-point Post Event Subcontractor Evaluation Form to aid in building our reliable network of subcontractors.

POST EVENT SUBCONTRACTOR EVALUATION RATING FORM

Subcontractor _____

Event _____

Jurisdiction _____

Date Reviewed _____

	5 = Excellent	4 = Good	3 = Satisfactory	2 = Unsatisfactory	1 = Poor
1 Subcontractor mobilized within the timeframe required					
2 Subcontractor mobilized job with the required pieces of equipment					
3 Rate the appearance of equipment utilized					
4 Rate the reliability of equipment utilized					
5 Rate subcontractor's overall customer service (number of complaints)					
6 Rate subcontractor's cooperation and interaction with monitoring firm					
7 Subcontractor left each collection point neat (rake ready)					
8 Rate subcontractor's overall productivity					
9 Rate subcontractor's response to repairing damages					
10 Rate subcontractor's timeliness and accuracy of invoicing					
11 Did subcontractor hold adequate equipment to the contract's conclusion?					
TOTAL SCORE					

SUSTAINABILITY

DRC is committed to the protection and restoration of communities and ecosystems affected by disasters. Although many of the events we respond to are caused by the forces of nature, these events often result in widespread environmental impacts. Moreover, the mitigation of these disasters, including the transportation and processing of large volumes of waste material, can have negative environmental impacts if not pursued with the caution and sensitivity that define DRC's work.

The removal of debris and waste materials, the restoration of damaged and compromised natural and constructed habitats, and in some cases the reconstruction of damaged coastal, marine, and wetland environments are the core missions in a DRC disaster response. Furthermore, DRC is committed to ensuring that our work and its byproducts have minimal to no environmental impact. Finally, DRC has embarked on a recycling program to ensure the most advantageous disposal of all the materials that we remove.

Protecting Wildlife in Environmentally Sensitive Areas

DRC has a long history of successfully protecting wildlife and ecology in environmentally sensitive areas.

- 🌐 In 2023, DRC removed sargassum from Sarasota beaches while coordinating with turtle surveyors and the Florida Department of Environmental Protection to implement proper procedures and ensure the protection of turtle nests.
- 🌐 In 2021, DRC implemented measures to protect the local manatee population while performing marine debris removal, submerged vehicles removal, and the removal, screening, and placement of sand in Jefferson Parish, Louisiana. During this project, DRC mobilized 138 trucks on a single day.
- 🌐 In 2008, DRC was activated in 23 Texas jurisdictions in the response to Hurricane Ike. Before commencing our debris removal operation in the ecologically sensitive coastal areas of Galveston Island, DRC staff received specialized training on how to protect the Kemp's Ridley Sea Turtle.

Pinellas County Red Tide

In 2018, DRC was activated in Pinellas County, Florida to remove and dispose of dead fish resulting from a one-million-acre red tide bloom in the Gulf of Mexico. A red tide bloom is caused by algae that produce toxins that kill aquatic life, make the surrounding air difficult to breathe, and often turn the water red. **DRC efficiently removed over 3.6 million pounds of dead fish in a three-month span**, using a variety of equipment. Shrimp boats were used to scoop up the dead fish offshore before they hit the beaches and inland waterways. For the fish that made it to shore, as well as into the canals, we implemented skimmer boats and beach rakes. DRC successfully cleaned and maintained **45 miles of coastline**, keeping the beaches suitable for visitors. With the assistance of the United States Coast Guard, we were able to monitor the red tide plume's movement by helicopter, coordinating with the Florida Wildlife Commission as to the migration and effect of the algae. DRC and our partners on this project were awarded the **2018 Environmental Project of the Year** by the West Coast Branch of the American Public Works Association.

BP Deepwater Horizon Oil Spill

DRC successfully performed in several contracts directly related to the oil spill in the Gulf of Mexico which flowed for three months in 2010. DRC conceived, executed, supervised, and funded a **150-mile Gulf of Mexico shoreline protection system** in response to the oil spill. We relied on our depth of knowledge of debris handling in ecologically sensitive environments to guide the placement, management, and removal of oil containment boom. **DRC staff had a personal interest in protecting the Gulf Coast as they were among the affected residents.**

During this time, DRC was successfully classified as an Oil Spill Removal Organization (OSRO) by the United States Coast Guard. The company met several classifications which were listed on the OSRO Classification Matrix. Participation in this program allowed DRC to provide professionally recognized services to Escambia County, Florida as well as Plaquemines Parish, Terrebonne Parish, and Lafitte Parish, Louisiana.

DRC was tasked with designing coastal protective systems and unique collection programs along more than one hundred miles of estuaries in southwest Louisiana. The programs involved intensive employee training relative to the identification and protection of wildlife nesting and reproduction areas. DRC also played a role in setting up wildlife recovery and cleaning stations in Plaquemines Parish, Louisiana, where employees volunteered to help conduct rehabilitation and release programs.

Recycling

DRC has a wealth of experience performing landfill avoidance projects.

- Following Hurricane Ian in 2022, DRC was activated in 19 jurisdictions, managed 21 TDMS sites, and removed and disposed of over 4.9 million cubic yards of debris in Sarasota County, Florida, and surrounding municipalities. DRC recycled 100% of the 3.3 million cubic yards of vegetative debris collected.
- In our response to Hurricane Ike in Houston in 2008, DRC recycled 100% of the more than five million cubic yards of vegetative debris we collected through a joint program with Republic Services. The material was used as alternative daily cover in landfills; as roadbed for temporary roads; as compost; and was given to citizens for use in landscaping. The same year in Galveston, DRC separated materials such as reusable wood, glass, metals, and drywall to achieve a high percentage of material reuse.
- DRC is pleased to have a formal partnership with Agromin, California's largest organics recycler. Agromin was voted Composter of the Year by the US Composting Council. All of the vegetative debris collected by DRC from California clients

is composted and 100% recycled by Agromin. These materials are turned into rich soil to nourish agricultural land as well as for use by residents, municipalities, and landscapers throughout the state.

Insurance

DRC is one of the few companies in our industry to carry environmental insurance. While our operating procedures strictly adhere to environmental guidelines, the operation of TDMS sites within a jurisdiction presents an element of potential exposure. The insurance held by DRC places an extra level of protection for the Town that goes beyond the protection already provided through sound operating practices. Additionally, all of DRC's key personnel maintain a current 40-hour Hazardous Waste Operations and Emergency Response (HAZWOPER) certificate.

RECOVER

- Demolition
- Man Camp Services
- Post Disaster Temporary Housing
- Marine Services

Once the initial response phase is over, full recovery from a major disaster can still be a big job. Affected communities may require many additional services to be restored to pre-event wholeness.

Under the joint ownership of the Sullivan Brothers Family of Companies, DRC Emergency Services, SLS, Forgen, and Callan Marine comprise a core of companies that excel at providing a turnkey approach to total disaster management. We stand alone in the industry as the only company that can provide the full range of disaster response and recovery services.

DRC's sister Company, SLS, is a prominent provider of post-disaster temporary housing. From turnkey temporary trailer facilities to massive man camps designed to house and feed thousands, SLS has designed and performed housing solutions for a wide range of post disaster applications.

SLS pioneered the current FEMA Sheltering and Temporary Essential Power (STEP) program during the aftermath of Hurricane Sandy in New York. The Program in New York was called "Rapid Repair," and a similar program in Baton Rouge was called "Shelter at Home." These programs are designed to perform essential elements of restoring damaged single-family residences and return homeowners back into their homes quickly. Rapidly returning displaced families to their homes provides a sense of community and normalcy to the affected residents. Additionally, the cost of the typical STEP program is approximately 20% of the cost of placing a displaced family into a trailer or similar structure.

SLS is composed of four major divisions: RESPONSE, HEALTH, FEDERAL SERVICES, and HOUSING. Each division is distinct in focus, scope and services provided, but seamlessly utilizes a pool of leadership, talent, resources and financial capabilities.

We perform a multitude of large-scale assignments for federal, state, regional, county and municipal entities — **with a keen focus on the comprehensive rehabilitation, reconstruction and recovery of communities impacted by emergencies and disasters.** Additionally, our team provides infrastructure, facility construction and rehabilitation services; remote workforce compounds and basecamp facilities; turnkey health solutions; and intermodal, industrial and marine facility construction.

At Forgen, we leave the planet better than we found it. Our integrated geotechnical and civil construction and environmental remediation services restore and strengthen our natural surroundings to protect people, communities, and the environment for generations to come. We have successfully delivered large, multi-disciplinary projects for public and private sector clients across North America for more than a decade, safely tackling complex challenges across a variety of industries.

Forgen's core service lines include Geotechnical and Civil Construction, Disaster Mitigation and Recovery, Flood Control and Ecosystem Restoration, and Environmental Remediation.

Forgen-DRC Joint Venture

Forgen and DRC formed a joint venture to strengthen our ability to support emergency response efforts for wildfire and hurricane disasters nationwide. The joint venture combines Forgen's wildfire response and debris removal experience in the western US with DRC's emergency response and vehicle and tree removal expertise supporting hurricane disaster management and recovery efforts on the Gulf Coast. Forgen and DRC are part of a multi-billion-dollar Sullivan Family of Companies with more than \$2.2B in USACE design-build experience in the past five years.

