AGREEMENT NO. 4600003534

BETWEEN THE

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

AND

TOWN OF SOUTHWEST RANCHES

THIS AGREEMENT is entered into as of 2/9/17 by and between the South Florida Water Management District (**DISTRICT**) and Town of Southwest Ranches (**RECIPIENT**).

WHEREAS, the **DISTRICT** is a government entity created by Chapter 373, Florida Statutes; and

WHEREAS, the **DISTRICT** desires to provide financial assistance to the **RECIPIENT** for the Dykes Road Drainage and Water Quality Project; and

WHEREAS, the **RECIPIENT** warrants and represents that it has no obligation or indebtedness that would impair its ability to fulfill the terms and conditions of this **AGREEMENT**; and

WHEREAS, the Governing Board of the **DISTRICT**, at its September 8, 2016 meeting, approved entering into this **AGREEMENT** with the **RECIPIENT**;

NOW, THEREFORE, in consideration of the covenants and representations set forth herein and other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the parties agree as follows:

1. The **DISTRICT** agrees to contribute funds and the **RECIPIENT** agrees to perform the work set forth in Exhibit "A" attached hereto and made a part hereof, subject to availability of funds and in accordance with their respective authorities for the Dykes Road Drainage and Water Quality Project.
2. The period of performance of this **AGREEMENT** shall commence on October 1, 2016 and shall terminate on October 31, 2018.

3. The total **DISTRICT** contribution for all work completed herein shall not exceed the amount of \$100,000 or 50% of eligible stormwater expenditures for the project as noted in Exhibit B, whichever is less.
4. The **RECIPIENT** shall submit Reimbursement Request Packages as described in the Payment and Deliverables Schedule set forth in Exhibit "B" attached hereto and made a part hereof. Payments by the **DISTRICT** shall be made following receipt and acceptance of the Reimbursement Request Packages by the **DISTRICT's** Project Manager. Reimbursement Request Packages shall adequately demonstrate completion of each Task in accordance with Exhibit "A" and shall include, but not be limited to, a copy of the **RECIPIENT's** invoice and other documentation supporting payment.
5. The **DISTRICT's** payment is a reimbursement of actual eligible expenditures and is therefore contingent on adequate documentation to support actual eligible expenditures within the not-to-exceed **AGREEMENT** funding limitation. The **RECIPIENT** should provide prior written notice to the **DISTRICT's** Project Manager of its decision to apply the unexpended balance toward a subsequent Task. Actual eligible expenditures less than the estimated project cost will result in a reduced final payment per the **AGREEMENT** funding limitation. The **RECIPIENT** is responsible for any additional funds either through local revenues, grants, other appropriations, and/or other funding sources.
6. The **RECIPIENT** shall provide evidence that its minimum cost-share of 50% has been met for each submitted invoice. Absence of proper supporting documentation may result in non-payment or audit and return of prior payments. In no event shall the **DISTRICT** be liable for any contribution hereunder in excess of \$100,000.
7. If the total consideration for this **AGREEMENT** is subject to multi-year funding allocations, funding for each applicable fiscal year of this **AGREEMENT** will be subject to Governing Board budgetary appropriation. In the event the **DISTRICT** does not approve funding for any subsequent fiscal year, this **AGREEMENT** shall terminate upon expenditure of the current funding, notwithstanding other provisions in this **AGREEMENT** to the contrary. The **DISTRICT** will notify the **RECIPIENT** in writing after the adoption of the final **DISTRICT** budget for each subsequent fiscal year if funding is not approved for this **AGREEMENT**.
8. The **RECIPIENT** shall submit quarterly financial reports to the **DISTRICT** providing a detailed accounting of all expenditures incurred hereunder throughout the term of this **AGREEMENT**. The **RECIPIENT** shall report and document the amount of funds expended per month during the quarterly reporting period and the **AGREEMENT** expenditures to date within the maximum not-to-exceed **AGREEMENT** funding limitation.
9. The **RECIPIENT's** contribution shall be at least 50% of the total amount of the project in conformity with the laws and regulations governing the **RECIPIENT**.
10. All work to be performed under this **AGREEMENT** is set forth in Exhibit "A", Statement of Work, which is attached hereto and made a part of this **AGREEMENT**. The **RECIPIENT** shall submit quarterly progress reports detailing the status of work to date for each task. The work specified in Exhibit "A" shall be under the direction of the **RECIPIENT** but shall be open to periodic review and inspection by either party. No work

set forth in Exhibit "A" shall be performed beyond September 28, 2018 unless authorized through execution of an amendment to this **AGREEMENT** to cover succeeding periods.

