IFB 25-23

The Town of Southwest Ranches, Florida, will receive sealed bids online via the Demandstar.com E-bidding platform until **11:00 AM, Tuesday, September 30, 2025**, at which time the system will publicly open and the Procurement Officer Christina Semeraro will read the Bidder Name and bid amount submitted:

“IFB No: 25-23 – COUNTRY ESTATES DRAINAGE PROJECT”

The Town is soliciting proposals from qualified and experienced firms for all labor, materials, tools, equipment, machinery, expertise, services, and all else necessary and reasonably inferable from the Contract Documents for proper construction and completion of the Southwest Ranches Country Estates Drainage Improvements project.

The work shall include but not be limited to: drainage improvements such as roadside swales, manholes, catch basins (yard drains), piping, driveway restoration, brush clearing and swale regrading, tree protection and removal, erosion control measures, and site restoration. No work shall be proposed outside of the Town’s right-of-way or outside of the proposed designated drainage easements. All labor, equipment, and materials necessary to construct the improvements described by these Drawings and Project Specifications will be provided by the contractor. Construction of this Project will require close coordination with the Town and Engineer of Record.

Bid specifications, addenda, and exhibits shall be obtained via OpenBids (formerly DemandStar).