After the Southern Branch wildfires in California in 2020, Forgen and DRC worked in tandem to remove debris from over 600 properties. We removed 40,000 tons of ash and debris and 16,000 tons of potentially impacted soil. We also removed and recycled 32,000 tons of concrete, 4,400 tons of metal, and 11,800 hazardous trees.

Together, Forgen and DRC cleared 168 properties after the 2021-2022 Marshall Fire in Boulder County, Colorado. We removed 40,590 tons of concrete; 41,333 tons of ash, soil, and debris; 805 tons of metal; and 880 tons of vegetative debris.

Following the Maui fires in 2023, Forgen and DRC teamed with Native Hawaiian organization Dawson Solutions to provide disaster relief execution and management for the United States Army Corps of Engineers. We completed nearly 1,600 property assessments in 90 days, working 7 days a week. The data collected was used to determine the level of effort required to clean up each property in the next phase.

DRC's sister Company, Callan Marine, is a highly specialized construction firm capable of providing design, engineering, management and construction services, such as the following:

- Marine debris management and removal
- Offshore and inland dredging
- Shoreline protection
- Beach re-nourishment
- Port/Dock facility construction
- Wetlands construction
- Marine protection mitigation and improvements

For over ten years, Callan Marine has been serving public and private clients by providing crucial dredging services and executing new maritime construction and expansion projects. We restore berthing depths for ship docks and navigation channels, facilitating transportation in our nation's waterways.

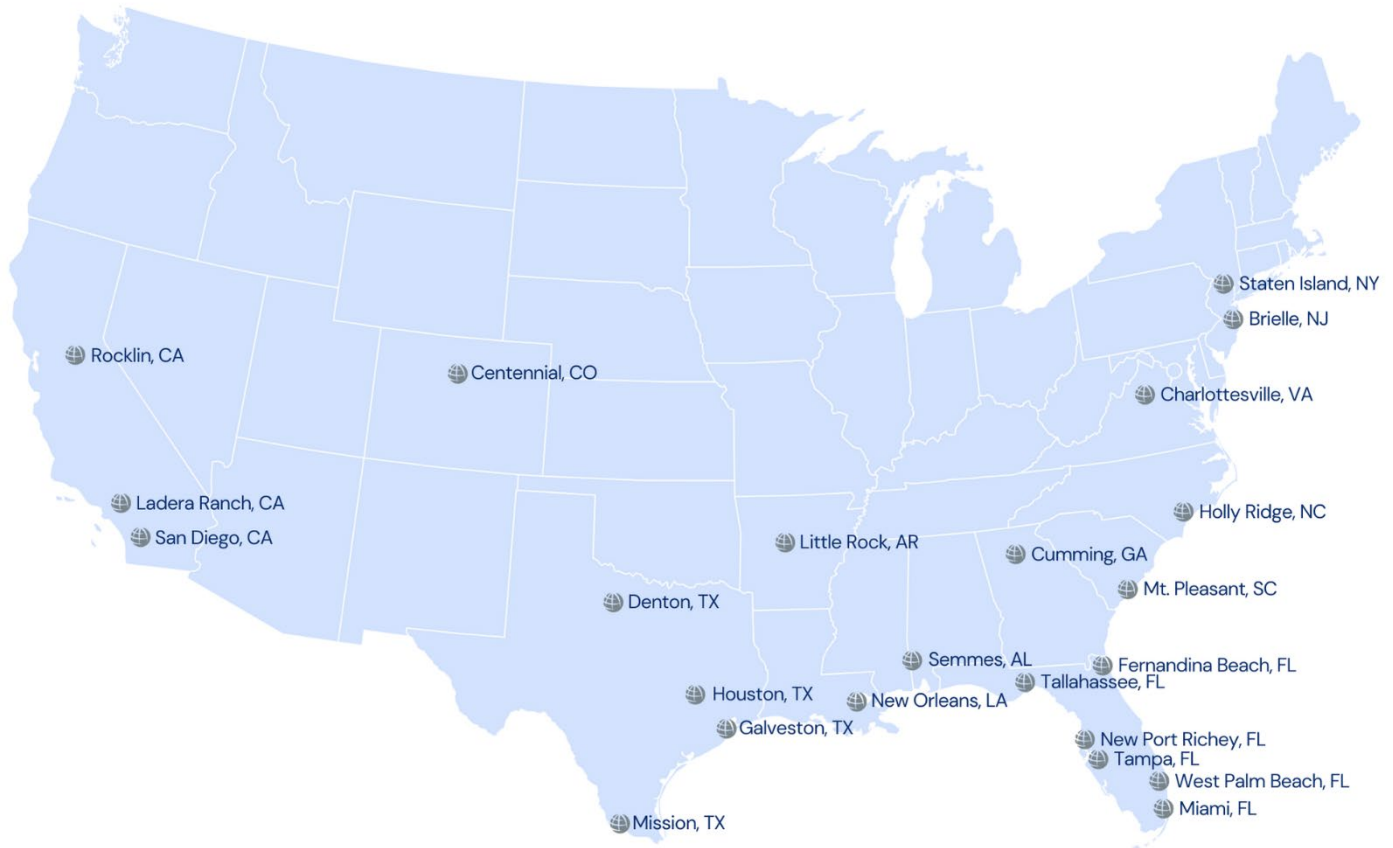

With a mission of safety, quality, and integrity, Callan Marine can customize a response solution for you.

As the leading marine construction service provider on the Gulf Coast, Callan Marine has dredged thousands of miles of waterways in the region to keep our customers productive.

Office Locations

DRC has offices across the country, including several locations in Florida. In the event of a contract activation, DRC would set up an operations center in the Town of Southwest Ranches.

Evan Fancher, the Regional Manager for Southwest Ranches, is capable of responding to the needs of the Town 24 hours a day, 7 days a week. Mr. Fancher is based in Pembroke Pines, Florida.

DRC employs more than 30 Regional and Project Managers. Regional Managers are assigned to specific geographic locations throughout the United States to assist, monitor and lead the project teams in response to emergency situations. In the event of a large-scale disaster, Regional Managers may be mobilized to support recovery efforts in any area of the country.

Current Contractual Obligations in Florida

DRC is currently working in the following locations within the State of Florida:

Contracting Agency	Description	Total Contract Value
Largo (City of), FL	Hurricane Milton - Disaster Debris Removal DR-4834	TBD - Standby
Longboat Key (City of), FL	Hurricane Milton - Disaster Debris Removal DR-4834	TBD - Standby
Manatee County, FL	Hurricane Milton - Disaster Debris Removal DR-4834	TBD - Standby
Pinellas County, FL	Hurricane Milton - Disaster Debris Removal DR-4834	TBD - Standby
Sarasota (City of), FL	Hurricane Milton - Disaster Debris Removal DR-4834	TBD - Standby

All of the above projects are nearly complete and would not affect DRC's capacity to serve the Town of Southwest Ranches.

CLIENT LIST

Five Year Past Performance

Please see below for projects performed by DRC over the last five years. Project values below with asterisks (*) are in progress and amounts are subject to change.

2024	Contracting Agency	Description of Work	Contract Amount	Cubic Yards
December	Palm Beach County Schools	Hurricane Milton - Disaster Debris Removal DR-4834	TBD	TBD
December	Orange County, CA	Airport Fire	TBD	TBD
December	TEMA	TN SWC Debris Removal Services	TBD	TBD
December	State of New Mexico Private Property Debris Removal and Erosion Control Services	Wildfires and floods	TBD	44,165.01
November	TxDOT - Jefferson County	Hurricane Beryl - Disaster Debris Reduction and Haul Out DR-4798	TBD	TBD
November	State of Virginia Department of Emergency Management - VDEM	Hurricane Helene - Disaster Debris Removal DR-4831	\$22,000,000.00	2,275.00

TOWN OF SOUTHWEST RANCHES, FLORIDA
DISASTER DEBRIS REMOVAL AND EMERGENCY LOGISTICAL SERVICES
RFP NO. 25-10

PROPOSER EXPERIENCE

In order to receive consideration for an award, it is a requirement that the following "Information Sheet" be completed and returned with your response to this RFP.

Proposer (company name): DRC Emergency Services, LLC
Address: 111 Veterans Blvd. Suite 1420 Metairie, LA 70005
Telephone No: (888) 721-4372 ()
Contact person: Kristy Fuentes Title: Vice President, Treasurer, Secretary
Number of years in business: 24 Years
Address of nearest facility: 3800 NE 1st Ave, Miami, FL 33137

Provide three (3) references - preferably governmental agencies - where these services have been provided:

1. Company Name: Manatee County, FL
Telephone No: (941) 792-8811 ext. 5242
Contact Person: Sue Dunn
Title: Compliance Coordinator
Contract Amount: \$90,822,810.00
Project: Debris Management Services DR-4834-FL
Email: sue.dunn@mymanatee.org
Date Services Provided: October 2024-March 2025
2. Company Name: Sarasota County, FL
Telephone No: (941) 544-2817
Contact Person: Lois Rose
Title: Manager
Contract Amount: \$20,962,892.48
Project: Disaster Debris Collection, Reduction and Disposal - Hurricane Ian
Email: lerose@scgov.net
Date Services Provided: September 2022 - February 2023
3. Company Name: Pinellas County
Telephone No: (727) 464-3654
Contact Person: Paul Dean
Title: Public Works Director
Contract Amount: \$94,159,325*
Project: Hurricane Helene - Disaster Debris Removal DR-4828
Email: pdean@pinellas.gov
Date Services Provided: October 2024 - Present

*Project Ongoing

Logistical Necessities

In a post-disaster scenario, access to basic needs such as clean water and electricity is often compromised. DRC will mobilize to procure and distribute items such as water, ice, and generators as needed, under the direction of the Town of Southwest Ranches.