11. The **RECIPIENT** shall not subcontract, assign or transfer any other work under this **AGREEMENT** without the prior written consent of the **DISTRICT's** Project Manager. The **RECIPIENT** agrees to be responsible for the fulfillment of all work elements included in any subcontract and agrees to be responsible for the payment of all monies due under any subcontract. It is understood and agreed by the **RECIPIENT** that the **DISTRICT** shall not be liable to any subcontractor for any expenses or liabilities incurred under the subcontract(s).
12. Both the **DISTRICT** and the **RECIPIENT** shall have joint ownership rights to all work items, including but not limited to, all documents, technical reports, research notes, scientific data, computer programs, including the source and object code, which are developed, created or otherwise originated hereunder by the other party, its subcontractor(s), assign(s), agent(s) and/or successor(s) as required by the Exhibit "A", Statement of Work. Both parties' rights to deliverables received under this **AGREEMENT** shall include the unrestricted and perpetual right to use, reproduce, modify and distribute such deliverables at no additional cost to the other party.
13. The **RECIPIENT**, to the extent permitted by law, assumes any and all risks of personal injury, bodily injury and property damage attributable to negligent acts or omissions of the **RECIPIENT** and the officers, employees, servants and agents thereof. The **RECIPIENT** represents that it is self-funded for Worker's Compensation and liability insurance, covering bodily injury, personal injury and property damage, with such protection being applicable to the **RECIPIENT**, its officers and employees while acting within the scope of their employment during performance of under this **AGREEMENT**. In the event that the **RECIPIENT** subcontracts any part or all of the work hereunder to any third party, the **RECIPIENT** shall require each and every subcontractor to identify the **DISTRICT** as an additional insured on all insurance policies as required by the **RECIPIENT**. Any contract awarded by the **RECIPIENT** shall include a provision whereby the **RECIPIENT's** subcontractor agrees to indemnify, pay on behalf, and hold the **DISTRICT** harmless from all damages arising in connection with the **RECIPIENT's** subcontract.

STATEMENT OF WORK

Dykes Road Drainage and Water Quality Project Town of Southwest Ranches

1.0 INTRODUCTION AND BACKGROUND

The South Florida Water Management District (**DISTRICT**) has allocated funding in Fiscal Year 2017 to local governments and other entities for construction and implementation of stormwater management, alternative water supply, and water conservation projects through the Cooperative Funding Program.

The goal is to improve the water quality of urban runoff through the implementation of Best Management Practices (BMP's) prior to being discharged into the C-11 Canal, which directly discharges into Everglades Water Conservation Area 3A.

The project was intentionally designed to include two (2) acres of created wetlands along the park waterway to improve water quality from the surrounding stormwater run-off. All drainage components will be constructed in compliance with National Pollutant Discharge Elimination System (NPDES) criteria including required BMP's.

This project includes the installation of catch basins along Dykes Road (SW 160th Avenue) to mitigate flooding and convey stormwater away from the respective roadway. Water will be directed east into the Calusa Corners Park, through a pipe and into a swale. The water will be treated by an overland grassed swale and an improved wetland area before discharging into the adjacent Ivanhoe Canal. The Ivanhoe Canal flows to the south and then a mile west to the SW 172nd Avenue canal and then two (2) miles north to its pump station at the C-11 Canal before direct discharge into the adjacent Everglades Water Conservation Area 3A.

2.0 OBJECTIVE

General project objectives, which align with the mission of the **DISTRICT**, include managing and protecting water resources of the region by balancing and improving flood control, water quality, and natural systems. The project specific objectives are to reduce flood staging within Dykes Road during heavy rainfall events and to improve water quality from the stormwater runoff. Currently, the roadway is prone to extensive and prolonged flooding within the project limits described above due to the lack of positive drainage connections. Drainage for the roadway is provided primarily through a series of roadside swales/ditches with inadequate connections to South Broward Drainage District (SBDD) facilities. The inter-connect culvert under Dykes Road will allow for the future extension of the drainage system to the west and improved drainage for the residential properties west of Dykes Road.

