**Discussion**

**19. Dykes Road U-Turn Design - Mayor Breitkreuz**

Mayor Breitkreuz introduced the item as a project he has been working on with Circle S Estates and Mr. John McWilliams, of Kimley Horn and Associates. He stated the project was to address the concerns of illegal U-turns along Dykes Road between SW 49<sup>th</sup> Street and Griffin Road. He called Mr. McWilliams to the podium to present to the Town Council.

Mr. McWilliams thanked the Town Council for having him and stated that the Town Administration and staff asked for his company to provide solutions to alleviate the illegal U-turns along Dykes Road. He presented to the Town Council and suggested extending the median from Griffin Road to the Camp Lingua driveways, the use of "tuff curbs" with flex posts in front of the Camp Lingua

driveway, and creating an “apron”, or widening of the road in front of the Circle S Estates entrance, to allow for legal U-turns.

A discussion ensued with the Town Council, Town Administrator Muñiz, and Town Administrator Poliakoff regarding the issue, and Mayor Breitzkreuz opened the item to public comment.

It was agreed by the Town Council to move forward with the project.

## **20. Party Permits – Council Member Jablonski**

Council Member Jablonski introduced the discussion item as there being an issue with the Town’s party permitting system. He expressed that his concern is people that apply and receive party permits feel that they have “carte blanche” for their parties and play music at the parties too loud. He stated that Town of Davie Police Officers are usually responsible, and sometimes the Town’s Code Compliance Department, for enforcing loud music and parties and can stop parties with loud music that are not permitted, but they do not have the same option for parties with permits. He stated that his idea is to use distance from the permitted residence as method to determine if the music is too loud. He suggested using 300 feet as a basis for the distance model. He called Town resident Michael Spitzer to the podium to provide information to the Town Council regarding sound.

Mr. Spitzer spoke about music and sound traveling in the Town during parties, issues that he has experienced in the Town with music, and different methods that other municipalities have used to address the issue.

A discussion ensued with the Town Council, Town Administrator Muñiz, and Town Administrator Poliakoff regarding the issue, and Mayor Breitzkreuz opened the item to public comment.

Town Council concluded the item and instructed Town Administration to redraft the party permit application with the instructions that the applicant would annotate the location of where the sound would be emitting from the property and the Town would “pin” the area with a radius of 500 feet. The radius area would represent the area and/or neighbors that may be affected by the noise and areas outside the permitted radius would not be allowed. Town Council also advised Town Administration to work with the Town of Davie Police Department on how to enforce the changes.