DRC's sister company, SLS, specializes in supplies and logistics for disaster recovery. SLS has a complete management, operations, and logistics team ready at a moment's notice in multiple locations throughout the United States. With expedited response times to any area of the country, the SLS team and services are fully scalable to respond to assignments

of any size, nature, and location.

SLS has performed multiple missions that have included bottled water, ice, and/or generator services in response to notable disasters, such as Winter Storm Uri (TX), Hurricane Harvey (TX), Hurricane Ida (LA), Hurricane Ian (FL), Hurricane Michael (FL), and others.

As part of the Sullivan Brothers Family of Companies, DRC and SLS often collaborate on projects. This collaboration expands the scope of services, personnel, equipment, and financial resources available to our clients. One example of DRC's collaboration with SLS includes the provision of emergency supplies and logistics in our response to Hurricane Ida. Together, we provided emergency catering, pallets of water, ice, drinks, potable water, temporary restrooms, laundry trailers, handwashing stations, generators, fuel services, fuel tank with trailer, and office trailers under a \$2 million logistics contract with Jefferson Parish, Louisiana.

Temporary Housing

Upon request, DRC and SLS will leverage over a decade of experience in responding to real-world incidents and disaster declarations to provide tested and proven turnkey base camp services to the County that take full advantage of our in-house resources and necessary supplier and vendor relationships in the national, regional, state and local markets. In support of base camp development, DRC and SLS will provide and coordinate the design of the facility in concert with the County to ensure logical, safe, and functional layouts

and acceptable personal billeting assignments that fit specific site and mission conditions that ensure complete safety and 24-hour supervision and line of site observation of all occupants. Additionally, we will ensure that the arrangement of showers, toilets and personal care stations are compliant with facility occupant and relevant ADA ratios. All needed supplies will be provided.

SLS and DRC's experience and capabilities with the provision of emergency supplies and logistics includes, but is not limited to, the following:

- 🌐 Emergency power generators
- 🌐 Temporary satellite communications
- 🌐 Temporary sanitary facilities
- 🌐 Reefer and refrigerator container with ice delivery
- 🌐 Potable water truck and drinking water
- 🌐 Mobile fleet repair facilities, technicians, and mechanics
- 🌐 Temporary signage and traffic control
- 🌐 Mobile food and water distribution site, tents, and furnishings, inclusive of operation and staffing
- 🌐 Demolition of structures
- 🌐 Emergency temporary dry-in of facilities
- 🌐 Temporary security
- 🌐 Temporary lighting
- 🌐 Emergency cleaning of stormwater catch basins, culverts and wastewater appurtenances
- 🌐 Temporary fueling facilities/equipment, inclusive of storage and dispensing
- 🌐 Rental of various types of equipment (i.e. loaders, dump trucks, etc) with operators
- 🌐 Temporary fencing
- 🌐 Materials

DRC has no exceptions to the RFP or the sample agreement.

DISCLOSURE OF OWNERSHIP INTEREST AFFIDAVIT

**TO: TOWN OF SOUTHWEST RANCHES
OFFICIALLY DESIGNATED REPRESENTATIVE**

STATE OF ~~FLORIDA~~ LOUISIANA
COUNTY OF Jefferson
Parish

BEFORE ME, the undersigned authority, this day personally appeared
Kristy Fuentes, hereinafter referred to as “Affiant,” who being by me first
duly sworn, under oath, deposes and states as follows:

1. Affiant appears herein as:

[] an individual or

☒ the Vice President, Treasurer, Secretary of DRC Emergency Services, LLC.

[position—e.g., sole proprietor, president, partner, etc.] [name & type of entity—e.g., ABC Corp., XYZ Ltd. Partnership, etc.]. The Affiant or the entity the Affiant represents herein seeks to do business with the Town of Southwest Ranches through its the Town Council.

2. Affiant’s address is: 111 Veterans Blvd. Suite 1420 Metairie, LA 70005

3. Attached hereto as an appendix is a complete listing of the names and addresses of every person or entity having a five percent (5%) or greater interest in the Affiant’s corporation, partnership, or other principal. Disclosure does not apply to profit corporations, government agencies, or to an individual’s or entity’s interest in any entity registered with the Federal Securities Exchange Commission or registered pursuant to Chapter 517, Florida Statutes, whose interest is for sale to the general public.

4. Affiant acknowledges that this Affidavit is given to comply with the Town of Southwest Ranches’ policy, and will be relied upon by the Town of Southwest Ranches. Affiant further acknowledges that he or she is authorized to execute this document on behalf of the entity identified in paragraph one, if any.

5. Affiant further states that Affiant is familiar with the nature of an oath and with the penalties provided by the laws of the State of Florida for falsely swearing to statements under oath.

RFP NO. 25-10

DRUG FREE WORKPLACE

Proposer must certify that they will provide a drug-free workplace. In order to have a drug-free workplace program, a business shall:

- 1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
- 2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
- 3) Give each employee engaged in providing the commodities or contractual services that are under Proposal a copy of the statement specified in subsection (1).
- 4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under Proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction or plea.
- 5) Impose a sanction on (or require the satisfactory participation in a drug abuse assistance or rehabilitation program, if such is available in the employee's community), any employee who is so convicted or takes a plea.
- 6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

PROPOSER'S SIGNATURE:

Kristy Fuentes - Vice President, Treasurer, Secretary

PROPOSER FIRM: DRC Emergency Services, LLC

**SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(a) FLORIDA
STATUTES ON PUBLIC ENTITY CRIMES**

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. This sworn statement is submitted to the Town of Southwest Ranches, Florida
by Kristy Fuentes - Vice President, Treasurer, Secretary
for DRC Emergency Services, LLC
whose business address is 111 Veterans Blvd. Suite 1420 Metairie, LA 70005

and (if applicable) its Federal Employer Identification Number (FEIN) is 63-1283729

2. I understand that a “public entity crime” as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that “convicted” or “conviction” as defined in Para. 287.133(1) (b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an “affiliate” as defined in Para. 287.133(1) (a), Florida Statutes, means:

(i). A predecessor or successor of a person convicted of a public entity crime; or

(ii). An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term “affiliate” includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm’s length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

TOWN OF SOUTHWEST RANCHES, FLORIDA
DISASTER DEBRIS REMOVAL AND EMERGENCY LOGISTICAL SERVICES
RFP NO. 25-10

5. I understand that a “person” as defined in Para. 287.133(1) (e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which Proposals or applies to Proposal on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term “person” includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. The statement which I have marked below is true in relation to the entity submitting this sworn statement. (Indicate which statement applies.)

☒ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

☐ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (Attach a copy of the final order)

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR CATEGORY TWO, OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

ANTI-LOBBYING CERTIFICATION FORM

1. The prospective participant certifies to the best of his or her knowledge and belief, that:

a. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

2. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

3. The prospective participant also agrees by submitting its bid or proposal that the participant shall require that the language of this certification be included in all lower tier subcontracts, which exceed \$100,000 and that all such recipients shall certify and disclose accordingly.

LETTER OF BONDABILITY + ATTACHMENT

The successful Proposer shall post a Payment and Performance Bond for the performance and prompt payment to all persons supplying labor and material in the execution of the work to be performed under this contract and on any/or all duly authorized modifications hereof.

A. The Payment and Performance Bond shall be submitted within three (3) business days of the issuance of a Notice to Proceed (NTP) unless otherwise approved in writing and shall be the sum equal to one hundred percent (100%) of the contract amount, plus adjustments thereto, unless otherwise specified.

B. The bond shall be in force for a minimum period of one (1) year from the date of the original execution by the Bond Surety.

- 1) If the bond is on an annual coverage basis, renewal for each succeeding year shall be submitted to the Town thirty (30) days prior to the termination date of the existing Payment and Performance Bond. The Performance Bond must be executed by a surety company or recognized standing to do business in the State of Florida and having a resident agent.
- 2) The Proposer must have a Financial Size Categories (FSC) rating of no less than "A-" by the latest edition of Best's Key Rating Guide, or acceptance of insurance company that holds a valid Florida Certificate of Authority issued by the State of Florida, Department of Insurance, and are members of the Florida Guarantee Fund.
- 3) Acknowledgement and agreement is given by both parties that the amount herein set for the Payment and Performance Bond is not intended to be nor shall be deemed to be in the nature of liquidated damages nor is it intended to limit the liability of the Contractor.
- 4) The Town of Southwest Ranches will provide the Town's Standard Payment and Performance Bond Form to successful Proposer.
- 5) **ATTACH Letter of Bondability from Proposer's Financial Institution and/or Surety Company to this form.**

PROPOSER CONFIRMATION OF QUALIFICATIONS

The Contract will be awarded only to a responsible and eligible Proposer, qualified by experience and capable of providing required insurance, and bonds and in a financial position to do the Work specified within the Request for Proposals, and which can complete the Work within the time schedule specified.