3.0 SCOPE OF WORK

The Town of Southwest Ranches (**RECIPIENT**) shall install six (6) drainage structures with associated piping, swales, erosion control, and necessary restoration along Dykes Road (SW 160th Avenue) to convey stormwater through a 48" culvert that ties into stormwater amenities and an improved wetland area within the Calusa Corners Park before discharging into the adjacent

Ivanhoe Canal. The project shall be constructed in accordance with design plans, project specifications, and applicable permits.

The **RECIPIENT** will be responsible for satisfactory completion of the scope of work and may retain consultants, contractors, and/or vendors to provide the professional and construction services required. The **RECIPIENT** will also be responsible for project management, budget management, quality control, and public outreach.

4.0 WORK BREAKDOWN STRUCTURE

The work breakdown structure is presented below:

Task 1

Submit design plans, project specifications, bid amount documentation, and Notice to Proceed (NTP) to the **DISTRICT** Project Manager via email.

Initiate construction activities per design plans, project specifications, and applicable permits.

Tasks 2 through 7

Continue construction activities per design plans, project specifications, and applicable permits.

Submit a quarterly status report (Exhibit "C") to the **DISTRICT** Project Manager via email which provides a narrative of construction activities completed since the NTP was issued; a discussion of project status; an explanation of conflicts or issues, if any, which may affect construction progress or project performance; and a description of other pertinent information attached to the quarterly status report such as project oversight/management documentation, results from applicable inspections or field tests, addendums or revisions to design plans or project specifications, and relevant project correspondence.

Task 8

Complete construction activities (100%) per design plans, project specifications, and applicable permits.

Submit a Reimbursement Request Package to the **DISTRICT** Project Manager which includes Certificate of Completion, a **RECIPIENT** invoice and supporting documentation such as consultant, contractor, and/or vendor invoices and proof of payment(s).

STATEMENT OF WORK

Dykes Road Drainage and Water Quality Project

Town of Southwest Ranches

1.0 INTRODUCTION AND BACKGROUND

The South Florida Water Management District (**DISTRICT**) has allocated funding in Fiscal Year 2017 to local governments and other entities for construction and implementation of stormwater management, alternative water supply, and water conservation projects through the Cooperative Funding Program.

The goal is to improve the water quality of urban runoff through the implementation of Best Management Practices (BMP's) prior to being discharged into the C-11 Canal, which directly discharges into Everglades Water Conservation Area 3A.

The project was intentionally designed to include two (2) acres of created wetlands along the park waterway to improve water quality from the surrounding stormwater run-off. All drainage components will be constructed in compliance with National Pollutant Discharge Elimination System (NPDES) criteria including required BMP's.

This project includes the installation of catch basins along Dykes Road (SW 160th Avenue) to mitigate flooding and convey stormwater away from the respective roadway. Water will be directed east into the Calusa Corners Park, through a pipe and into a swale. The water will be treated by an overland grassed swale and an improved wetland area before discharging into the adjacent Ivanhoe Canal. The Ivanhoe Canal flows to the south and then a mile west to the SW 172nd Avenue canal and then two (2) miles north to its pump station at the C-11 Canal before direct discharge into the adjacent Everglades Water Conservation Area 3A.

2.0 OBJECTIVE

General project objectives, which align with the mission of the **DISTRICT**, include managing and protecting water resources of the region by balancing and improving flood control, water quality, and natural systems. The project specific objectives are to reduce flood staging within Dykes Road during heavy rainfall events and to improve water quality from the stormwater runoff. Currently, the roadway is prone to extensive and prolonged flooding within the project limits described above due to the lack of positive drainage connections. Drainage for the roadway is provided primarily through a series of roadside swales/ditches with inadequate connections to South Broward Drainage District (SBDD) facilities. The inter-connect culvert under Dykes Road will allow for the future extension of the drainage system to the west and improved drainage for the residential properties west of Dykes Road.

3.0 SCOPE OF WORK

The Town of Southwest Ranches (**RECIPIENT**) shall install six (6) drainage structures with associated piping, swales, erosion control, and necessary restoration along Dykes Road (SW 160th Avenue) to convey stormwater through a 48" culvert that ties into stormwater amenities and an improved wetland area within the Calusa Corners Park before discharging into the adjacent

Ivanhoe Canal. The project shall be constructed in accordance with design plans, project specifications, and applicable permits.

The **RECIPIENT** will be responsible for satisfactory completion of the scope of work and may retain consultants, contractors, and/or vendors to provide the professional and construction services required. The **RECIPIENT** will also be responsible for project management, budget management, quality control, and public outreach.
