2. Deliver to Town all information, papers, reports and other materials accumulated or generated in performing the contract, whether completed or in progress.

If the termination is for the convenience of Town, Town shall only be liable for payment for services rendered before the effective date of the termination. If the termination is due to the failure of the vendor to fulfill its obligations under the contract, Town may:

1. Require the vendor to deliver any work described in the Notice of Termination.
2. Take over and prosecute the same to completion by contract of otherwise and the vendor shall be liable for any additional cost incurred by Town.

Townwide Parks Level of Service Update 2 Calusa Corners, Sunshine Ranches, and Country Estates Park Playground–Annual Surface Material Replenishment

Department Name	Division Name	Fund	Priority	Fiscal Impact
PROS	Parks, Recreation and Open Space	General	2	\$43,050

Background

The Sunshine Ranches Equestrian Park playground was opened to the public in 2006. The Country Estates Fishing Hole Park playground was opened to the public in 2013. The Calusa Corners Park playground was opened to the public in 2018. Each playground was furnished with loose-fill playground surface material, otherwise known as Engineered Wood Fiber (EWF). This product is widely used due to its durability and relatively low cost.

In Fiscal Year 2023 - 2024, loose-fill surface material was replenished at each location to correct previous inadequate levels and funded at the same rate (\$43,050) of this Proposed FY 2024-2025.

In Fiscal Year 2017/2018, Staff researched costs for conversion to other types of playground surface material, which represented significant costs without significant maintenance costs savings over time.

Justification & Description

This request for continued improved levels of service at Sunshine Ranches Equestrian, Country Estates Fishing Hole, and at Calusa Corners parks is for the annual replenishment of loose-fill playground surface material, Engineered Wood Fiber (EWF).

Surface material is protective and deteriorates over time, becomes displaced and frequently needs trash and debris to be removed. Inadequate maintenance of surface material could result in injuries. Replenishment of surface material should be performed, at minimum, on an annual basis or more frequently as needed.

Cost estimates were established on area calculations and contractors' rates. This improved level of service would allow the Town to replenish surface material once per year.

Funding Source

This will be funded via millage (Truth-In-Millage TRIM). This item will be continued annually.

Alternative / Adverse Impact if not funded

If not funded, surface material levels will revert to below safe operating margins.