At the time of the Proposal, the Proposer shall hold all qualification certificates and licenses required to be held by the Contractor by Florida Statutes or ordinances of the Town of Southwest Ranches and Broward County in order to perform the Work which is the subject of this Request for Proposals.

All license, certificate and experience requirements must be met by the Proposer (as opposed to the Subcontractor) at the time of Proposal submission. Proposals submitted by Proposers who do not directly hold required licenses and certificates or who rely on another Contractor to meet the license, certificate or experience criteria will be rejected. By executing this Form and submitting its Proposal, Proposer represents that it meets the requirements set forth above, and as set forth in the Proposal Documents, and acknowledges and understands that such representation is material and that the Town shall be relying on this representation with respect to a Contract award.

Addendum #1

RFP No. 25-10 Disaster Debris Removal and Emergency Logistical Services

Clarification:

"Strikethrough" text indicates language has been eliminated, "bolded and underlined" text indicates updated/added language:

PRICE SCHEDULE

Part B: TASK AND FEE UNIT SCHEDULE

3. On-site Chipping (as per Section **3.4.12** ~~5-12~~) to include Loading and Hauling Debris from Public Property and Rights-of-Way to a Final Disposal Site per Cubic Yard

Question and Answer (4 of 4)

- 1. Is it possible to acquire the bid tab from the most recently awarded contract for the city.**

RESPONSE: The Town does not have a past tabulation as the Town had been accessing a neighbor entity's competitive award for this need (ref Town of Davie RFP B-17-57). Thankfully, we did not have to activate the contract during that duration of time.

- 2. Given the different costs of marine-based and land-based equipment for waterway debris removal, will the city consider providing two separate line items for waterway debris: one for marine-based removal and one for land-based removal?**

RESPONSE: This shouldn't be necessary. Our local secondary drainage districts are responsible for the maintenance of all secondary canals within the Town. That includes debris removal within the canals in an emergency event.

- 3. There is no line item for compaction of C&D debris, would the town consider adding one?**

RESPONSE: No.

- 4. Are the structures to be demolished to be assumed to be RACM or non_RACM? Would the City consider allowing pricing for both RACM and non-RACM structures?**

RESPONSE: Yes, respondents can provide pricing for both RACM and non-RACM.

W-9

INSERT IRS FORM W – 9

**Must be the current IRS form version, signed, dated
and legible W-9**

<https://www.irs.gov/pub/irs-pdf/fw9.pdf>

Request for Taxpayer Identification Number and Certification

Go to www.irs.gov/FormW9 for instructions and the latest information.

Give form to the
requester. Do not
send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type.
See Specific Instructions on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)	
DRC Emergency Services, LLC	
2 Business name/disregarded entity name, if different from above.	
3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only one of the following seven boxes.	
<input type="checkbox"/> Individual/sole proprietor <input type="checkbox"/> C corporation <input type="checkbox"/> S corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Trust/estate	
<input checked="" type="checkbox"/> LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) P	
Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.	
<input type="checkbox"/> Other (see instructions)	
3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions <input type="checkbox"/>	
4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):	
Exempt payee code (if any) _____	
Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) _____	
(Applies to accounts maintained outside the United States.)	
5 Address (number, street, and apt. or suite no.). See instructions.	Requester's name and address (optional)
6702 Broadway Street	
6 City, state, and ZIP code	
Galveston, TX 77554	
7 List account number(s) here (optional)	

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number										
				-				-		
or										
Employer identification number										
6	3	-	1	2	8	3	7	2	9	

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here	Signature of U.S. person	Date
		3/28/25

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

Re: RFP NO. 25-10 ; DISASTER DEBRIS REMOVAL AND EMERGENCY LOGISTICAL SERVICES

The General Liability, Automobile and Excess policies contain blanket Additional Insured endorsements in favor of all parties where required by a written contract. The General Liability, Automobile, Workers' Compensation and Excess policies contain blanket Waiver of Subrogation endorsements in favor of all parties where required by written contract. Coverage is primary and non-contributory as respects to the General Liability, Automobile and Excess Liability policies as required by written contract. Additional Insured, Waiver of Subrogation and Primary and non-contributory wording is limited to the extent of the policy terms, conditions and exclusions. Excess coverages follow form. In the event of cancellation by the insurance companies, the policies have been endorsed to provide (30) days' Notice of Cancellation (except for non-payment) to the certificate holder shown below.

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. Section III – Who Is An Insured within the Common Provisions is amended to include as an insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for “bodily injury” or “property damage” caused, in whole or in part, by “your work” at the location designated and described in the schedule of this endorsement performed for that additional insured and included in the “products-completed operations hazard”.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

**AMENDED WAIVER OF TRANSFER OF RIGHTS
OF RECOVERY AGAINST OTHERS TO US**

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
CONTRACTORS POLLUTION LIABILITY COVERAGE PART
ERRORS AND OMISSIONS LIABILITY COVERAGE PART
THIRD PARTY POLLUTION LIABILITY COVERAGE PART
ONSITE CLEANUP COVERAGE PART

SCHEDULE

Name of Person(s) or Organization(s)
Blanket when specifically required in a written contract with the named insured.

SECTION VI – COMMON CONDITIONS, item 17. Transfer Of Rights of Recovery Against Others To Us
within the Common Provisions is amended by the addition of the following:

Solely as respects the person(s) or organization(s) indicated in the Schedule shown above, we waive any right of recovery we may have against the person(s) or organization(s) indicated in the Schedule shown above because of payments we make for “damages” arising out of your ongoing operations or “your work” performed under a written contract with that person(s) or organization(s) and included in the “products-completed operations hazard”.

However, this waiver shall not apply to “damages” resulting from the sole negligence of the person(s) or organization(s) indicated in the Schedule shown above.

ALL OTHER TERMS AND CONDITIONS OF THE POLICY REMAIN UNCHANGED.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

LIMITED NOTICE OF CANCELLATION ENDORSEMENT

This endorsement modifies insurance provided under the following:

**COMMERCIAL GENERAL LIABILITY COVERAGE PART
CONTRACTORS POLLUTION LIABILITY COVERAGE PART
ERRORS AND OMISSIONS LIABILITY COVERAGE PART
ONSITE CLEANUP COVERAGE PART
THIRD PARTY POLLUTION LIABILITY COVERAGE PART**

In consideration of the premium charged and solely with respect to the coverage parts shown above, it is hereby agreed that the **Common Provisions**, Section **VI – Common Conditions** is amended by the addition of the following:

Limited Notice Of Cancellation

In the event that we cancel this Policy for any reason other than non-payment of premium and;

- a.** The effective date of cancellation is prior to the expiration date of this Policy; and
- b.** You are under an existing written contractual obligation to notify a certificate holder when this Policy is cancelled and have provided to us, either directly or through your broker of record, the email address of a contact at each such certificate holder; and
- c.** We received this information after you received notice of cancellation of this Policy and prior to the effective date of cancellation, via an electronic spreadsheet that is acceptable to us,

We will provide notice of cancellation via email to each such certificate holder within thirty (30) days of your providing such information to us. Proof of our emailing the notice of cancellation, using the information provided by you, will serve as evidence that we have satisfied our obligations under this condition.

ALL OTHER TERMS AND CONDITIONS OF THE POLICY REMAIN UNCHANGED.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

PRIMARY AND NON-CONTRIBUTORY ADDITIONAL INSURED
WITH WAIVER OF SUBROGATION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
CONTRACTORS POLLUTION LIABILITY COVERAGE PART
ERRORS AND OMISSIONS LIABILITY COVERAGE PART
THIRD PARTY POLLUTION LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) or Organization(s)
Blanket when specifically required in a written contract with the named insured.

- A. **SECTION III – WHO IS AN INSURED** within the Common Provisions is amended to include as an additional insured the person(s) or organization(s) indicated in the Schedule shown above, but solely with respect to “claims” caused in whole or in part, by “your work” for that person or organization performed by you, or by those acting on your behalf.
- This insurance shall be primary and non-contributory, but only in the event of a named insured’s sole negligence.
- B. We waive any right of recovery we may have against the person(s) or organization(s) indicated in the Schedule shown above because of payments we make for “damages” arising out of “your work” performed under a designated project or contract with that person(s) or organization(s).
- C. This Endorsement does not reinstate or increase the Limits of Insurance applicable to any “claim” to which the coverage afforded by this Endorsement applies.

ALL OTHER TERMS AND CONDITIONS OF THE POLICY REMAIN UNCHANGED.

44 C.F.R. PART 18 - CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, DRC Emergency Services, LLC, certifies or affirms the truthfulness and Accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

INSERT E-VERIFY MEMORANDUM OF UNDERSTANDING

PROVIDE PROOF OF E-VERIFY REGISTRATION

- a) Page showing USCIS verified electronic approval.
- b) Page listing Company name & EIN number, matching W9 submitted.

To Enroll in E-Verify, Go to <https://idp.uscis.gov/enroll/Everify> - and click on [I Agree] to register, save registration as a PDF document and include memorandum of Understanding document with this bid.

To access your Company's MOU:

1. Log in to your Company's E-Verify Account, Click on My Company Profile/Account (right upper section of the main page)
2. Scroll down on the following screen for the link view/print MOU.

DO NOT INCLUDE MOU OF COMPANY DIFFERENT TO W9 SUBMITTED.

E-Verify Information:

Beginning January 1, 2021, every public employer, contractor, and subcontractor shall register with and use the E-Verify system to verify the work authorization status of all newly hired employees. A public employer, contractor, or subcontractor may not enter into a contract unless each party to the contract registers with and uses the E-Verify system.

1. If a contractor enters into a contract with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien.
2. The contractor shall maintain a copy of such affidavit for the duration of the contract. In accordance with F.S. 448.095 Contractor/Contractor acknowledges and agrees to the following:
 - a) Shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Vendor/Contractor during the term of the contract; and
 - b) Shall expressly require any subcontractors performing work or providing services pursuant to the state contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the contract term.

**THE E-VERIFY
MEMORANDUM OF UNDERSTANDING
FOR EMPLOYERS**

**ARTICLE I
PURPOSE AND AUTHORITY**

The parties to this agreement are the Department of Homeland Security (DHS) and the DRC Emergency Services, LLC (Employer). The purpose of this agreement is to set forth terms and conditions which the Employer will follow while participating in E-Verify.

E-Verify is a program that electronically confirms an employee's eligibility to work in the United States after completion of Form I-9, Employment Eligibility Verification (Form I-9). This Memorandum of Understanding (MOU) explains certain features of the E-Verify program and describes specific responsibilities of the Employer, the Social Security Administration (SSA), and DHS.

Authority for the E-Verify program is found in Title IV, Subtitle A, of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, 110 Stat. 3009, as amended (8 U.S.C. § 1324a note). The Federal Acquisition Regulation (FAR) Subpart 22.18, "Employment Eligibility Verification" and Executive Order 12989, as amended, provide authority for Federal contractors and subcontractors (Federal contractor) to use E-Verify to verify the employment eligibility of certain employees working on Federal contracts.

**ARTICLE II
RESPONSIBILITIES**

A. RESPONSIBILITIES OF THE EMPLOYER

1. The Employer agrees to display the following notices supplied by DHS in a prominent place that is clearly visible to prospective employees and all employees who are to be verified through the system:
 - a. Notice of E-Verify Participation
 - b. Notice of Right to Work
2. The Employer agrees to provide to the SSA and DHS the names, titles, addresses, and telephone numbers of the Employer representatives to be contacted about E-Verify. The Employer also agrees to keep such information current by providing updated information to SSA and DHS whenever the representatives' contact information changes.
3. The Employer agrees to grant E-Verify access only to current employees who need E-Verify access. Employers must promptly terminate an employee's E-Verify access if the employer is separated from the company or no longer needs access to E-Verify.

Company ID Number: 99249

4. The Employer agrees to become familiar with and comply with the most recent version of the E-Verify User Manual.

5. The Employer agrees that any Employer Representative who will create E-Verify cases will complete the E-Verify Tutorial before that individual creates any cases.

a. The Employer agrees that all Employer representatives will take the refresher tutorials when prompted by E-Verify in order to continue using E-Verify. Failure to complete a refresher tutorial will prevent the Employer Representative from continued use of E-Verify.

6. The Employer agrees to comply with current Form I-9 procedures, with two exceptions:

a. If an employee presents a "List B" identity document, the Employer agrees to only accept "List B" documents that contain a photo. (List B documents identified in 8 C.F.R. § 274a.2(b)(1)(B)) can be presented during the Form I-9 process to establish identity.) If an employee objects to the photo requirement for religious reasons, the Employer should contact E-Verify at 888-464-4218.

b. If an employee presents a DHS Form I-551 (Permanent Resident Card), Form I-766 (Employment Authorization Document), or U.S. Passport or Passport Card to complete Form I-9, the Employer agrees to make a photocopy of the document and to retain the photocopy with the employee's Form I-9. The Employer will use the photocopy to verify the photo and to assist DHS with its review of photo mismatches that employees contest. DHS may in the future designate other documents that activate the photo screening tool.

Note: Subject only to the exceptions noted previously in this paragraph, employees still retain the right to present any List A, or List B and List C, document(s) to complete the Form I-9.

7. The Employer agrees to record the case verification number on the employee's Form I-9 or to print the screen containing the case verification number and attach it to the employee's Form I-9.

8. The Employer agrees that, although it participates in E-Verify, the Employer has a responsibility to complete, retain, and make available for inspection Forms I-9 that relate to its employees, or from other requirements of applicable regulations or laws, including the obligation to comply with the antidiscrimination requirements of section 274B of the INA with respect to Form I-9 procedures.

a. The following modified requirements are the only exceptions to an Employer's obligation to not employ unauthorized workers and comply with the anti-discrimination provision of the INA: (1) List B identity documents must have photos, as described in paragraph 6 above; (2) When an Employer confirms the identity and employment eligibility of newly hired employee using E-Verify procedures, the Employer establishes a rebuttable presumption that it has not violated section 274A(a)(1)(A) of the Immigration and Nationality Act (INA) with respect to the hiring of that employee; (3) If the Employer receives a final nonconfirmation for an employee, but continues to employ that person, the Employer must notify DHS and the Employer is subject to a civil money penalty between \$550 and \$1,100 for each failure to notify DHS of continued employment following a final nonconfirmation; (4) If the Employer continues to employ an employee after receiving a final nonconfirmation, then the Employer is subject to a rebuttable presumption that it has knowingly

Company ID Number: 99249

employed an unauthorized alien in violation of section 274A(a)(1)(A); and (5) no E-Verify participant is civilly or criminally liable under any law for any action taken in good faith based on information provided through the E-Verify.

b. DHS reserves the right to conduct Form I-9 compliance inspections, as well as any other enforcement or compliance activity authorized by law, including site visits, to ensure proper use of E-Verify.

9. The Employer is strictly prohibited from creating an E-Verify case before the employee has been hired, meaning that a firm offer of employment was extended and accepted and Form I-9 was completed. The Employer agrees to create an E-Verify case for new employees within three Employer business days after each employee has been hired (after both Sections 1 and 2 of Form I-9 have been completed), and to complete as many steps of the E-Verify process as are necessary according to the E-Verify User Manual. If E-Verify is temporarily unavailable, the three-day time period will be extended until it is again operational in order to accommodate the Employer's attempting, in good faith, to make inquiries during the period of unavailability.

10. The Employer agrees not to use E-Verify for pre-employment screening of job applicants, in support of any unlawful employment practice, or for any other use that this MOU or the E-Verify User Manual does not authorize.

11. The Employer must use E-Verify for all new employees. The Employer will not verify selectively and will not verify employees hired before the effective date of this MOU. Employers who are Federal contractors may qualify for exceptions to this requirement as described in Article II.B of this MOU.

12. The Employer agrees to follow appropriate procedures (see Article III below) regarding tentative nonconfirmations. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending. Further, when employees contest a tentative nonconfirmation based upon a photo mismatch, the Employer must take additional steps (see Article III.B. below) to contact DHS with information necessary to resolve the challenge.

13. The Employer agrees not to take any adverse action against an employee based upon the employee's perceived employment eligibility status while SSA or DHS is processing the verification request unless the Employer obtains knowledge (as defined in 8 C.F.R. § 274a.1(l)) that the employee is not work authorized. The Employer understands that an initial inability of the SSA or DHS automated verification system to verify work authorization, a tentative nonconfirmation, a case in continuance (indicating the need for additional time for the government to resolve a case), or the finding of a photo mismatch, does not establish, and should not be interpreted as, evidence that the employee is not work authorized. In any of such cases, the employee must be provided a full and fair opportunity to contest the finding, and if he or she does so, the employee may not be terminated or suffer any adverse employment consequences based upon the employee's perceived employment eligibility status

Company ID Number: 99249

(including denying, reducing, or extending work hours, delaying or preventing training, requiring an employee to work in poorer conditions, withholding pay, refusing to assign the employee to a Federal contract or other assignment, or otherwise assuming that he or she is unauthorized to work) until and unless secondary verification by SSA or DHS has been completed and a final nonconfirmation has been issued. If the employee does not choose to contest a tentative nonconfirmation or a photo mismatch or if a secondary verification is completed and a final nonconfirmation is issued, then the Employer can find the employee is not work authorized and terminate the employee's employment. Employers or employees with questions about a final nonconfirmation may call E-Verify at 1-888-464-4218 (customer service) or 1-888-897-7781 (worker hotline).

14. The Employer agrees to comply with Title VII of the Civil Rights Act of 1964 and section 274B of the INA as applicable by not discriminating unlawfully against any individual in hiring, firing, employment eligibility verification, or recruitment or referral practices because of his or her national origin or citizenship status, or by committing discriminatory documentary practices. The Employer understands that such illegal practices can include selective verification or use of E-Verify except as provided in part D below, or discharging or refusing to hire employees because they appear or sound "foreign" or have received tentative nonconfirmations. The Employer further understands that any violation of the immigration-related unfair employment practices provisions in section 274B of the INA could subject the Employer to civil penalties, back pay awards, and other sanctions, and violations of Title VII could subject the Employer to back pay awards, compensatory and punitive damages. Violations of either section 274B of the INA or Title VII may also lead to the termination of its participation in E-Verify. If the Employer has any questions relating to the anti-discrimination provision, it should contact OSC at 1-800-255-8155 or 1-800-237-2515 (TDD).

15. The Employer agrees that it will use the information it receives from E-Verify only to confirm the employment eligibility of employees as authorized by this MOU. The Employer agrees that it will safeguard this information, and means of access to it (such as PINS and passwords), to ensure that it is not used for any other purpose and as necessary to protect its confidentiality, including ensuring that it is not disseminated to any person other than employees of the Employer who are authorized to perform the Employer's responsibilities under this MOU, except for such dissemination as may be authorized in advance by SSA or DHS for legitimate purposes.

16. The Employer agrees to notify DHS immediately in the event of a breach of personal information. Breaches are defined as loss of control or unauthorized access to E-Verify personal data. All suspected or confirmed breaches should be reported by calling 1-888-464-4218 or via email at E-Verify@dhs.gov. Please use "Privacy Incident – Password" in the subject line of your email when sending a breach report to E-Verify.

17. The Employer acknowledges that the information it receives from SSA is governed by the Privacy Act (5 U.S.C. § 552a(i)(1) and (3)) and the Social Security Act (42 U.S.C. 1306(a)). Any person who obtains this information under false pretenses or uses it for any purpose other than as provided for in this MOU may be subject to criminal penalties.

18. The Employer agrees to cooperate with DHS and SSA in their compliance monitoring and evaluation of E-Verify, which includes permitting DHS, SSA, their contractors and other agents, upon

Company ID Number: 99249

reasonable notice, to review Forms I-9 and other employment records and to interview it and its employees regarding the Employer's use of E-Verify, and to respond in a prompt and accurate manner to DHS requests for information relating to their participation in E-Verify.

19. The Employer shall not make any false or unauthorized claims or references about its participation in E-Verify on its website, in advertising materials, or other media. The Employer shall not describe its services as federally-approved, federally-certified, or federally-recognized, or use language with a similar intent on its website or other materials provided to the public. Entering into this MOU does not mean that E-Verify endorses or authorizes your E-Verify services and any claim to that effect is false.

20. The Employer shall not state in its website or other public documents that any language used therein has been provided or approved by DHS, USCIS or the Verification Division, without first obtaining the prior written consent of DHS.

21. The Employer agrees that E-Verify trademarks and logos may be used only under license by DHS/USCIS (see [M-795 \(Web\)](#)) and, other than pursuant to the specific terms of such license, may not be used in any manner that might imply that the Employer's services, products, websites, or publications are sponsored by, endorsed by, licensed by, or affiliated with DHS, USCIS, or E-Verify.

22. The Employer understands that if it uses E-Verify procedures for any purpose other than as authorized by this MOU, the Employer may be subject to appropriate legal action and termination of its participation in E-Verify according to this MOU.

B. RESPONSIBILITIES OF FEDERAL CONTRACTORS

1. If the Employer is a Federal contractor with the FAR E-Verify clause subject to the employment verification terms in Subpart 22.18 of the FAR, it will become familiar with and comply with the most current version of the E-Verify User Manual for Federal Contractors as well as the E-Verify Supplemental Guide for Federal Contractors.

2. In addition to the responsibilities of every employer outlined in this MOU, the Employer understands that if it is a Federal contractor subject to the employment verification terms in Subpart 22.18 of the FAR it must verify the employment eligibility of any "employee assigned to the contract" (as defined in FAR 22.1801). Once an employee has been verified through E-Verify by the Employer, the Employer may not create a second case for the employee through E-Verify.

a. An Employer that is not enrolled in E-Verify as a Federal contractor at the time of a contract award must enroll as a Federal contractor in the E-Verify program within 30 calendar days of contract award and, within 90 days of enrollment, begin to verify employment eligibility of new hires using E-Verify. The Employer must verify those employees who are working in the United States, whether or not they are assigned to the contract. Once the Employer begins verifying new hires, such verification of new hires must be initiated within three business days after the hire date. Once enrolled in E-Verify as a Federal contractor, the Employer must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.

Company ID Number: 99249

b. Employers enrolled in E-Verify as a Federal contractor for 90 days or more at the time of a contract award must use E-Verify to begin verification of employment eligibility for new hires of the Employer who are working in the United States, whether or not assigned to the contract, within three business days after the date of hire. If the Employer is enrolled in E-Verify as a Federal contractor for 90 calendar days or less at the time of contract award, the Employer must, within 90 days of enrollment, begin to use E-Verify to initiate verification of new hires of the contractor who are working in the United States, whether or not assigned to the contract. Such verification of new hires must be initiated within three business days after the date of hire. An Employer enrolled as a Federal contractor in E-Verify must begin verification of each employee assigned to the contract within 90 calendar days after date of contract award or within 30 days after assignment to the contract, whichever is later.

c. Federal contractors that are institutions of higher education (as defined at 20 U.S.C. 1001(a)), state or local governments, governments of Federally recognized Indian tribes, or sureties performing under a takeover agreement entered into with a Federal agency under a performance bond may choose to only verify new and existing employees assigned to the Federal contract. Such Federal contractors may, however, elect to verify all new hires, and/or all existing employees hired after November 6, 1986. Employers in this category must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.

d. Upon enrollment, Employers who are Federal contractors may elect to verify employment eligibility of all existing employees working in the United States who were hired after November 6, 1986, instead of verifying only those employees assigned to a covered Federal contract. After enrollment, Employers must elect to verify existing staff following DHS procedures and begin E-Verify verification of all existing employees within 180 days after the election.

e. The Employer may use a previously completed Form I-9 as the basis for creating an E-Verify case for an employee assigned to a contract as long as:

- i. That Form I-9 is complete (including the SSN) and complies with Article II.A.6,
- ii. The employee's work authorization has not expired, and
- iii. The Employer has reviewed the Form I-9 information either in person or in communications with the employee to ensure that the employee's Section 1, Form I-9 attestation has not changed (including, but not limited to, a lawful permanent resident alien having become a naturalized U.S. citizen).

f. The Employer shall complete a new Form I-9 consistent with Article II.A.6 or update the previous Form I-9 to provide the necessary information if:

- i. The Employer cannot determine that Form I-9 complies with Article II.A.6,
- ii. The employee's basis for work authorization as attested in Section 1 has expired or changed, or
- iii. The Form I-9 contains no SSN or is otherwise incomplete.

Note: If Section 1 of Form I-9 is otherwise valid and up-to-date and the form otherwise complies with

Company ID Number: 99249

Article II.C.5, but reflects documentation (such as a U.S. passport or Form I-551) that expired after completing Form I-9, the Employer shall not require the production of additional documentation, or use the photo screening tool described in Article II.A.5, subject to any additional or superseding instructions that may be provided on this subject in the E-Verify User Manual.

g. The Employer agrees not to require a second verification using E-Verify of any assigned employee who has previously been verified as a newly hired employee under this MOU or to authorize verification of any existing employee by any Employer that is not a Federal contractor based on this Article.

3. The Employer understands that if it is a Federal contractor, its compliance with this MOU is a performance requirement under the terms of the Federal contract or subcontract, and the Employer consents to the release of information relating to compliance with its verification responsibilities under this MOU to contracting officers or other officials authorized to review the Employer's compliance with Federal contracting requirements.

C. RESPONSIBILITIES OF SSA

1. SSA agrees to allow DHS to compare data provided by the Employer against SSA's database. SSA sends DHS confirmation that the data sent either matches or does not match the information in SSA's database.

2. SSA agrees to safeguard the information the Employer provides through E-Verify procedures. SSA also agrees to limit access to such information, as is appropriate by law, to individuals responsible for the verification of Social Security numbers or responsible for evaluation of E-Verify or such other persons or entities who may be authorized by SSA as governed by the Privacy Act (5 U.S.C. § 552a), the Social Security Act (42 U.S.C. 1306(a)), and SSA regulations (20 CFR Part 401).

3. SSA agrees to provide case results from its database within three Federal Government work days of the initial inquiry. E-Verify provides the information to the Employer.

4. SSA agrees to update SSA records as necessary if the employee who contests the SSA tentative nonconfirmation visits an SSA field office and provides the required evidence. If the employee visits an SSA field office within the eight Federal Government work days from the date of referral to SSA, SSA agrees to update SSA records, if appropriate, within the eight-day period unless SSA determines that more than eight days may be necessary. In such cases, SSA will provide additional instructions to the employee. If the employee does not visit SSA in the time allowed, E-Verify may provide a final nonconfirmation to the employer.

Note: If an Employer experiences technical problems, or has a policy question, the employer should contact E-Verify at 1-888-464-4218.

D. RESPONSIBILITIES OF DHS

1. DHS agrees to provide the Employer with selected data from DHS databases to enable the Employer to conduct, to the extent authorized by this MOU:

a. Automated verification checks on alien employees by electronic means, and

Company ID Number: 99249

- b. Photo verification checks (when available) on employees.
2. DHS agrees to assist the Employer with operational problems associated with the Employer's participation in E-Verify. DHS agrees to provide the Employer names, titles, addresses, and telephone numbers of DHS representatives to be contacted during the E-Verify process.
3. DHS agrees to provide to the Employer with access to E-Verify training materials as well as an E-Verify User Manual that contain instructions on E-Verify policies, procedures, and requirements for both SSA and DHS, including restrictions on the use of E-Verify.
4. DHS agrees to train Employers on all important changes made to E-Verify through the use of mandatory refresher tutorials and updates to the E-Verify User Manual. Even without changes to E-Verify, DHS reserves the right to require employers to take mandatory refresher tutorials.
5. DHS agrees to provide to the Employer a notice, which indicates the Employer's participation in E-Verify. DHS also agrees to provide to the Employer anti-discrimination notices issued by the Office of Special Counsel for Immigration-Related Unfair Employment Practices (OSC), Civil Rights Division, U.S. Department of Justice.
6. DHS agrees to issue each of the Employer's E-Verify users a unique user identification number and password that permits them to log in to E-Verify.
7. DHS agrees to safeguard the information the Employer provides, and to limit access to such information to individuals responsible for the verification process, for evaluation of E-Verify, or to such other persons or entities as may be authorized by applicable law. Information will be used only to verify the accuracy of Social Security numbers and employment eligibility, to enforce the INA and Federal criminal laws, and to administer Federal contracting requirements.
8. DHS agrees to provide a means of automated verification that provides (in conjunction with SSA verification procedures) confirmation or tentative nonconfirmation of employees' employment eligibility within three Federal Government work days of the initial inquiry.
9. DHS agrees to provide a means of secondary verification (including updating DHS records) for employees who contest DHS tentative nonconfirmations and photo mismatch tentative nonconfirmations. This provides final confirmation or nonconfirmation of the employees' employment eligibility within 10 Federal Government work days of the date of referral to DHS, unless DHS determines that more than 10 days may be necessary. In such cases, DHS will provide additional verification instructions.

ARTICLE III

REFERRAL OF INDIVIDUALS TO SSA AND DHS

A. REFERRAL TO SSA

1. If the Employer receives a tentative nonconfirmation issued by SSA, the Employer must print the notice as directed by E-Verify. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify

Company ID Number: 99249

case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.

2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.

3. After a tentative nonconfirmation, the Employer will refer employees to SSA field offices only as directed by E-Verify. The Employer must record the case verification number, review the employee information submitted to E-Verify to identify any errors, and find out whether the employee contests the tentative nonconfirmation. The Employer will transmit the Social Security number, or any other corrected employee information that SSA requests, to SSA for verification again if this review indicates a need to do so.

4. The Employer will instruct the employee to visit an SSA office within eight Federal Government work days. SSA will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.

5. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.

6. The Employer agrees not to ask the employee to obtain a printout from the Social Security Administration number database (the Numident) or other written verification of the SSN from the SSA.

B. REFERRAL TO DHS

1. If the Employer receives a tentative nonconfirmation issued by DHS, the Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.

2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.

3. The Employer agrees to refer individuals to DHS only when the employee chooses to contest a tentative nonconfirmation.

4. If the employee contests a tentative nonconfirmation issued by DHS, the Employer will instruct the

Company ID Number: 99249

employee to contact DHS through its toll-free hotline (as found on the referral letter) within eight Federal Government work days.

5. If the Employer finds a photo mismatch, the Employer must provide the photo mismatch tentative nonconfirmation notice and follow the instructions outlined in paragraph 1 of this section for tentative nonconfirmations, generally.

6. The Employer agrees that if an employee contests a tentative nonconfirmation based upon a photo mismatch, the Employer will send a copy of the employee's Form I-551, Form I-766, U.S. Passport, or passport card to DHS for review by:

- a. Scanning and uploading the document, or
- b. Sending a photocopy of the document by express mail (furnished and paid for by the employer).

7. The Employer understands that if it cannot determine whether there is a photo match/mismatch, the Employer must forward the employee's documentation to DHS as described in the preceding paragraph. The Employer agrees to resolve the case as specified by the DHS representative who will determine the photo match or mismatch.

8. DHS will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.

9. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.

ARTICLE IV SERVICE PROVISIONS

A. NO SERVICE FEES

1. SSA and DHS will not charge the Employer for verification services performed under this MOU. The Employer is responsible for providing equipment needed to make inquiries. To access E-Verify, an Employer will need a personal computer with Internet access.

ARTICLE V MODIFICATION AND TERMINATION

A. MODIFICATION

1. This MOU is effective upon the signature of all parties and shall continue in effect for as long as the SSA and DHS operates the E-Verify program unless modified in writing by the mutual consent of all parties.

2. Any and all E-Verify system enhancements by DHS or SSA, including but not limited to E-Verify checking against additional data sources and instituting new verification policies or procedures, will be covered under this MOU and will not cause the need for a supplemental MOU that outlines these changes.

Company ID Number: 99249

B. TERMINATION

1. The Employer may terminate this MOU and its participation in E-Verify at any time upon 30 days prior written notice to the other parties.
2. Notwithstanding Article V, part A of this MOU, DHS may terminate this MOU, and thereby the Employer's participation in E-Verify, with or without notice at any time if deemed necessary because of the requirements of law or policy, or upon a determination by SSA or DHS that there has been a breach of system integrity or security by the Employer, or a failure on the part of the Employer to comply with established E-Verify procedures and/or legal requirements. The Employer understands that if it is a Federal contractor, termination of this MOU by any party for any reason may negatively affect the performance of its contractual responsibilities. Similarly, the Employer understands that if it is in a state where E-Verify is mandatory, termination of this by any party MOU may negatively affect the Employer's business.
3. An Employer that is a Federal contractor may terminate this MOU when the Federal contract that requires its participation in E-Verify is terminated or completed. In such cases, the Federal contractor must provide written notice to DHS. If an Employer that is a Federal contractor fails to provide such notice, then that Employer will remain an E-Verify participant, will remain bound by the terms of this MOU that apply to non-Federal contractor participants, and will be required to use the E-Verify procedures to verify the employment eligibility of all newly hired employees.
4. The Employer agrees that E-Verify is not liable for any losses, financial or otherwise, if the Employer is terminated from E-Verify.

ARTICLE VI PARTIES

- A. Some or all SSA and DHS responsibilities under this MOU may be performed by contractor(s), and SSA and DHS may adjust verification responsibilities between each other as necessary. By separate agreement with DHS, SSA has agreed to perform its responsibilities as described in this MOU.
- B. Nothing in this MOU is intended, or should be construed, to create any right or benefit, substantive or procedural, enforceable at law by any third party against the United States, its agencies, officers, or employees, or against the Employer, its agents, officers, or employees.
- C. The Employer may not assign, directly or indirectly, whether by operation of law, change of control or merger, all or any part of its rights or obligations under this MOU without the prior written consent of DHS, which consent shall not be unreasonably withheld or delayed. Any attempt to sublicense, assign, or transfer any of the rights, duties, or obligations herein is void.
- D. Each party shall be solely responsible for defending any claim or action against it arising out of or related to E-Verify or this MOU, whether civil or criminal, and for any liability wherefrom, including (but not limited to) any dispute between the Employer and any other person or entity regarding the applicability of Section 403(d) of IIRIRA to any action taken or allegedly taken by the Employer.
- E. The Employer understands that its participation in E-Verify is not confidential information and may be disclosed as authorized or required by law and DHS or SSA policy, including but not limited to,

Company ID Number: 99249

Congressional oversight, E-Verify publicity and media inquiries, determinations of compliance with Federal contractual requirements, and responses to inquiries under the Freedom of Information Act (FOIA).

F. The individuals whose signatures appear below represent that they are authorized to enter into this MOU on behalf of the Employer and DHS respectively. The Employer understands that any inaccurate statement, representation, data or other information provided to DHS may subject the Employer, its subcontractors, its employees, or its representatives to: (1) prosecution for false statements pursuant to 18 U.S.C. 1001 and/or; (2) immediate termination of its MOU and/or; (3) possible debarment or suspension.

G. The foregoing constitutes the full agreement on this subject between DHS and the Employer.

To be accepted as an E-Verify participant, you should only sign the Employer's Section of the signature page. If you have any questions, contact E-Verify at 1-888-464-4218.

AFFIDAVIT OF COMPLIANCE WITH FOREIGN ENTITY LAWS

The undersigned, on behalf of the entity listed below ("Entity"), hereby attests under penalty of perjury as follows:

Entity is not owned by the government of a foreign country of concern as defined in Section 287.138, Florida Statutes. (Source: § 287.138(2)(a), Florida Statutes)

The government of a foreign country of concern does not have a controlling interest in Entity. (Source: § 287.138(2)(b), Florida Statutes)

Entity is not organized under the laws of, and does not have a principal place of business in, a foreign country of concern. (Source: § 287.138(2)(c), Florida Statutes)

Entity is not owned or controlled by the government of a foreign country of concern, as defined in Section 692.201, Florida Statutes. (Source: § 288.007(2), Florida Statutes)

Entity is not a partnership, association, corporation, organization, or other combination of persons organized under the laws of or having its principal place of business in a foreign country of concern, as defined in Section 692.201, Florida Statutes, or a subsidiary of such entity. (Source: § 288.007(2), Florida Statutes)

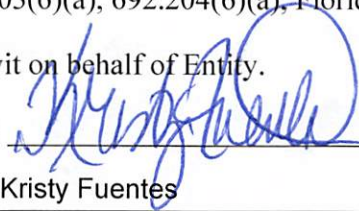

Entity is not a foreign principal, as defined in Section 692.201, Florida Statutes. (Source: § 692.202(5)(a)(1), Florida Statutes)

Entity is in compliance with all applicable requirements of Sections 692.202, 692.203, and 692.204, Florida Statutes.

(Only applicable if purchasing real property) Entity is not a foreign principal prohibited from purchasing the subject real property. Entity is either (a) not a person or entity described in Section 692.204(1)(a), Florida Statutes, or (b) authorized under Section 692.204(2), Florida Statutes, to purchase the subject property. Entity is in compliance with the requirements of Section 692.204, Florida Statutes. (Source: §§ 692.203(6)(a), 692.204(6)(a), Florida Statutes)

The undersigned is authorized to execute this affidavit on behalf of Entity.

**OTHER FEDERAL, STATE AND LOCAL REQUIREMENTS
(2 CFR 200 COMPLIANCE)**

The Contractor must adhere to all requirements and regulations established by the Federal Emergency Management Agency (FEMA), the Federal Highway Administration (FHWA), Florida Department of Transportation (FDOT), Natural Resources Conservation Service (NRCS), U.S. Army Corps of Engineers (USACE) and any other governmental agency with jurisdiction over emergency/disaster response and recovery actions. Notwithstanding anything in this Agreement to the contrary, Contractor also agrees to comply, subject to applicable professional standards, with the provisions of any and all applicable Federal, State, County and Town orders, statutes, ordinances, rules, and regulations which may pertain to the services required under the Agreement, including but not limited to:

A. ACCESS BY THE GRANTEE, SUBGRANTEE, FEDERAL GRANTOR AGENCY AND COMPTROLLER GENERAL

The Contractor shall allow access by the grantee, sub grantee, Federal grantor agency and Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Contractor which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

B. FEDERAL CLEAN AIR AND WATER ACTS

Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387), and will report violations to FEMA and the Regional Office of the Environmental Protection Agency (EPA).

C. CONTRACT WORK HOURS AND SAFETY STANDARDS

The Contractor shall comply with Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3702-3704) as supplemented by Department of Labor regulations (29 CFR Part 5).

D. COMPLIANCE WITH THE COPELAND ANTI-KICKBACK ACT

(1) Contractor. The Contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

(2) Subcontracts. The Contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

(3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.

E. BUY AMERICAN ACT

The Contractor shall comply with all applicable standards, orders, or requirements regarding the Buy American Act.

F. SUSPENSION AND DEBARMENT

Non-federal entities are subject to the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR part 180. These regulations restrict awards, sub-awards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

G. ANTI-LOBBYING

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended), Contractors who apply or bid for an award of \$100,000 or more shall file the required certification (see page 40). Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier-to-tier up to the recipient.

This provision is applicable to all Federal-aid contracts and to all related subcontracts which exceed \$100,000 (49 CFR 20).

H. EQUAL EMPLOYMENT OPPORTUNITY

The Contractor shall comply with Executive Order 11246 of September 24, 1965, entitled "Equal Employment Opportunity," as amended by Executive Order 11375 of October 13, 1967, and as supplemented in Department of Labor regulations (41 CFR Chapter 60). (All construction contracts awarded in excess of \$10,000 by grantees and their contractors or sub-grantees). Additionally, all contractors and subcontractors performing work in connection with this Agreement shall provide equal opportunity for employment because of race, religion, color, age, sex, national origin, sexual preference, disability, or marital status. The aforesaid provision shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in a conspicuous place available for employees and applicants for employment, such notices as may be required by the Dade County Fair Housing and Employment Commission, or other authority having jurisdiction over the Work setting forth the provisions of the nondiscrimination law.

I. NONDISCRIMINATION

During the performance of this Agreement, Contractor agrees to not discriminate against any employee or applicant for employment because of race, religion, color, sex, handicap, marital status, age, or national origin, and will take affirmative action to ensure that they are afforded equal employment opportunities without discrimination. Such action shall be taken with reference to, but not be limited to, recruitment, employment, termination, rates of pay or other forms of

TOWN OF SOUTHWEST RANCHES, FLORIDA
DISASTER DEBRIS REMOVAL AND EMERGENCY LOGISTICAL SERVICES
RFP NO. 25-10

compensation, and selection for training or retraining, including apprenticeship and on-the-job training. By entering into this Agreement with the Town, the Contractor attests that it is not in violation of the Americans with Disabilities Act of 1990 (and related Acts). If the Contractor or any owner, subsidiary or other firm affiliated with or related to the Contractor is found by the responsible enforcement agency or the Town to be in violation of the Act, such violation shall render this Agreement void. This Agreement shall be void if the Contractor submits a false affidavit or the Contractor violates the Act during the term of this Agreement, even if the Contractor was not in violation at the time it submitted its affidavit.

J. OCCUPATIONAL SAFETY AND HEALTH ACT (OSHA)

The Contractor shall comply with OSHA as applicable to this Agreement.

K. ENVIRONMENTAL PROTECTION AGENCY (EPA)

The Contractor shall comply with all laws, rules and regulations promulgated by, for, or related to the EPA as applicable to this Agreement.

L. CONFLICTS OF INTEREST

The Contractor shall comply with "Conflicts of Interest" Section 1-19 of the Broward County Code, and Ordinance 2011-19.

M. FLORIDA BUILDING CODE (FBC)

The Contractor shall comply with all applicable provisions of the Florida Building Code (FBC).

N. VIOLATIONS OF LAW

Notwithstanding any other provision of the Agreement, Contractor shall not be required pursuant to the Agreement to take any action or abstain from taking any action if such action or abstention would, in the good faith determination of the Contractor, constitute a violation of any law or regulation to which Contractor is subject, including, but not limited to, laws and regulations requiring that Contractor conduct its operations in a safe and sound manner.

O. VERIFICATION OF EMPLOYMENT STATUS

Any Contractor/Contractor assigned to perform responsibilities under its contract with a State agency are required to utilize the U.S. Department of Homeland Security's E-Verify system (per the State of Florida Executive Order Number 11-02 "Verification of Employment Status") to verify the employment eligibility of: (a) all persons employed during the contract term by the Contractor to perform employment duties within Florida; and (b) all persons (including subcontractors) assigned by the Contractor to perform work pursuant to the contract with the State agency. U.S. Department of Homeland Security's E-Verify System Affirmation Statement should be completed and submitted to Town for any individuals performing work for Contractor under the Agreement.

P. CONTRACTING WITH SMALL AND MINORITY BUSINESSES, WOMEN'S BUSINESS ENTERPRISES, AND LABOR SURPLUS AREA FIRMS

Contractors shall comply with the requirements of 2 CFR §200.321 as applicable to this Agreement. Contractor's failure or refusal to comply with the provisions of this section shall result in the immediate termination for cause by Town.

TOWN OF SOUTHWEST RANCHES, FLORIDA
DISASTER DEBRIS REMOVAL AND EMERGENCY LOGISTICAL SERVICES
RFP NO. 25-10

Q. PROCUREMENT OF RECOVERED MATERIALS

Contractors shall comply with the requirements of 2 CFR §200.323, as applicable to this Agreement.

R. DAVIS-BACON ACT REQUIREMENTS

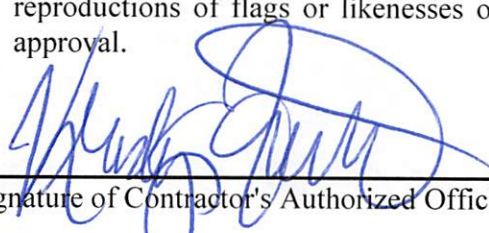

Contractors shall comply with the requirements of the Davis-Bacon Act, as amended (40 U.S.C. §3141-3148), and as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"), as applicable to this Agreement.

S. Program Fraud and False or Fraudulent Statements or Related Acts. The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract.

T. Domestic Preference Requirements. In accordance with the Build America, Buy America Act (BABAA) and FEMA's interim policy, the Contractor shall, to the greatest extent practicable and as permitted by law, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to, iron, steel, manufactured products, and construction materials. All iron and steel products must have all manufacturing processes, from the initial melting stage through the application of coatings, occur in the United States. The Contractor is required to include this domestic preference requirement in all subcontracts and purchase orders for work or products under this contract. Compliance with these provisions is mandatory and subject to verification by the Town and relevant federal agencies. Failure to adhere to these requirements may result in remedies as deemed appropriate by the Town, including but not limited to contract termination or suspension.

U. Prohibition Regarding Covered Telecommunications Equipment or Services. The Contractor is prohibited from using any equipment, system, or service that utilizes covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, during the performance of this contract.

V. DHS Seal, Logo, and Flags. The Contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.
